DIARY AND CONSULTATION BOOK, 1756.

INTRODUCTION.

1756 was an eventful year in the history of the Company's possessions in India. During this year, Pigot and his Council at Madras were faced not only with the problem of re-establishing Nawab Muhammad 'Ali's authority in the Carnatic, but also with the task of equipping and despatching an expedition to Bengal in order to recover Fort William and other factories which were suddenly attacked and captured by Suraj-ud-dowlah. The Military Consultations volume of the year, which has already been published, describes a series of political events; Major Kilpatrick's unsuccessful attempts to reduce Vellore or to bring Murtaza 'Ali to terms[1], the troubles with the French in the contested districts[2], Yusuf Khan's operations in the Madura and Tinnevelly countries[3] and the final stages of the Bengal Expedition, of the actual despatch of Clive with Watson and his squadron[4]. But the events leading to the project of the expedition, the news of the fall of Cossimbazar, of Fort William, of Dacca, and of the urgent deliberations made thereon, all these are recorded only in the two volumes of the Public Consultations[5]. This is explained by the fact that till the 22nd September the whole Council deliberated upon the Bengal affairs, whereas after that date it was the Select Committee for transacting Country affairs that deliberated upon them[6].

The Public Consultations of the year, besides dealing with the Bengal affairs, describe as usual the measures taken to secure the Company's Investment, to regulate the finances and to rent out the Company's farms. They also contain some information about the Mayor's Court and throw some light on the conditions prevailing at Negrais.

Pigot and his Council never failed to make frequent remittances to the various subordinate factories, Fort St. David, Vizagapatam, Ingeram and Bandermalanka, to encourage the Investment[7]. But they carefully examined all the bales sent and insisted that, as far as possible, the cloth supplied should be of the right quality[8]. In Madras itself, they tried to encourage the Investment in fine goods by contracting with the old sets of Company's merchants, rather than with new merchants, knowing full well that the tender system which the Court of Directors had advocated, was bound to prove ineffectual as in 1755 and, what is more, "to lessen in the eyes of the public the character of a Company's merchant." They warned the merchants, however, that if they brought in inferior cloth, it would be bought only at an abatement on the muster price[9]. But, when the Directors pressed that sealed tenders should be invited from all merchants, they could not but obey this order. Sealed tenders were, therefore, invited for the provision of ordinary goods and the same system was ordered to be adopted in Fort St. David also[10]. In October, on the advice of the Directors, a Committee consisting of Pigot, Powney and Orme was appointed to consider the ways and means to improve the Investment[11].

As in the previous years the Council had frequently to sell large amounts of rupees to obtain pagodas. Almost every time a remittance was to be made, rupees had to be sold either to Linga Chetti[12] or to the Company's servants[13]. We find that the exchange rate during the year stood at 368 rupees for 100

pagodas. Again, on the suggestion of the Committee of Accounts, the Council took many measures to check irregularities in the accounts[1]. Bribery and carelessness in financial matters were meted out with severe punishment. It was on the charge of bribery and financial irregularities that Henry Hopkins was removed from his post of Chief of Devicotta [2]. It was for his carelessness that Richard Starke, the Deputy Governor of Fort St. David, was required to make good a deficiency in cash in the treasury[3].

The rents of the Company's farms, as they fell due, were collected with regularity and on the expiry of the lease period, the farms were generally auctioned at higher rents than those of last year. The farms of Devicotta and St. Thome, of Ruby brokerage, of Trivattur, Egmore and Perambur were let at higher rents than what they fetched in 1755 [4]. The Poonamallee and Tiruvendipuram farms, however, fetched lower rents [5]. The farms of Chingleput, Covelong, Seven Maganams of the Tripassore Country and Manimangalam were let as ordered by the Select Committee [6]. And, as for the Fort St. David farms, though the Deputy Governor thought that they could be let at considerably higher rents in Fort St. David itself, Pigot and his Council refused to set aside the prevailing practice, and auctioned them in Madras [7]. The Council also resolved not to permit any European to bid for the Company's farms or be concerned in them in any manner. But, all the same, they represented to the Court of Directors both the advantages as well as the disadvantages of that system [8]. It may also be mentioned here that the assignment of eight lakhs from the Arcot revenues made by the Nawab was duly recovered during the year [9].

An important question which Pigot and his Council wished to consider was, whether and if so, in what manner, Indians could be permitted to bring in suits regarding property in the Mayor's Court—a privilege which was denied them by the Charter. The Council consulted the Mayor, George Mackay, the Senior Alderman, John Walsh, as well as the Chiefs of the Castes and other prominent Indians upon this question. It had to be ascertained whether the measure would be agreeable to the majority of the people, whether they wished to have their own customs preserved to them in all or any cases or whether in any way they preferred the English laws. The Indian gentlemen, however, said that these were matters of too great consequence, "upon which they wished to consult the people of the several castes" and desired time. This was granted [10], but subsequently nothing came out of the measure during the year. Meanwhile, the Mayor's Court had sent in a letter to be forwarded to the Directors, requesting orders on several points connected with the Charter. This was ordered to be sent Home [11].

During the year, in the vacancies caused by the resignations of Edward Edwards [12] and Andrew Munro [13] and the death of John Browning [14], James Alexander [15], Capt. Burman [16] and Henry Brooke [17] were appointed as Aldermen. And in December at the annual elections for choosing a new Mayor and Sheriff for the ensuing year, Andrew Ross was chosen Mayor and George Stratton, Sheriff and Coroner [18]. About the same time, the Court of Requests informed the Council that thay had met and balloted in twelve new Commissioners in the place of those who had to go out by rotation [19].

Early in the year, letters came from Henry Brooke, Chief of Negrais, mentioning the hostile attitude of the country powers, the attempts made by him to erect godowns and magazines and the extreme sickness of the season which had taken a heavy toll among his men and affected his health also[20]. Upon his request the Council permitted him to return to the Coast and appointed

Captain John Howes in his place [1]. They also made arrangements for sending provisions and men to Negrais [2]. After handing over charge to Howes, Brooke returned to Madras in June [3]. Towards the end of the year we learn that John Howes and Thomas Newton prevailed upon the Prince of Persiam to grant permission to the Company to build a fort upon a high spot of ground in old Persiam, known as Pagoda Hill and that the English flag was hoisted there on the 5th August. But as ill-luck would have it, though the Prince of the Burmese permitted the Company to establish a settlement in Persiam, Newton, who was left in charge of it, had soon to quit the place on account of the hostile attitude of the people and the scarcity of provisions [4].

Among other matters of interest in these Consultations may be mentioned the steps taken to regulate the boats in the Madras Harbour [5], to ensure an adequate supply of gunpowder [6], to enlarge the Silver Mint [7] and to erect two mills to grind mortar and cement in Madras [8]. The Council also, we learn, granted an additional allowance of 100 pagodas per month to Colonel Lawrence[9] and appointed Andrew Munro as the Company's Physician in Madras on his retirement from the post of Chief Surgeon of the Hospital [10].

——*FORT ST. GEORGE, JANUARY 1756*——

List of Officers with their Ranks approv'd.

Some disputes having arisen among the Officers concerning their Rank, a Compleat List of all those belonging to the Company at present on the Coast is now produced and approv'd by a Majority of the Council, and enter'd hereafter, and Brevets are order'd to be drawn out for such as have not had them, but Colonel Lawrence who is undoubtedly more conversant herein, being of Opinion that this method of settling the Rank may occasion Confusion at some time or other AGREED that it be recommended to the Company to order that hereafter all Officers in General shall Rank according to the Dates of the first Commission they are honour'd with, and that to put their Military upon the proper footing they ought to be, it is necessary that fresh Commissions should be given to all the Officers who have had Brevets and those Commissions to bear the same dates their Brevets did, but this the Council don't chuse to do without the Companys particular directions as it may disgust such of the Officers as would be prejudiced in their Rank thereby.

Brevets to be drawn out.

The Company to be wrote to on this Head.

The means of determining matters of Property among the Indian Natives consider'd.

The Board taking into Consideration the Companys recommendation in their Commands of the 31st. January 1755 under the Head of Charter relating to the Method of determining matters of property among the Indian Natives who by the Charter are excluded from the Liberty of suing in the Mayors Court.

Major &c Senior Aldermen Chief of the Casts to meet the Presidt. and Council if possible before the next Europe Dispatch.

AGREED that the Mayor and the two Senior Aldermen and some of the Chief Men of each of the Casts be desired to meet the President and Council if possible before the next Europe dispatch, to Consider of a proper Method to be recommended to the Company that a Clause may be added to the Charter.

Accountants Report of the ships & vessels on the General Books and also of Deceased Persons Estate.

The Accountant lays before the Board the Accounts of the Honble Companys Sloops and Vessells as they are extracted from the General Books, and Remarks that all these Vessells now stand at an immense Charge, much exceeding their first Cost, as will appear by the following Statement.

	Prime cost.	Present amount.	Increase.
Arcot Snow	2483·28·75	7056 33 46	4573 4 51
Sloop Fortune	394·26·42	994 14 31	599 23 69
Sloop Cuddalore	5877·10 3	10890 8 7	5012 34 4
Ship Prince George	10000 — -	22544 3 74	12544 3 74
Sloop Dragon	300 — —	2022 8 19	1722 8 19

Which encrease as will appear by the Accounts Current have arose from the Charges and Expences incurr'd on those Vessells having never been regularly and Annually wrote off to Profit & Loss, and Credit not having been regularly given for the Freights and Services they have render'd to the Company. He likewise represents that the Brillant Snow stands on the Books at the sum of Pagodas 17710. 19. 5 altho' that Vessell has never been heard of since the October Storm 1752. The Sloop Porto Bello has likewise not been heard of for a twelve Month and stands on the Books at the sum of Pagodas 17601.13.52. The Accountant desires the directions of the Board concerning these Heads and whether he may write off to Account Current London the following Estates of deceased Persons standing Creditors on the Companys Books, as thereby the Company will be able to ascertain the Claims of the Heirs in London Vizt.,

General Letters read Vizt.

General Letter read From St. David. No. 3. From Richard Starke Esqr. Deputy Governour & Council at Fort St. David dated the 10th. Instant accompanying their Consultations and Monthly Accounts for November, and acquainting us that the Deputy Governour had inform'd them he found a deficiency in the Cash of One thousand seven hundred and twelve Pagodas twenty one fanams and fifty six Cash (1712.21.56) which he says must be owing to the Companys Shroff whom he solely entrusted with the Charge of it, desiring our directions thereon.

From Bombay. No. 4. From Richard Bourchier Esqr. President & Council of Bombay, dated 2d. December acquainting Us of the Arrival of Our Hon'ble Masters Ships Edgecote & Houghton from England with five Packets for Us, enclosing those abovementioned and promising to forward the Rest shortly by Pattamars.

That a few days ago a large French ship named the Duke d' Acquitaine imported at Mahé last from Pondicherry, enclosing the Packet beforementioned from Bombay, and advising that they have 3247 Ca. 9 Md. of pepper remaining of last years Crop, which, with what lyes at Anjengo, is near four Ships Cargos, and they as yet know but of two, the Pelham & a ship from Bengal, that the Stretham is arrived there from Bombay & will return in a few days with Stores & Rice and then be dispatch'd for Europe.

AGREED that Pattamars be dispatch'd to Bombay to acknowledge the receit of their Letters and acquaint them of the disposition of the Honble Companys Shipping in different parts agreeable to our late Advices. Pattamars to be dispatch'd to Bombay.

AGREED that a General Letter be wrote to the Deputy Governour & Council at Fort St. David acquainting them that as the Companys Orders are that the Cash keeper shall be answerable for what comes under his Charge We are under a necessity of directing that the Deputy Governour immediately make good the sum that is * wanting, to compleat the true Ballance of the Companys Cash, for as the shroff is properly no more than a Teller the Deputy Governour did very wrong in giving him the sole Charge of the Cash and the risque must therefore be his own, not the Companys. Orders to St. David relating to a deficiency of Cash.

The President acquaints the Board that Mr. Francis William Massey Surgeons Mate at Fort St. David has represented that his bad state of Health renders him incapable of giving due attendance in the Hospital & therefore he requests to be indulged with the Liberty of residing here some time to endeavour his recovery. No. 11 & No. 12 From the President and Council at Fort William. The first dated the 5th. January acquainting Us that they had receiv'd ours of the 13th. October by Pattamar. That the Denham not being return'd from the Negrais they have deferr'd sending the Duke of Dorset to Tellicherry, that they may not be disappointed of a ship to carry home the Bales they shall have ready by the end of this Month. That they now dispatch the Eastcourt to us and have laden on her Three hundred (300) Tons of Salt Petre and Thirty (30) Tons of Redwood as ℔ Invoice & Bill of Lading enclosed, leaving to Us to take out as much of the Salt Petre as necessary to make Room for our Bales. That they have likewise laden on her and Consign'd to Us Two thousand (2000) Bags of Rice on the Hoñ'ble Companys Account. That they have also put on board the proportion of Stores for the use of St. Helena and sent the Gentlemen there the Invoice & Bill of Lading. That Mr. William Billers is to dispatch the Ship from Ingellee who will advise Us of the needful from thence. Enclosing the Eastcourts Charter Party &c^{a}. desiring if We should make them any large Remittances of Treasure before the Arrival of the next shipping that We will send forty (40) Chests of it in Bullion and the Remainder in Madras Rupees. The other dated the 8 Instant acquainting Us that since their last the Bonetta Sloop has return'd from the Negrais with Advices from M^{r}. Prooke concerning the Denham which Ship they hourly expect in the

River, but as she has suffered very much by lying at that place they apprehend it will be necessary for her to come up to Town to refit which will occasion great delay and make her Dispatch for Europe late, however they shall do all they can to expedite her as early as possible. That Mr. Brooke having made Indents for a large quantity of Stores of all kinds, they took the Liberty to open his Packet design'd for Us to see if he expected to be supplied with those Stores by them only or by Us, which they hope We will excuse, assuring us of their ready Complyance with the Indents the Amount of which they shall debit Us for. That the last time the Cuddalore Sloop left that place Captain Hammond was supplied with a spar for a Bowsprit, which having been omitted in the Account Disbursements before sent Us, They desire We will Credit them for the Amount of, being A. Rupees Two hundred (200).

Nº. 13 From Mr. William Billers dated at Ingellee the 13th. Instant advising the dispatch of the Eastcourt from thence to Us with her draft of Water and enclosing the usual Papers. Ingelle.

Nº. 14 & No. 15 From Mr. Henry Brooke Chief at the Negrais, receiv'd via Bengal, The first (being a Duplicate the Original whereof is not yet receiv'd) dated the 17 October advising Us that since closing his last dated the preceeding day, the Cuddalore Sloop arrived with our Letter of the 8 September and as our Orders in regard to the Denham are not determinate he had detain'd her, as the Attendance of a Europe ship is indispensably necessary both for the Defence of the Settlement & for supplying the want of Godowns for Provisions and Magazines for Powder and Stores, as those Godowns they have hitherto been able to erect being only composed of sticks & Covered with Grass are liable to Accidents which might inevitably ruin them. as they cannot possibly have any supplies from the Country & for this reason it was that they kept always a Reserve on board the Denham. That by this Conveyance to Bengal he Indents to the Gentlemen there for Coolies & People that he may be enabled to erect Brick Buildings for stores and to secure himself from the attempts of a Country Enemy. The other dated the 7 December acknowledging the Receit of our Letter of the 21st. October with the Military for that Settlemen by the Prince George which Ship arrived the 1st. Instant and acquainting us that the Arcot Snow being still at Syrian with the Treasure on board he imagines she must be forcibly detain'd as she has had sufficient time & fair Weather to have made her passage long since. That the Gentlemen at Bengal having wrote to him by the Boneta Sloop the 10th. November desiring him to return the Denham as soon as possible these Advices threw him into some difficultys, which were removed by the Arrival of the Prince George. That as soon as the Stores and Provisions are transported from the Denham to the Prince George, he proposes to dispatch the former to Bengal with the utmost Expedition. That the Captain of the Prince George having inform'd him that his ship is by no means in a Condition to remain there a season, He has acquainted the Gentlemen at Bengal with it and desired they would send a ship proper both for the Defence of the settlement, and the receiving their stores which, should they comply with he shall then forward the Prince George to Bengal agreeable to our directions. That the extreme Sicklyness of the season and the many Deaths that have happen'd particularly Mr. Pecuda's has put it out of his power to regulate the Company Books & Papers in the Manner he could wish & especially as hehimself is fallen into so bad a state of Health that it is impossible for him to go thro the Business of the Settlement. He theefore begs leave to return to the Coast by the first Conveyance as the only means he has left to save his Life. That Ensign John Dyer being also in a bad state of Health requests permission to return to Fort St. George. That he proposes to return the Cuddalore sloop to the Coast by the first of January and on her to send the Occurrence & other Papers relating to the settlement as fully as he can, but veen then he fears he shall fall short of what he could desire, as he was obliged to dictate this from a sick bed. Negrais.

——*FORT ST. GEORGE, JANUARY 1756*——

That in Order to render their adjustment the more clear he had been necessitated to open a regular Journal and Ledger of Adjustments for each Head the Concluding Ballance Entries of which Journals are the Entries of Adjustments on the General Books. These Journals and Ledgers are now laid before the Board. He also now lays before the Board the Accounts Current of the Companys Sloops and Vessells adjusted which have hitherto been neglected. By all which Adjustments a very large sum will be wrote off to the Loss of this Presidency in the Books Ending April 1755. He also represents to the Board that the Deve Cotah Books still remain to be settled as well as the Head of Materials under the care of John Brohier both which shall be done in the next Books and have necessarily been deferr'd on account of the time and attention given to the abovementioned Adjustments. He also acquaints the Board that by the share Mr. Alexander has had in this Labour he has great reason to be satisfied with his application and ability and that Mr. Pelling (who was taken into the Office to assist in this Business) merits the Consideration of the Board.

The secretary lays before the Board a state of the Duties of Chindadreepettah Pagoda.

The Secretary lays before the Board Account of the Duties by him Collected on Account of Chindadreepettah Pagoda for the year 1754 whereby it appears that the whole amount of the Duties of which he has been able to get any Account from the Inhabitants is Two hundred and sixty four (264) Pagodas and Thirty nine thousand Two hundred and two fanams and forty six Cash (39202.5 [*sic*]) and that after deducting thereout the Charge of the Pagoda and Servants Wages and writing off Twenty nine Pagodas Four thousand nine hundred and sixty seven fanams and thirty five Cash

which (of these known Duties) the Persons absolutely refuse to pay, the nett Ballance paid and to be paid into Cash for the whole Year is no more than Seventy three Pagodas Eighteen thousand fanams and fifty one Cash (73.18005[*sic*].51) or at the rate of thirty six (36) fanams ℔ Pagoda, Pagodas Five hundred and seventy three five fanams and fifty one Cash (573.5.51) whereas Jaggoo in his petition to the Court of Directors mentioned in their Commands of the 23d. August 1751 undertook to pay yearly into their Cash Pagodas Two thousand (2000) in discharge of the debt due to the Company by the Managers of that Pagoda & Pettah. The Secretary further acquaints the Board thot it is with the greatest difficulty he has been able to Collect even the sum as the people in General are greatly dissatisfied and Murmer at it, and that many persons (a List of whom he now lays before the Board) absolutely refuse to pay or to give any Account at all andthere are no oher means of obtaining any but from their own private Accounts.

Considerations thereon.

The Board having Considered the Original Intention of this Duty, the Companys directions and recommendations the representations made to them on the subject and weighing also the present state of the settlement and the general discontent of the Inhabitants that this Contribution Originally intended for religious purposes should be apply'd to other uses, and finding themselves without any legal power to compel such of the Inhabitants to pay who refuse it whereby they are daily exposed to have their Orders disregarded the bad Effects of which are obvious, upon all these Considerations the Board think it more for the General good of the settlement to abolish these Duties than attempt any rigorous Measures for obliging the Inhabitants to pay them. It is therefore AGREED that no further Duties be levied on the Inhabitants on Account of Chindadree Pettah and Pagodas but that if any Persons should be inclin'd to make any free Gift towards supporting the said Pagodas they may be at Liberty to do so provided no Articles for Trade be thereby burthen'd.

The Duties abolished.

——*FORT ST. GEORGE, FEBRUARY 1756*——

FORT ST. GEORGE,
2D. FEBRUARY 1756.

ERRORS EXCEPTED
JOS DUPRE,
Secy.

TO THE HON'BLE GEORGE PIGOT ESQR. PRESIDENT &
GOVERNOUR &CA. COUNCIL OF FORT ST. GEORGE.

HONBLE SIR & SIRS,

I did myself the Honour under the 28th April 1755 to represent to you the state in which I found the General Books of this Presidency. I now beg leave to lay before you what has been done to them since that Time.

The Heads of Vizagapatam, Ingeram, Ganjam, Madapollam, Fort St. David and Fort Marlbro' had never since the Loss of Madras been adjusted with the Books kept at those Places.

The Complications of these Adjustments was such, that I was necessitated to open a regular Journal and Ledger of adjustments for every one of the above heads. The Concluding Ballance Entries of these Journals become with a little variation in the form, the Entries of Adjustment of these Heads on the General Books; And tho this Method may appear uncommonly prolix, it has certainly this one Advantage, that it leaves no possibility of forcing or Lumping the Adjustments, without leaving the Detection practicable to the Commonest Notion of Accounts.

———*FORT ST. GEORGE, FEBRUARY 1756*———

In Consequence I now lay before you Journal Ledger and Account Current of Adjustments of the following Factories and Settlements, as far back and as low down as the Books and Accounts of those Places remaining in Madras afforded Materials to work on, or as far as Adjustments were found necessary.

Vizagapatam Adjustments	Commencing May	1748.
	Ending April	1754.
Ingeram	Commencing May	1747.
	Ending April	1754.
Maddapollam	Commencing May	1751.
	Ending April	1754.
Ganjam	Commencing May	1747.
	Ending April	1751.
Fort S^{t}. David	Commencing May	1752.
	Ending April	1754.
Fort Marlborough	Commencing May	1748.
	Ending April	1753.

At the end of every one of the Journals is annex'd the Form of the Entries to be made on the General Books of this Presidency to adjust finally each particular Account, I hope they will meet with Your Approbation.

I likewise lay before you the Accounts Current of the Hoñble Company's Sloops and Vessels adjusted which has hitherto been neglected.

A very large Sum will in consequence of these Adjustments be wrote off to the Loss of this Presidency in the Books ending April 1755 as all the above settlements appear by their own Books to be losing Accounts, and their Annual Loss, for want of Adjustments has not been regularly wrote off.

As for DeveCotah the Time given to other Attentions has not allowed the distracted Accounts of that settlement to be adjusted. Their Books must be entirely new modelled here, for tho they have sent what is called by them a Journal and Ledger. The Head of their Ballance in this Ledger differs from the Accounts which they have kept themselves in near Three Thousand Pagodas which they leave to others to find out and account for this shall be the first Work in the next Books.

To which likewise the above Attentions have obliged us to defer the Adjustment of the Head of Materials under the Care of John Brohier.

This done Nothing will then remain to perplex our General Books if the Annual Adjustments shall be hereafter regularly made.

Permit me Gentlemen to do Mr. Alexander the Justice to say, that by the share he has taken in this Labour, I have great reason to be satisfied with his Application and Ability and Mr. Pelling merits that I should recommend him to your Consideration. I am with the greatest Respect,

HOñBLE SIR & SIRS

Your most Obed^{t}. & most hble Serv^{t}.

From Bombay.

N°. 20 From the President and Council at Bombay dated the 4 January advising us that on the 2^d^. December they forwarded by way of Tellicherry three Europe Packets for us receiv'd by the Edgecote and Houghton and that there are two others which they defer sending till a Sea Conveyance offer being from the Secret Committee. That they receiv'd our Letter of the 23^d^. November and are glad We have so fair a Prospect of assisting the Tonnage from Bengal with which Assistance and the ship they wrote for to be loaded at Tellicherry the Gentlemen at the Bay write they shall be able to return all the Ships on this side of India, That the Pelham Captain George Lindsay was then under dispatch to be filled up on the Malabar Coast & would sail about the 20^th^. Desiring us to forward a Packet for the President and Council at Bengal and at the same time assuring us that they will embrace the first Opportunity to reimburse Us what We consign'd the Supra Cargo's of the Warren at Canton. That Lieutenant Hugh M^c^Kie and Ensign David Black have made application to them for their Pay as Quarter Master & Adjutant

———*FORT ST. GEORGE, FEBRUARY 1756*———

to Captain Forbes's Detachment to the day of their Arrival there, which they decline complying with untill they know whether We think those Gentlemen are entitled thereto And that they had paid Captain Zeigler and two of his Volunteers two Months Batta each upon their representation from them that Notwithstanding our Advices of the 9th. October they had not receiv'd the same. General Letters read.

No. 21 From Thomas Hodges Esqr. Chief &ca. Factors at Tellicherry dated 16th. January serving only to enclose a Packet from Bombay receiv'd there by Pattamar Boat & to acquaint Us that the Stretham was then under dispatch for Mangelore to take in some Rice and proceed to Bombay from whence she is to be dispatch'd for Europe with a Loading of Pepper this season and that the Pelham which they hear was to leave Bombay about the 20th. of the Month would be dispatch'd from Tellicherry immediately on her Arrival. From Tellicherry.

No. 22 and 23 From Mr. Henry Brooke Chief of the Negrais. The first (a Duplicate the Original of which is not yet receiv'd) dated the 23d. December 1755, Acquainting us that he wrote Us by the way of Bengal on the 7th. of that Month since when nothing has occurred worth Notice except that he had receiv'd Advices by a Country Vessell from Syrian dated the 11th. of that month that the Snow Arcot is forcibly detain'd there by the Uppa Rajah who has put on board her upwards of seventy Peguers but that Captn. Jackson had privately found means to forward to the Negrais sundry stores and sixteen thousand Rupees & Copper Cash which he has receiv'd and That he hopes to dispatch the Cuddalore Sloop to us in the beginning of January. The other dated the 26th. January acquainting Us that he had receiv'd no Advices or Country Intelligence since the 23d. December when he wrote us by way of what sent by the Arcot Snow which he cannot account for, and therefore refers Bengal by the Denham. That there is a deficiency of 69256 Copper Cash in it to Us to make an Enquiry about it. That Mr. John Agey Adjutant having been guilty of a breach of Military Duty, a Court of Enquiry had been held upon him, in consequence of which he now sends him under Confinement with the Proceedings of the Court as also one John Drury a Centinal for Desertion. That he has permitted Mr. John Whitehill to come over for the recovery of his Health who proposes to return so soon as it is re-established. That Mr. William Anderson Surgeon having had many severe fits of sickness, requests our permission to return to the Coast as does Ensign John Dyer for the same Reason to whom he has granted the usual Allowances of an Adjutant till our Pleasure be known as that Gentlemen has diligently done the Duty of an Adjutant ever since Mr. Agey's Confinement. That his last years Indents to Bengal for Stores and Provisions having been only Calculated for twelve Months which time expired the 30 October, he is under great Apprehension that he will soon be reduced to short allowances unless he has a speedy supply especially as the Prince George's Crew and the Great Number of Refugees that have fled thither for protection make the Monthly Consumption much greater than what he expected. He therefore begs that We would take proper Measures for his speedy Relief. That his bad state of health has prevented his dispatching the Cuddalore Sloop to us in the beginning of the Month as he intended, having had a fourth Attack of a Fever. A Distemper that has swept of many of the Europeans on the Island & that his weakly Constitution make him very desirous of having our permission to return to the Coast. That should We think proper to send back the Cuddalore to him with some Bags of Salt which is much wanted there, she may return to the Coast in April with a Loading of Teak Timbers, which he has ready to send on board her. That he has drawn sundry Bills of Exchange on us which he hopes We will Honour enclosing the Cash Account & other Papers as ℔ List of the Packet & referring Us to Mr. Whitehill and Captn. George Baker to inform us more particularly of Circumstances relating to the Island as well as of the Customs and Genius of the Peguers & Burmahs. From Negrais. General Letters read. General letters read.

David dated the 6 Instant, acknowledging the receit of our Letter of the 3^{d}. and acquainting us they shall dispatch the Dragon Sloop with all the Bales she can carry as soon as possible, that their Annual Papers shall be forwarded in two or three days. That the Deputy Governour agreeable to our order had made good the deficiency in the Cash and requesting a supply of twenty thousand Pagodas and fifty thousand Rupees, as their Ballance is low.

From Vizagapatam.

No. 25 & 26 From Charles Boddam Esq^{r}. Chief &c^{a}. Council at Vizagapatam the first dated the 13 Ultimo Advising that in Consequence of our directions of the 23^{d}. November and 18 December they have credited Us for the amount of the sum deposited in the Companys Cash there, by order of the Mayors Court that they forwarded the Bengal Packets immediately upon the receit of them. That their Bales shall be sent as soon as possible the Quality of which, as well as the Quantity they hope will prove staisfactory Requesting an early supply both in Rupees and Madras Pagodas for their next Investment & enclosing their Monthly Papers as usual. The other dated the 24th. Ultimo, being purposely to advise us that the Arcot Snow arriv'd there the preceeding day in so bad a Condition that Captain Jackson address'd Mr. Boddam by Letter for leave to carry her into the River. That our Letter of the 30th. Decem^{r}. had arriv'd safe with the supply of Cash accompanying it which they wish had been larger as they are in great want of both of Rupees and Madras Pagodas and that they are exerting their utmost diligence for the dispatch of their Bales which they hope will come time enough.

Mr. Brooke permitted to return from Negrais.
Mr. Andrews Newton appointed to succeed him as Chief.

Mr. Henry Brooke Chief of the Negrais being in a very bad state of Health and requesting to return to the Coast for his recovery AGREED that he be permitted to do so and Mr. Andrew Newton now at DeveCotah is appointed to succeed him as Chief of that settlement, and the Board being well inform'd that the Allowance hitherto made to Mr. Brooke of fifty Pagodas a Month has not been near sufficient to defray the Charge he has necessarily been at as Chief there, and considering also that in expeditions of this kind where Health is so apparently endanger'd some advantages should be given to encourage those

—— *FORT ST. GEORGE, FEBRUARY 1756* ——

who are sent on them to go thro their Duty with Alacrity AGREED therefore that Mr. Newton be allow'd Five hundred Rupees a Month to defray his Charges as Chief and that on Mr. Brookes return such an Allowance be made him for his Extraordinary Expences as on further Enquiry shall appear reasonable.

Sundries to be laden on the Cuddalore for Negrais.

to return here again.

Letter from Captain Robert Jackson of the Honble Company's Snow Arcot read dated the 24 Ultimo giving the following Account of his Voyage and transactions since his Arrival at Syrian Vizt. that he as well as all the other English Ships there had been obliged by the King of Pegue to go with him to attack the Burmurs at Dagoon promising on their return they should have liberty to depart, that not being able to avoid complying the event making together a Fleet of three English & one French Ship, the Kings Snow and three hundred of his Boats an Army of 10,000 Men march'd at the same time to attack them by Land that the Burmurs retired to their Fort and defended themselves resolutely and having set fire to a Jungodo of Boats, these driving down towards the Fleet obliged them to weigh and fall down the River by which means they avoided the danger, tho the French Ship narrowly escaped being burnt that sometime after his return to Syrian Vizt. 5 January he obtained the Kings leave to depart and accordingly set sail for the Negrais but meeting with a violent Gale of Wind he was drove so far to Leeward of the Island that finding it impossible to work back the Vessell being unable to carry sail he was under the necessity to make for Vizagapatam where he is arriv'd with the snow in so bad a Condition that it is absolutely necessary to have her hauld ashore and thoroughly repair'd before she can be fit for any service he further adds that at his departure from Syrian the King obliged him to leave five of his Guns promising to return them as soon as the Troubles should be over.

Letter from Captt Jackson of the Arcot Snow with an Account of his transactions at Syrian & Arrival at Vizagapatam.

The snow is in want of Repair.

AGREED to write to the Gentlemen at Vizagapatam that having immediate occasion for the Service of the Arcot Snow We would have them give immediate directions for her repair and in the mean time that they prepare a Cargo of Rice and as soon as the Vessell is refitted dispatch her back with it to the Negrais.

To write to Vizagapatam to get the Arcot snow repaired & return her to Negrais with a Cargo of Rice.

AGREED to write to the Gentlemen at Bengal by Pattamar that as We propose to send to Europe on the Eastcourt the whole three hundred Tons of Salt Petre they consign'd us on that ship We shall be left bare of that Article, and as We should be glad to dispatch a ship to Europe early in September and to make up part of her Tonnage in Salt Petre in case We should not then have Bales enough We desire they will send us up two of their sloops laden with Salt Petre so as to arrive here if possible before the S.W. Monsoon sets in.

To write to Bengal to send us up two sloops loaded with salt petre before the S.W. Monsoon set in.

The Honble Company's Ship Prince George being so leaky at the Negrais as to be unfit for service untill she has been repair'd which will grow more expensive the longer it is delayed the Board are of Opinion that if any opportunity should offer of taking up a ship of some Force on Freight to lay as Guard ship at the Negrais it would be adviseable to do so and Order the Prince George to Bengal to refit and return here but as it is improbable this can be accomplished before September even should a Ship offer on Freight immediately and as it is necessary a Vessel should be sent to the West Coast as well to carry salt and other stores as to bring back the Military landed there from Europe this season

A ship (if to be found) to be Freighted for Guardship at Negrais.

HONBLE SIR & SIRS

The Difficulty We have in procuring Chunam for the Works through the unskillfull method the Inhabitants have in burning it, as well as the Craftiness of some of those people in hindering others from Interfering in that business, and the Loss the Company sustains by the mixture of a Quantity of the Earth the Lime Stone is found in, with it; Induced me to go the Lime Stone Ground at Madepauck, and to examine if proper Kilns could not be built there for the Company and supply Ourselves without being obliged (through necessity) to take what Lime Good or bad the Country people think proper to send Us in.

I find that the Lime Stone is plenty at Madepauk, and that with proper Management, Kilns may be Errected there to supply the Company with as much Lime as they want. The only difficulty attending it will be the fuel for burning it, which must be brought from about six Miles distance, and a Number of People constantly employ'd with Cutting and Carts to bring it That the Kilns may not stand still.

I am also persuaded We shall meet with all the Hinderance possible from the People at Madepauk, by depriving Us of their Cattle to bring the Lime to Town, Notwithstanding they dont employ a Quarter part of the Number they have and that the Erecting those Kilns will not hinder their supply being receiv'd as Usual, But they are so Jealous at any Persons Interfering in that business that I could observe great Marks of uneasiness and discontent at my going to see the Ground they dig the Lime Stone from the best of which they do not make use of but throw it away as too large for burning not giving themselves the trouble to break it.

I went also at a place called Pallaveram where the Ground has been open'd very lately and very good Lime Stone found there, on the Encouragement I gave to the person who set the Inhabitants about it, the Pollygar * Jangamanaicke with forty or fifty Inhabitants came and told me they would Jangamanaicke with forty or fifty Inhabitants came and told me they would Chunam as they could that there was two other Quarries belonging to their District which they would open (but that the Madepauk Poligar and his People having hinder'd them all this time past) They would not do it as they were

* Descendants of the Naiks—Love's Vestiges, Volume I, page 13.

afraid of Interfering with People who supplied the Company I told them that if the two Quarries they mentioned actually belonged to them, they had no occasion to mind the Pollygar of Madepauk and that they or any other Person in the Country had as much right to supply the Company with Chunam as he had, at which they appear'd extreamly well pleas'd and added they wanted no money beforehand but would be satisfied to be paid for their supplies at the end of every month.

The Erecting Kilns, with proper encouragement given to the Country People, will I flatter myself not only procure Us what supplys We may want, but enable Us to lay in a sufficient stock to prevent any troubles in the Country from retarding the progress of the Works; all which I submit to your Consideration and am most Respectfully,

HONBLE SIR & SIRS

Your most Obedient and most humble Servant,

JOHN BROHIER.

FORT ST. GEORGE,
THE 16 FEBRY. 1756.

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CA. COUNCIL
OF FORT ST. GEORGE.

HONBLE SIR & SIRS,

In Consequence of the Extract of Consultation of 13 October deliver'd Us by Mr. Secretary Du Pre' relative to the Payment of the Detachment of Swiss under the Command of Captain Schaub made Prisoners at Pondicherry, We have endeavoured to get all the light into the matter that the absence of Captain Schaub would admit of, by calling upon Mr. Drake the Military Paymaster at that time, but all that We have been able to collect from him is that he never receiv'd any regular Rolls from Captain Schaub of the Command under him but only Abstracts. He then delivered Us Abstracts of their Pay from 1st. August 1752 to Ultimo Octr. 1753 when Mr. Drake deliver'd over the employ to Mr. Norris.

This Account he has collected from lose Papers & Cadjans, and he declares that it is nearly if not exactly correspondent with those he deliver'd Mr. Starke, and which were transmitted to the late President & are now missing. By this Abstract it appears that Captain Schaub's Party at first consisted of 92 Persons, and in September 1752 the space of 14 Months it was only reduced to 89, but in October when Captain Schaub was requir'd to deliver in a regular Pay Roll, the Number at once diminish'd to 49 so that in one Month there is the difference of forty Men.

We think it necessary that Captain Schaub should be requir'd to deliver in monthly Rolls of the Swiss Prisoners at Pondicherry to Ultimo October 1753, or at least a list of Deaths & desertions during that time.

On inspecting the Abstract of Pay to the English Prisoners at Pondicherry, for whom as well as the Swiss, Pay was drawn by Captain Schaub, We observe that their Number in May 1753 being 127 is not lessen'd for six Months, except by two Officers who left Pondicherry on Parole but in the succeeding Month of November eighteen Men are reduced, and in the next Month twenty more. An explanation of which Circumstance seems likewise very necessary to be requir'd of Captain Schaub.

We have also examin'd the Papers your Honour &ca. directed to be laid before Us relating to the Accounts of Mr. Thomas Eyre as Paymaster & Sea

Customer, likewise what further Accounts We could procure from his Executor Mr. William Perceval, but they are all so imperfect and obscure that We find it impossible for Us to draw up any Statement of Mr. Eyre's Account either with Our Honble Masters, or the former President Mr. Morse.

With respect to the Paymaster's Employ there are no Accounts to be found for the whole Year of 1746 excepting for the Months of September and October, which Mr. Perceval deliver'd in, but they are not sign'd by Mr. Eyre By them the Ballance due to Mr. Eyre is Pagodas 3562. 15. 78.

Thro̅ the Decease both of Mr. Eyre & his Conicoply, We are prevented making the necessary enquiry into his Transactions; And for want of Original Consultations and Cash Accounts, the former reaching only to Ultimo April 1746 and the latter to Ultimo May, excepting some foul Consultations for June, We cannot determine what advances were made to him as Paymaster.

As Mr. Eyre had deliver'd over the Sea Customer's employ Ultimo April 1746 his transactions in that Branch seems sufficiently clear, and We have met with a Statement fo his Ballance with the Company as Sea Customer at the loss of the Place, which is in his own hand writing and appears very authentick, We therefore lay the same before Your Honour &ca.

With regard to Mr. Jones's Remarks they are in great Measure unintelligible to us for want of the Papers he refers to; We are particularly at a loss to know what he means by the following Passage.

" If upon a close examination of the Companys Books it shall be found " the sum of Pagodas 4000 said to be receiv'd of Mr. Stratton in June, and " Pagodas 1000 more in July 1746 be monies really issued by Mr. Eyre (Mr. " Secretary Savage having noted it as such) then as the Gentlemen observe in " their General Letter, Mr. Eyre has acquitted himself of the Sea Customer's " employ & not only so, but over paid the Company Pagodas 359. 32.—"

For We can find no Entry or Minute of any such Sums paid in by either one or the other. In May Mr. Eyre as Sea Customer pays in Pagodas 8300 and it is particularly specifyed in the Cash Account which is in Mr. Secretary Savage's own hand writing, that, that Money was in part of the Sea Customer's Ballance for April, which likewise exactly corresponds with Mr. Eyre's Account now deliver'd in.

In the continuation of the Cash Account from that time which Mr. Morse delivered in to the Gentlemen at St. David no credit whatever is given for Sea Customs in the Months of June & July, so that it is probable Mr. Jones may allude to some Monies included in the 8300 Pagodas, which is incontestably on Mr. Eyre's Account, and does not at all respect Mr. Stratton. We are with Respect

HONBLE SIR & SIRS

FORT ST. GEORGE,
1ST. MARCH 1756.

DANIEL MORSE,
Regr.

TO THE HONBLE THE COURT OF DIRECTOS
FOR AFFAIRS OF THE HONBLE THE UNITED
COMPANY OF MERCHANTS OF ENGLAND
TRADING TO THE EAST INDIES.

HONOURABLE.

Para 1. . . Our last address to you was under date the 7th. January 1755 wherein We transmitted to you particular Accounts of the several proceedings in our Jurisdiction and pointed out such further Alterations Powers and Authorities as we then thought necessary to be remarked to you, since which your President & Council have sent us Copys of the 29. 35. 36. 37. 38 & 49 Paragraphs of your Letter to them of the 24th. January 1753 and likewise of the 100. 101. 102. 103. 104. 105. 106. 107. 108. 109. 110. 111. 113. 114 & 115 Paragraphs of your Letter to them of the 31st. January 1755 to both which we shall now reply.

2. . . The 29th. Paragraph of your General Letter of the 24th. January 1753 seems to intimate that the Oath of a Native of India might sometimes be dispensed with and his simple Affirmation taken, We cannot help representing that We think the admitting Indulgences of this Nature to be very improper, as it would encourage the giving of Partial or false Evidence and induce every Native to expect the same favour.

———*FORT ST. GEORGE, MARCH 1756*———

3. . . Just before the receit of this Paragraph from your President and Council Rawsum Vencatachilum a Braminy and late Dubash to the Company, summoned as a Witness in a Cause then depending in this Court, after having given his Deposition before the Examiner refused to attest the Truth thereof on Oath—Complaint being thereupon made by the Examiner to the Court, the said Rawsum Vencatachilum presented a Petition, Praying that the Ceremony of an Oath might be dispensed with, as it was contradictory to his Religion and Custom of his Cast, which Petition was set aside for reasons mentioned at large on the Minutes of the 24th. June last, Extract of which is hereunto annexed Paper No. 1, And upon the said Paupa Braminy being order'd into the Custody of the Sheriff for Contempt, He consented to take the Oath. Nella Cundatokur and Gocul Terwaudy two Braminies of a high sect or Cast, as well as considerable Merchants of this Place, have complied with the form of this Court, in taking the Oath prescribed to them and many other Persons of reputation amongst the Natives have likewise done so. From whose compliance and Example We have great reason to imagine the taking of an Oath will seldom be refused by any of the Natives.

4. . . In Answer to the 35 Paragraph wherein you recommend " with " respect to the method of proceeding in all Actions and Suits & in the proving " of Wills, Granting Letters of Administration to Intestates Estates, that " the Rules and methods Prescribed by the Book of Instructions should be " pursued " We have only to assure you that the same has been strictly complied with and in regard to the 36, 37 & 38 Paragraphs containing Instructions relating to the Office of Attornees, Copys thereof have been delivered to the several Attornies, and care taken that the same are duely observ'd.

5. . . Due observance will be paid to the Explanations contained in the 110 & 111 Paragraphs of your General Letter dated January 31st. 1755, to the former, concerning the Re-Electing the same Person for Mayor & to the latter so far as relates to the vacation of the seat of an Alderman by absence.

6. . . A Debate arising on the latter part of the 111 Paragraph, and on the 114 Paragraph of this Letter respecting the resignation of an Alderman whether the same should be look'd upon as containing an absolute Order or only deliver'd by You as a matter of Opinion. It was determined by a Majority to be matter of Opinion only. The reasons of the Majority as well as those of the dissenting Members are inserted at length in the Annexed Paper No. 2.

7. . . Having Answerd the several Paragraphs of your abovementioned General Letter We shall now point out to you such Cases, as have happen'd in the Course of our Proceedings concerning which We desire a particular information.

8. . . On the 15th. April last We receiv'd a Letter from Mr. Henry Vansittart One of the Aldermen and Judges of this Court, setting forth " That " you had been pleased to appoint him to a Post which took up so much of his " time, that he found it impossible to give the necessary attendance to the " business of this Court. He therefore thought himself obliged to beg leave " to resign his seat." The said Letter being duely Considered, it was determined that Mr. Vansittart should have Permission to resign for the several reasons mentioned in the annexed Paper No. 3 Page 3. The then Mayor dissenting to the said resolution, his reasons are likewise inserted in Paper No. 2 Page 5. A Letter was wrote the 28th. April to your President and Council advising them of our having granted Mr. Henry Vansittart permission to resign his Seat of Alderman and desiring that the Vacancy occasioned thereby, might be filled up. But they omitted to Answer this Letter till the 24th. July following, when we received a Letter from their Secretary by their Order, acknowledging the receit of our Letter of the 28th. April and enclosing the several Paragraphs of your General Letter of the 31st. January 1755 abovementioned particularly referring to the 114 Paragraphs representing that the

method which Mr. Henry Vansittart must take should he be desirous of resigning his Seat as Alderman, was therein clearly pointed out, Notwithstanding which it was thought necessary by a Majority of the Members of this Court to confirm the resignation granted to Mr. Henry Vansittart for the reasons enter'd at large on the Minutes of the 11th. August 1755, Copy of which are hereunto annexed Paper No. 3. The then Mayor and One of the other Members dissenting to the above resolution their reasons are also enter'd in said Paper Page 46.

9. . . As the neglecting to fill up the Vacancys occasioned by the Death Resignation &ca. of an Alderman for a considerable time, may possibly be attended with bad Consequences, We therefore imagine it to be highly proper, that there should be a time limitted for filling them up, and that within a few days, Our several reasons for the same may be seen.

10. . . We shall be glad to receive particular information with regard to Debts owing on Bond from one Native of India to another, how far the same may be transferr'd to Europeans or others capable of prosecuting in this Court without Eluding the Intent and meaning of the Charter. There has been only two suits of this kind decided yet in this Court Viz., Henry Vansittart Vers Obelapetty and Charles Bourchier Verss. Cambay Narrain and it appearing to the Court that they were both transferrs made on a valuable consideration, Decrees were given for the Complainant. In the last suit the Defendant Demurr'd to the Bill of Complaint as an evasion of the Charter, which Demurrer was dismiss'd thō not without the Dissents of two of the Members Who alledged that this might be opening a Door for Europeans to lend their Names to the Natives to sue in this Court, contrary as they apprehended to the Intent of the Charter. Their dissents are enter'd in Paper No. 4 Page 1. Some restrictions perhaps may be necessary in this case but to prevent it in General might be a means of hindering Europeans and others from recovering their dues from Natives Who had money owing to them from other Natives, capable but not willing to pay. If the Natives of India should continue excluded from the Court Applications of this Nature will be more frequent. There has likewise been lately preferr'd a Bill of Complaint by Manoel Leal Verss. Podiga Chittee Annuntyah upon a transfer of the like Nature, but as the Debt appears to have been brought by the Complainant considerably under value We have taken time to consider whether the said Bill shall be receiv'd or not.

11. . . In our Letter to you of the 7 January 1755 we mentioned the case of Insolvent Debtors in these Parts since which an Instance has happen'd in Solomon Salomons, who Petition'd this Court to take Charge of his Estate and to appoint Trustees to manage the same for the use and benefit of his Creditors. The Proceedings are hereunto annexed No. 5 for your Inspection and We are desirous of knowing the opinion of Council on this matter in order to be a guide for us in future cases of the like Nature.

12. . . If either the Mayors Court at Bengal or Bombay have transmitted to you any doubtfull or intricate Cases upon which it has been necessary to have the Opinion of Council, We desire that such Cases and Opinions, may be sent Us as the same may be of particular service to us should difficulties of the like Nature occur here.

13. . . As some doubt has arisen among us about those words of the Charter which excludes the Indian Natives of Madraspatnam only but makes no mention of those of the Subordinate Settlements, we should be glad to know whether the latter are meant as well as the former. We are of Opinion that they are and our practice hitherto has been conformable to the same; this We mention'd to Your President and Council in our Letter of the 4th. February 1754 but you sent no Answer to this particular.

———*FORT ST. GEORGE, MARCH 1756*———

14. . . We have already in our Letter of the 4th. February 1754 given you our Opinion with regard to the Indian Natives being excluded from applying to this Court, and now beg leave to refer you to the Minutes of the 11th. of August Paper No. 3. Page 48 where that Subject is mention'd again. We do not hear that your President & Council have as yet taken any step in this Affair in Consequence of the 109 Paragraph of your Letter to them of the 31st. January 1755.

15. . . As some of the Records & Wills of the former Mayors Court were lost at the taking of the Town, and as it is frequently necessary for Us to refer to them We here enclose you a List of such as are wanting and request you will be pleas'd to send us Copys of the same.

16. . . We request that in future, in all matters relating to this Court, you will be pleased to correspond immediately with the Court expressly distinguishing what you would have us observe as orders from you in Consequence of that Clause of His Majesty's Charter, which authorizes to make such Rules and Orders for the better Administration of Justice as you shall from time to time think fit and necessary from any thing that may be deliver'd by you as matter of opinion only.

We are
HONOURABLE
Your most Obed. humble. Servts.

SIGN'D By Order of the Mayors Court.

The Book of Standing Orders lying on the Table.

The Minutes of last Consultation dated the 30th. Ultimo read & Sign'd.

Mr. Powney reports that he had visited the Hospital and found no just Cause of Complaint.

Letter from the Supra Cargo of the Prussian Ship Henry Prince of Prussia desiring to know whether he may land her Cargo of Rice &ca. from Bengal.

The President lays before the Board a Letter to him from Mr. Thierion de Chanlay Supra Cargo of the ship Henry Prince of Prussia lately arriv'd from Bengal (Translation of which Letter is enter'd hereafter) representing that being obliged to stay this Season in India the ship is let out to Freight for a Voyage to this Coast only, that there are several Moor Merchants on board with their Merchandize which he desires they may be permitted to land and that the rest of his Cargo Consists of Rice, Wheat, Gram &ca. which he is Commission'd to dispose of in respect to which he desires to be inform'd what Conduct he shall observe that he may confirm himself thereto.

relating to the Prussian ship.

The abovementioned ship belongs to His Majesty the King of Prussia and touch'd here in June last in her Passage from Europe but the Supra Cargoes not being allow'd to Trade they proceeded to Metchlepatam where they sold all or the greatest part of their Cargo to the French at so low a rate that it is said the Chief of that Settlement who purchased it for his own Account has made a very large Gain on the Sales from thence they proceeded to Bengal where it is said the French have undertaken to invest the produce of their outward bound adventure in a returning Cargo for Europe but not being able to accomplish it this season the Supra Cargoes have let out the ship to Freight to Moormen and others for Voyage to the Coast. The Board considering that the Cargo on board that ship cannot come within the intent and meaning of the Companys prohibition as it does not in any degree affect the European Trade but on the contrary is an Advantage to the Settlement as well from the Customs which will arise on the Merchandize as that the Importation of Grain at this time is very acceptable a Quantity being now wanted for store AGREED that the Supra Cargos be permitted to land their Cargo and that the Grain be purchased for the Company's Account at the Market Price if the Supra Cargos consent to dispose of it at that rate. And it is also AGREED that the Supra Cargos be prohibited purchasing any kind of Goods proper for the Europe Market.

The Cargo permitted to be landed, the Rice to be purchas'd for the Company.

but Goods for the Europe Market prohibited.

——*FORT ST. GEORGE, APRIL 1756*——

The President acquaints the Board that he is advised the Ship Elizabeth is arriv'd at Nagore from Bengal with a Cargo of Rice and is to touch at Fort St. David. As it is proper to have a quantity of Grain in Store there AGREED to write to the Deputy Governour and Council that if the Cargo should not be sold on the Elizabeths Arrival there, to purchase it on the Companys Account at the Market Price if it be of the proper sort, if not to advise Us what quantity can be procured from the Country and at what rate.

The Elizabeth expected at St. David from Bengal (Her Cargo of Rice to be Purchased there).

The President acquaints the Board that agreeable to resolution of Consultation the 30th. December Thirty five Mussoolah Boats are now compleatly refitted and several of them entirely rebuilt and that five more to make the Number Forty (which it is judged will be sufficient for the service of the Settlement) are now in hand AGREED that One thousand Pagodas be now advanced on Account and carried to a New head of Mussoolah Boats, to be open'd for that purpose on the General Books and that when all the forty Boats are compleatly repair'd or rebuilt an exact Account of the Charge be laid before the Board. It is also order'd that at the end of every year an Account of the earnings and Charges of the Boats be laid before the Board and the amount carried to the above Account and that the Ballance be wrote off from it to or by Profit & Loss.

35 Mussoolah Boats already refitted & rebuilt & 5 more in hand.

Advance Order'd on that Account & other directions.

Agreeable to Resolution of Consultation the 19th. January Notice having been then given by Beat of Tom Tom that the Houses and Boats of such of the Headmen who had absconded and did not return within six days should be Confiscated to the Companys Use, And as the Chiefs who stand indebted to the Company did not return agreeable to that Notice, and are still absent ORDER'D that the Boats which belong'd to them be valued; That their Houses be sold at Outcry at the Sea Gate, previous Notice being given thereof by beat of Tom Tom; that the value of the Boats and produce of the Houses be carried to the Credit of the Account Pasqual &ca. Boatmen and that the Ballance of that Account be wrote off to Profit & Loss. AGREED also that the value of the other old Boats which belong'd to divers Persons who return'd in pursuance of the said Notice be also valued and the amount thereof paid to the Owners and carried to the Account of Mussoolah Boats, but as most of the Boats are now refitted or rebuilt so that the real value of them in the Condition they were when they were taken for the Companys Account cannot be exactly assertain'd it is order'd that the Method to be observed in valuing the old Boats be to estimate them when compleatly repair'd at thirty five pagodas each Boat and deducting therefrom the Charges of compleatly refitting every one particularly, the difference to be reckon'd the value of the old Boat, And the Secretary is Order'd to see that the foregoing directions be duly carried into execution.

Houses & Boats of the Head Men who Absconded to be sold & the old Boats to be valued.

Directions how to apply the produce.

AGREED that besides the Thirty thousand Madras Pagodas which Linga Chittee contracted the 30 Ultimo to provide a further Contract be made with him for fifteen thousand more at the same rate of Ten and an half ℘ Cent Batta and he being now called before the Board undertakes to deliver them the fifteenth of June next and to receive rupees in payment the 1st. of May at the present Exchange of three hundred and sixty eight Rupees for One hundred Pagodas amounting to sixty thousand Nine hundred and ninety six Rupees (60996) which are order'd to be Issued to him from the Treasury.

Proceedings in the Investment of Fine Goods.

The Export Warehousekeeper lays before the Board as enter'd hereafter a List of Fine Goods to be provided for the ships returning in 1756 as extracted from the List of Investment dated 1754 and receiv'd 1755 he also lavs before the Board the several Musters. The Board then having taken under Consideration in what manner to engage for the Provision of these Goods, whether by again giving Public Notice for Proposals to be laid before them or by offering the preference to the Merchants who last Year undertook this branch, or others but considering that when Notice was given last Year that the Board would receive Proposals none were offer'd for the Fine Goods except only by Sunca Ramah and that for such part only as are known to be the most profitable Articles and without which none of the Merchants would undertake the rest, the Board therefore are of Opinion that as such frequent ineffectual Publications only serve to lessen in the Eyes of the Publick the Character of a Companys Merchant which has hitherto been held in great repute, it is more for the Company's Interest to engage with the old Merchants if they will undertake it on satisfactory terms than to Give Notice for further proposals. It is thereupon Agreed that the Proposals be made to the last Years Merchants with the Addition of Nella Chitty who has particularly shewn a good disposition to exert himself in the branch wherein he has been hitherto employ'd and that it be divided in the following proportions Vizt. Tellisinga Chittee One quarter Linga Chittee One quarter Servanna Chitty One quarter, and Gundaveddy Vencata Ramah and Nella Chitty together, the remaining quarter. They being thereupon call'd in and the Musters produced to them with the prices they acquainted the Board that they did not doubt being able to keep up the several Manufactures to the quality of those Musters tho they could not undertake it at the prices offer'd, but the Board being of Opinion that one with another the several sortments might be provided at the rates mention'd in the List insisted peremptorily on their immediate Answer whether they would or would not undertake to provide them, they thereupon desired leave to withdraw to Consider of the Proposals, and after sometime return'd and acquainted the Board that they submit to the terms offer'd them. The President thereupon acquainted them that the Board being resolv'd if possible to keep up the Manufacture were determin'd that every piece of Goods brought in worse than the Muster should have an Abatement in the price equal to the inferiority of the quality and that on the other hand as encouragement to them to use their best Endeavours to keep up and even mend the Manufacture they might depend on having a proportionable Advance on the stipulated Price for every Piece they should bring in better than the Muster And further told them it was expected that in consideration of the preference given them in the Provision of the fine Goods they should every one of them bring in also a large quantity of Coarse with which they express'd themselves contented promising a due observance and desired an Advance of Thirty thousand Pagodas which is Granted and they agree to receive half in Pagodas and half in Rupees at the rate of 368 Rupees for One hundred Pagodas.

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CA. COUNCIL
OF FORT ST. GEORGE.

The humble petition of John DeRoos

Sheweth.

That Whereas your Petitioner agreed to make Powder under certain Restrictions as by the said Agreement will Appear reference being had thereto, and Your Petitioner having honestly and strictly complied thereto, as far as the goodness of the Ingredients would admit being such as Your Petitioner receiv'd from the Hon'ble Company's Storekeeper.

And whereas some days ago Your Petitioner being ready to deliver into the Honble Companys Stores Eighty Barrells of Gunpowder, and Musters of the same on Trial having been said not to have been Proof.

Your Petitioner conscious of his Upright dealings in the Working of the same, can Attribute the not being of that proof that might have been expected to nothing but the badness of the Brimstone, he receiv'd and made use of therein.

And whereas the said Gun Powder hath been return'd on your Petitioner's Hands as reckon'd under Proof to the very great Loss of Your Petitioner as he cannot dispose of the same without Permission of this Honble Board. The working of the Mill being also stop'd for want of the receit of the money the said Powder would have amounted to, As also the Powder made in Europe being mix'd with sundry other Compositions, such as Camphire, Vinegar Urine &c^{a}. not used in this Place for those purposes Your Petitioner humbly conceives the strength of the Powder he by Agreement was to make cannot but occasion an unavoidable difference between the Europe and Country Powder, even Admitting the accustom'd Ingredients made use of here to be of the best sort.

And Your Petitioner further humbly tenders to the Honble Board that if on Trial by proper Persons conversant in the business of Powder making, the Powder made by him be not agreeable to the Ingredients sent him, he is ready to submit himself to the severest Penalties.

Your Petitioner therefore most humbly Prays that this Honble Board will be pleas'd to take the same into consideration and that Your Petitioner will Engage on his having the liberty of refusal (if sent) and receiving no part of the Composition but what is usually good and will stand the Proof of from 4 to 6 Degrees by the Proof, to enter into such farther Articles for his faithfull behaviour therein as to this Honble Board shall seem Meet.

And your Petitioner as in duty bound

SHALL EVER PRAY
JOHN DE ROOS.

TO ALEXANDER WYNCH ESQ^{R}.

SIR,

This letter was Copied from the original.

Pursuant to your Commands I herewith enclose the proof of the Rejected Gunpowder made in the common way by moistning the Composition with fair Water this return was made the 3^{d}. April 1756; as also the proof of powder moistning the Composition with Batavia Arrack mix'd with Camphire this Return was made the 14th. of April 1756 by Copys from Lieutenant Jennings's Book.

You will be pleas'd to observe by the said Returns that even the Condemn'd Powder though not answering the strength of the Europe in small Quantitys yet the same was Compar'd with it when prov'd in a large quantity although the Brimstone was not good, as that which I made the last Powder which is on an Equality with the Europe, and that I might both satisfy and be satisfied in case of any Questions being ask'd and I find that the 12 Hours beating is preferable.

As it may be conjectur'd that the Powder made here is not equally good with that of Pondicherry, I hereby declare that the Ingredients of the Composition and the working are the same; Excepting the making of Powder moistning with Brandy Arrack & Camphire or Spirits of Wine, Spirits of Vinegar, Spirits of Nitre, Spirits of Salt Armanaick and Camphire incorporated together to moisten the Composition, there is also some times used Urine and fair Water, or fair Water & Spirits of Wine for that purpose of all which

several ways the different Spirits makes the strongest Powder, but is attended with the greatest Expences and as all the others are in proportion weaker, so are they attended with on adequate Expence.

I beg leave Sir to mention that in any of the above methods, I am ready to undertake the making the Powder but not for the Wages of 25 Pagodas that you was so good to offer me as formerly did but I did relate you already my intention that I cannot accept nor undertake by such Condition In regard of the Companys Conacoplys, whom shall give any occasion to a great troublesome and danger, as for the Powder mill likewise for my own Carecter [*sic*] which for their negligence would happen as formerly when the mill being in their description.

Humbly presuming that the Honble Board will be pleas'd to Consider the Extraordinary Charge I must necessarly be put too should any other method then [*sic*] the usual be chose which will at least with the Arrack and Camphire amount to Pagoda or two ℔ Candy and with the Spirits five Pagodas ℔ Candy.

And as Sir it may probably happen that some Articles will require an Explanation I would with Submission Pray leave to attend, that I may be able to answer any Question that may arise, when I doubt not but to set the whole in so clear a light, that his Honour and the rest of the Honble Board will be saisfied of my Abilities & Integrity in making either Gun, Musquet, Pistol Glaz'd or any sort of Powder Generally used.

I am with the greatest Respect.

SIR.

Your most Obed^{t}. & most humble Servant,

JOHN DE ROOS.

The foul Minute of yesterdays Consultation directing the Storekeeper to acquaint John DeRoos the Powder maker that if he will conduct the Powder Works for the Pay of twenty five Pagodas ℔ Month the Board are willing to Employ him, and to report his Answer, being read. Yesterday's Minute relating to the Powder maker read.

The Storekeeper accordingly reports that he had signified the same to John DeRoos who declined it saying that he could by other means Require more. The storekr. reports DeRoos's Answer.

It was thereupon mov'd that the Work be carried on under the direction of some other person for the Companys Account, but Mr. Alexander Wynch being of Opinion that the terms propos'd by John DeRoos in Consultation the 2 December are more advantageous to the Company offers himself to Contract for supplying the Company with Gunpowder and acquaints the Board that he will be ready with his Proposals this afternoon or tomorrow morning. Moved to Work the Mill for the Companys Account. Mr. Wynch offers to Contract for supplying the Company with Gunpowder.

AGREED that this Board will meet again tomorrow morning to receive and Consider of Mr. Wynch's Proposals. The Board will receive his proposals tomorrow morning.

The President acquaints the Board that there being a great number of Seapoys in the Company's pay it had occurr'd to him that if they could be prevail'd on to wear an uniform of Europe Cloth, it would serve at once to give them a more Martial appearance and take off as considerable Quantity of Woollen Goods, that he had therefore used his Endeavours to introduce that Cloathing amongst them without Compulsion and has the pleasure to acquaint the Board that he has in a great Measure succeeded and the better to establish the Custom he offers to undertake the management of the Cloathing himself and for that purpose desires that an Order may now pass to the Import Warehousekeeper to Issue such quantitys of Cloth from time to time as he shall find necessary which is now order'd accordingly and further that the Import Warehousekeeper open a head in his Books of Seapoys Cloathing to be Debted for all Cloth Issued at 15 ℔ Cent on the Invoice price and Credited from time to time as the produce of the Cloathing is paid in. In regard to Seapoys Cloathing an Uniform introduced. The President undertakes the Management of Cloth to be deliver'd him as wanted & a New Head to be open'd.

Old 6 pounder guns sold the Owners of the Orixa @ 274 Pa ℔ ⊕ to be valued only @ 1 Pagoda ℔ ⊕. surplus to be return'd.

Mr. Orme on behalf of the Owners of the ship Orixa represents to the Board that in Consequence of an application made in Consultation the 31 May last for leave to purchase some of the Company's old Six Pounder Guns on a report from the Engineer that there were several unfit for service an order pass'd in Consultation the 4th. June to the Military Storekeeper to deliver such of them to the owners of the Orixa as they might want at the price they stood on the Companys Books and they were deliver'd accordingly and paid for at that rate being Pagodas 274 Cwt. but the Guns being totally unserviceable and serving only to make a shew of Defence he submits to the Consideration of the Board whether they are not charged at much too high a rate considering that they could never produce more to the Company than the value of the weight of old Cast Iron.

AGREED that the said Guns be valued only at the rate of One Pagoda ℔ weight and that the Military Storekeeper repay the surplus to the Owners of the Orixa.

Mr. Wynch's proposals for supplyg. the Company with Gunpowder.

Agreeable to Resolution in Consultation yesterday the Board being met to receive and consider of Mr. Wynch's Proposals for supplying the Company with Gunpowder, he now delivers them in as enter'd hereafter, which being consider'd the President observ'd that as the Company (according to these Proposals) are to be at some Charge for Artificers Peons &ca. the real Cost of the Gunpowder cannot be exactly ascertain'd and therefore proposes to Mr. Wynch to undertake the Manufacture entirely on his own Account and to be allow'd twenty Eight Pagodas ℔ Candy for the Cannon Powder and twenty nine Pagodas ℔ Candy for Musket Powder after some Consideration Mr. Wynch accepts of the Proposal on the following conditions which the Board Agree to Vizt.

Some alterations proposed & accepted.

Terms added to the Contract.

" That he have the Use of the Powder Mill at Egmore which is to be " kept in repair at the Company's Charge.

" That he also have the use of the Companys Oxen and in case of death " or accident to any of them the Loss to be for the Company's Account.

" All the Utensils &ca. now at the Powder House to remain there and he " is to have the Liberty of using them.

" That in case of Fire or other Accidents to the Mill or Powder House " all the Loss and damage incurred thereby to be born by the Company.

———*FORT ST. GEORGE, APRIL 1756*———

" That he be at Liberty to supply himself with all Materials such as " Salt Petre Brimstone &c^{a}. in such manner as he may think most Advantageous " And in case he should not be able to procure a sufficiency that then he be " supplied out of the Companys Stores at the rates those Materials have been " Issued to John DeRoos.

" That he be allow'd Twenty eight Pagodas ℔ Candy for the Cannon " Powder and Twenty Nine Pagodas ℔ Candy for the Musquet Powder of the " Proofs mention'd in his Proposals.

" That this Contract take place the 1st. day of May next and Continue " in Force for three months, this being extended only as a Tryal, And in case " the Company should this Year send out a Powder maker in the room of M^{r}. " Bishop deceas'd or that the President and Council should not think proper " to carry on the Work on this Contract any longer after the expiration of " three Months they are to give the Contractor two Months Notice that he " may not provide any further Stock of Materials, And on the other hand in " case the Contractor should not be able to carry on the Work on the terms of " this Contract without loss and should be desirous of declining it he also is to " give the President and Council two Months Notice that they may concert " other means of conducting the Work."

Rupees sold.

AGREED that Five thousand Pagodas worth of Rupees be sold M^{r}. John Smith at the Market Price of three hundred and sixty Eight Rupees for One hundred Pagodas amounting to Eighteen thousand four hundred Arcot Rupees which sum is now order'd to be Issued out of the Treasury accordingly.

GEORGE PIGOT.
HENRY POWNEY.
ROBERT ORME.
A^{R}. WYNCH.
JOHN SMITH.

ALEXANDER WYNCH Agreeable to what he mention'd in Consultation this Day, being of Opinion that it is more for the Company's Advantage to contract for Gunpowder than to make it for the Companys Account since it Appears by the Military Storekeeper's Books that when Manufactured for the Company it Cost them 62 Pagodas the Candy & upon John DeRoos Contract all Charges included a trifle more than 27 Pagodas the Candy altho' the Salt Petre is Charged at so high a rate as 15 Pagodas the Candy when it has often been sold here from 11 to 12 Pagodas the Candy. He therefore now offers to Contract for furnishing the Company with Cannon Powder that shall with 2 lbs. in a 10 Inch Mortar throw a shell of 96 lbs. Upwards of 930 Yards which may be deem'd pretty Equal to the strength of Europe Powder. On the terms propos'd by John DeRoos and Accepted in Consultation the 2 December 1755 And further if the President & Council will Consent to allow him the additional Price of one Pagoda ℔ Candy (for what he may deliver answering the following Proposal) he will Endeavour to furnish them with Musquet Powder that in the Quantity of 3 or 4 Ounces shall Answer the several Ranges of Europe Powder set down in Mr. Jennings Report laid before the Board the 26th. Instant. On Condition that all the Gun Powder that does not Answer the Above Proofs be return'd on his Hands for his own Account not to be disposed of but to such persons and in such manner as the Board shall approve, and that untill it be disposed of, it be lodged in the Company's Magazine that the Company shall take of him all the Gun Powder whatever the Quantity may be, that he shall tender them of the above Proofs, & whenever he shall signifie that he has a Quantity ready to be deliver'd that the Proper Officers be order'd immediately to make the Proof of it before it be received into the Magazine & that after it be passed & receiv'd into the Magazine it remain for the Company's Account.

General Letter from Bandarmalanka.

No. 60 General Letter from Mr. John Andrews at Bandarmalanka dated the 15th. Ultimo read acknowledging the Receit of our Letter of the 30th. March with the Five thousand (5000) Pagodas sent by the George and acquainting Us that he hopes they may be of more service to the Investment than what he receiv'd by the Fortune snow the Gold being so much inferior to what these kind of Pagodas have always been that they will not pass, but that he is using his Interest with the Soukars and Country Government to get them off. That he shall bring the Cloth Godown to Account and particularize the Expence enclosing an estimate of the Charge of Building a Wall round the Factory also an Account of the Charge of Packing 100 Bales White and Brown offering to undertake the Package at 274 Pagodas for a white Bale and 18 fanams for a Brown Bale. That he shall observe our directions with respect to the Method of bringing the Madras Pagodas to Account and advancing them to the Merchants desiring our directions whether the advance of ten ℘ Cent should not be added also to the pay of the Washers and Companys Servants as they have always been paid in Madras Pagodas. Oberving in regard to the Prices We have fixed on their Cloth that we say upon an Average of the three Numbers the Charge is pretty near as usual, but by a Calculate which he encloses and refers to there appears a considerable difference particularly in the Midling which if not alter'd cannot be provided requesting a further supply of thirty thousand Pagodas for the Investment this Year and the greatest part as soon as possible, the Dutch having already receiv'd large sums, That in future he will never undertake any New Works without first sending an Estimate and receiving our Orders and that in those already erected he has been carefull to use the greatest frugality enclosing the Accounts of that Settlement for March.

Order'd that the foregoing Letter lye on the Table to be further Considered.

———*FORT ST. GEORGE, MAY 1756*———

ORDER'D that the said Bills be deliver'd to the Committee of Treasury to be receiv'd when they become due and that the abovemention'd four thousand (4000) Rupees already received by the Commissary be also paid into the Treasury and carried to the Credit of Nabob Mahomed Ally Cawn.

The Book of Standing Orders lying on the Table.

The Minutes of the two last Consultations dated the 3^{d}. and 9th. Instant read & sign'd.

General Letters read Viz^{t}.

No. 61 From Charles Boddam Esq^{r}. Chief &c^{a}. Council at Vizagapatam dated the 10th. Ultimo acquainting Us that Captain Jackson of the Arcot snow being much out of Order has requested leave to come hither for his recovery which they have granted. General Letters read From Vizagapatam.

No. 62 From Richard Starke Esq^{r}. Deputy Governour &c^{a}. Council at Fort St. David dated the 8th. Instant acknowledging the Receit of our Letter of the 27th. Ultimo and ten thousand Pagodas and acquainting Us they will From Fort St. David.

——FORT ST. GEORGE, MAY 1756——

observe our directions in regard to the several sortments of Cloth, advising also that they have drawn on Us two Bills of Exchange One for Pagodas Five thousand nine hundred and fifty nine, sixteen fanams and sixteen Cash (5959.16.16) payable to Captain John Durand being in full for seventy four Garce and One hundred and seventy nine and a quarter Mercalls * of Rice (74 Gar. 179¼ Mar.) at Eighty (80) Pagodas ℔ Garce and the other for Pagodas Two thousand two hundred and seven, twenty six fanams (2207. 26) payable to Mr. Henry Kelsall in part for Thirty five Garce and One hundred and eighty four Mercalls Rice (35. 184) at Eighty two Pagodas (82) ℔ Garce, the rest being paid him there, desiring a speedy supply of Cash, and enclosing their Accounts for March with their Committees report on them.

From Ingeram.

No. 63 From Foss Westcott Esqr. Resident at Ingeram dated 15th. Ultimo acknowledging the Receit of our Letter of the 24 March with Five thousand (5000) Pagodas sent by ship George and acquainting Us that the Merchants say they shall be able to Invest thirty or forty thousand Pagodas more, but observes, that the Pagodas lately sent have been so bad that it is with difficulty he has been able to pass them, the Soukars refusing to take them alledging they were deficient in the Touch but as he is not himself a Competent Judge he sends Us up ten of those he receiv'd by the George Observing in Answer to our separate Letter relating to the Committees Report on the Accounts of that Settlement that he imagines the Committee has made a Mistake in their remark that One hundred thirty eight Pieces of Wax Cloth (138) are charged as expended in September that quantity being Charged as purchased, not expended. That he encloses an Account of the Charge of Packing One hundred (100) Bales White and Brown and offers to Contract at 2¼ Pagodas ℔ White Bale and 18 fanams ℔ Brown Bale. That the Charge of Pagodas 10. 12 for Military Cloathing was for deserters from Monsr. Bussy and he thought it agreeable to former Custom here to give them their first Cloathing on the Companys Account. That in regard to the Horse stables and Choultry Washing and Beating Godowns he found those Buildings standing when he first took Charge of the Settlement but being old & unfit for Use he rebuilt them and as they were not brought on the Books before under heads he did not open any particular head but that he will now do so, and shall not in future set about any New Buildings without first sending an estimate and receiving our directions. That the Charge for his Journey into the Country is occasion'd by the necessity of sometimes going amongst the Weavers to encourage them which has been found to have a good effect. That he is very sensible of the defect remark'd in the 13 Paragraph Vizt. that several Articles are placed under Account Repairs which ought to be brought under other heads but as he found this Method practiced when he took Charge of the Settlement he has continued it ever since but will now open a head of Servants' Wages if We approve it and that in future all Artificers and Materials employ'd shall be particularized That the reason of his not expressing on what service the Packing Stuff is employd is the many Uses it is put to and some so trifling that they cannot well be accounted for, but he will be now particular in future. That he has acquainted the Merchants with Our Orders in regard to the addition of 10 ℔ Ct. on the Madras Pagodas advanced them to which they agree but desire him to acquaint Us the Prices We have fixed on the Cloths are not equal to that Calculation especially the Midling in which unless an alteration be made they cannot provide any, he has therefore enclos'd their Calculate expressing the difference between the former Prices and those We have fixed on which he requests our Orders enclosing the usual Accounts for March.

Two Bills drawn from St. David Order'd to be paid.

The two Bills of Exchange drawn from Fort St. David as advised in their foregoing Letter No. 62 being now presented are order'd to be paid.

———*FORT ST. GEORGE, MAY 1756*———

General Letters from Ingeram & Bandarmalka consider'd & Orders thereon in regard to.

The General Letter from Bandarmalanka No. 60 read in Consultation the 3d. Instant and then orderd to lye on the Table is now taken under Consideration as well as the foregoing Letter from Ingeram No. 63 And first in regard to the Madras Pagodas complain'd of in both, those sent up by Mr. Westcott as a sample are now produced and the Assay Master being called before the Board is acquainted of the Complaint made by the Northern Soukars that they are deficient in the touch, but he assures the Board that they are of the proper touch. The President thereupon acquaints the Board that he apprehended the real matter of Complaint is not of the touch but the Allay [*sic*] as he often experienced when Chief of Vizagapatam the Merchants there always giving the preference to that Gold which is allay'd [*sic*] with silver before that which is allay'd [*sic*] with Copper the latter being brittle is often crack'd at the edge in stamping (as most of the Musters now produced are) but the former being more Malleable is not so subject to this defect however the Assay Master is order'd to Assay the Pagoda sent from Ingeram and make his Report thereof to the Board.

Madras Pagodas.

Packing of Bales.

The offer made by Messrs. Westcott at Ingeram and Andrews at Bandarmalanka to Contract for Packing the Company's Bales being the same Vizt. 2¼ Pagodas ℔ White and 18 fanams ℔ Brown Bale the Board are of Opinion that two Pagodas for a White Bale, the price allowed here is sufficient as the Materials on an Average are generally as cheap there as at this place. The Proposals for packing the brown Bales is accepted which is to be signified to the Gentlemen at those Settlements, and further to Mr. Westcott that all Military Cloathing the first, as well as the subsequent, is to be paid for by the Captains of the Company who ought always to keep a sufficient quantity in readiness to answer extraordinary occasions. That there is no necessity for opening a head of Servants Wages but that all constant Charges are to be carried to the head of Charges General That Mr. Andrews be acquainted he may add the 10 ℔ Cent in the Payment of Washers, Servants Wages &ca. And in regard to the difference between the Prices now fixed on their Cloths and those formerly Charged The President undertakes to examine and Report.

Military Cloathing.

Account Charges General.

A Charge against Mr. Hopkins to be drawn up from Mr. Smith's Report.

Mr. Charles Hopkins late Chief of Deve Cotah being arriv'd here, Mr. Smith (who has been sometime return'd from his Supervisorship at that Settlement) is now desired to lay before the Board his whole proceedings in the examination of Mr. Hopkins Accounts and Conduct whereupon he acquaints the Board that he has nothing more to remark than what is contained in his report of the 31st. January last No. 19 to which he refers. The said Report being now again read the Secretary is directed to draw up a Charge therefrom and lay the same before the Board for their approval.

Captain Schaub required to deliver in Monthly pay Rolls of his Detachment whilst Prisoners at Pondicherry also List of Deaths & Desertions & Pay Rolls of the English Prisoners.

The President acquainting the Board that Captain Schaub is now arrived here from Fort St. David the Report of the Committee of Accounts dated the 20th. February and enter'd after Consultation of that date in relation to the Payment of his Detachment whilst Prisoners at Pondicherry is now again read ORDER'D that a Letter be wrote to Captain Schaub by the Secretary requiring him to lay before the Board Monthly Pay Rolls of the said Detachment from the day they were made Prisoners to the time of their Releasement also a List of Deaths and Desertions expressing therein the respective days on which the same happened likewise regular Monthly Rolls of the English Prisoners there during all the time he drew for, or distributed their Pay amongst them.

Bills & money paid in Account Nabob Mahomed Ally Cawn.

The President lays before the Board four Bills sent in by the Nabobs Renters in further part of the sum due from them on the May Kist as reported in Consultation the 3d. Instant Vizt.

1	Bill payable the	3d.	June	...	for ARs.	45,000

Consideration on letting the Farms of DeveCotah & St. Thome.'

This being the day appointed for letting by Publick Outcry the Farms of DeveCotah and St. Thome's it is delivered whether they should be let on the terms of the Cowles which expire the 31st. Instant or whether any and what Clauses should be added and thereupon it is Agreed that the following Clauses be added Vizt.

* Vide Cons 3 and 13 Instant.

——*FORT ST. GEORGE, MAY 1756*——

TO THE COWLE FOR DEVECOTAH

That the President and Council reserve to themselves the Liberty of cutting down what Timber and Wood they shall think proper for the use of the Company. Clauses for the Deve-Cotah Cowle

That the Renter shall also have the Liberty of cutting Wood with the permission of the Chief of DeveCotah but not otherwise, who is to be directed to grant such Permission in case he shall not think it prejudicial to the Settlement or Bounds.

That the Renter shall deliver at DeveCotah for the use of the Company at or before the end of the month of March Fifty Garse of the best Paddy of the January Crop at the rate of Forty Pagodas ℔ Garse.

TO THE COWLE FOR S^{T}. THOME.

That the Renter shall deliver at S^{t}. Thome for the use of the Company at or before the end of the Month of March Thirty Garse of the best Paddy of the January Crop at the rate of Thirty Pagodas ℔ Garse. Clause for the S^{t}. Thomas Cowle.

The question being then put whether any Europeans should be permitted to bid at the Outcrys of Farms or be admitted as security for any persons who take any of the Farms. No Europeans to bid for Farms or be concern'd in them or be security for Farmers.

RESOLV'D that no Europeans be permitted to bid for any of the Company's Farms or be concern'd in them directly or indirectly or to be security for any of the Farmers.

Notwithstanding the foregoing Resolution the Board conceive that some Advantages might arise by leaving Europeans at liberty to bid for and take the Farms, and on the other hand that some ill conveniences and disadvantages might also accrue in particular Cases both which are here offer'd to the Consideration of the Honble Court of Directors. Advantages & Disadvantages of letting the Farms to Europeans Consider'd.

The Chief Advantages which it is thought might arise by permitting Europeans to take the Farms are that the Inhabitants will not be so liable to oppression in the Collection of the Duties by the Renters, but principally that as the Faith and Honour of Europeans may be better relyed on than the Accounts of the Natives, by this means the real value of the Farms may be more justly ascertained.

The Disadvantages that occur are That if Europeans should be permitted to bid for the Farms, the Natives may be thereby intimidated by which means the Farms may be cryed down for less than their value and another very weighty reason is that in some of the Farms disputes do often arise between the Renters and the Polygars of the Adjacent districts under the Country Government in which cases many Concessions may be made and means concerted for accommodating such differences without any real Injustice to the Renter or discredit to the English Nation but which might nevertheless occasion many difficultys if Europeans were concern'd.

Mess^{rs}. Orme and Smith (the present Renters of DeveCotah) being desired to acquaint the Board what they think may be the real value of that Farm, they give it as their opinion that it may be worth about Seven thousand Pagodas ℔ Annum on the terms of the Cowle as above settled whereupon the Secretary is order'd to bid for the Company in order to keep up the price as far as Pagodas six thousand five hundred (6500). The Board then adjourn'd to the Sea Gate to put up the said Farms at Outcry. Messrs. Orme & Smith think the Deve-Cotah Farm worth 7000 Pagodas ℔ Annum. The Secretary to bid for the Company's as far as 6500 Pags.

——*FORT ST. GEORGE, MAY 1756*——

AT THE SEA GATE.

Deve Cotah let for 9220 Pagodas.

FIRST the Farm of DeveCotah Bounds being put up for One Year from the 1st. of June next ensueing on the aforemention'd terms is cryed down to Christnah Row the highest bidder for Nine thousand two hundred and twenty Pagodas (9220) This Farm was let last year for Pagodas Four thousand two hundred (4200).

St. Thome' let for 4100 Pagodas.

THE FARM of St. Thome' being then put up for One Year from the first day of June next on the aforemention'd terms is cryed down to Guntoor Vencatachilum the highest Bidder for Four thousand One hundred Pagodas (4100) This Farm let last year for Pagodas Three thousand one hundred and fifty (3150).

ROBERT ORME.

CHS. BOURCHIER.

TO MR. CHARLES HOPKINS.

SIR,

I am directed by the President and Council to acquaint you that a Report of your Transactions at DeveCotah during part of the time you held the Employ of Chief there having been laid before them by Mr. Smith as Supra Vizor of that Settlement your Conduct in many Instances appears unwarrantable and particularly in the following amongst many others of less Note which are therefore not taken Notice of at this time.

1. THAT in Order to prevent a discovery of sundry Overcharge in your Accounts you directed the Companys Conicoplies to burn and destroy their Cadjans whereon were enter'd the real sums paid for Cooley hire, Batta, and various other Articles of the like kind which can have no other Vouchers, which Cadjans were accordingly destroyed.

2. THAT in the month of April last you have Charged under the head of Nabob Mahomed Ally Cawn Pagodas 244 for 12 days Batta or hire to 244 Cooleys carrying stores to Camp, and for Batta to Seapoys to Escort them Pagodas 33. 12.—. Whereas it appears the Cooleys were paid only Pagodas 131. 16. 60 for 10 days Batta and the Seapoys only Pagodas 22. The Overcharge on these two Articles is Vizt.

On Cooleys Batta	P	112	19	20
On Seapoys Batta		11	12	—
		123	31	20

3. THAT in the Month of June last you have charged 6 days Batta to 1 Subedar, 2 Jemidars, 4 Havildars and 89 Seapoys escorting Colonel Heron to Fort St. David amounting to Pagodas 53.—36 Whereas the President & Council are informed that this Escort consisted only of 1 Subedar, 1 Jemedar,

5 Havildars and Naiks and 53 Seapoys & that the Batta paid them amounted to no more than Pagodas 28. 6. The Overcharge in this Charge is Pagodas 24. 30. 36.

4. That in the month of August you have charged 9 days hire to 315 Coolies carrying Stores to Camp amounting to Pagodas 236. 9 and 18 days Batta to 6 Havildars & Naiks and 30 Seapoys to escort them amounting to Pagodas 52. 9. whereas the President & Council are inform'd that only eight days hire was paid to 185 Coolies amounting to Pagodas 123. 12. and no more than 15 days Batta to 4 Havildars and 20 Seapoys amounting to Pagodas 27. 6.

The Overcharge on this Article is Viz^{t}.

On Cooley hire	P. 112	33—
On Batta to Seapoys	25	3—
Pag^{s}.	138	——

5. THAT you have made a double Charge of Wages and Batta to 4 Peons being charged to the Company on the Peon Roll and again to the Nabob amounting to pagodas 6. 24 ℔ Month.

6. THAT in the month of May last you have charged 20 days Batta to 1 Subedar, 2 Jemidars, 15 Havildars and 45 Seapoys attending you into the Country Pagodas 112.8—Whereas the President & Council are inform'd that not more than 10 Seapoys attended you at that time.

7. THAT you have suffer'd the Seapoys in the Company's Pay and belonging to the Garrison of DeveCotah to be employ'd on private & improper Services, and amongst other Instances That in the month of February you suffer'd one Comrapah the Companys Conicoply to take with him as his Guards or Escort to Combeconnum Feast 2 Subedars 4 Jemedars 8 Havildars, 4 Colourmen 5 Trumpets and Tomtoms and 114 Seapoys in the Companys Pay and belonging to the said Garrison and that at other times you have suffer'd the said Comrapah to employ the Companys Seapoys in overawing the Country People to whom he had lent sums of Money on mortgage of their Districts; In these and other acts of oppression making the Companys Seapoys Subservient to Your private Purposes.

8. THAT you have constantly charged the Company monthly with two Cattamarans to carry Notes &c^{a}. to Vessels in the Offing whereas the Cattamaran Men ran away from the Settlement in the Month of May and did not return or receive any Pay till the Month of December following so that the Company is overcharged in this Article 9 Months pay amounting to Pagodas 61. 18.—

9. THAT you have made a double monthly Charge of two Country Musick Pagodas 2. 24.—and two Tomtom Fellows crooked Horn fellows, all which Persons are again charged as Peons on the Peon Roll.

10. THAT you have suffer'd great abuses in the Payment of the Companys Seapoys and connived at false Musters not only in placing your own Baker Ironing Man & Washerman on the Seapoy Roll altho Your Washerman is again charged at one Pagoda ℔ month under the head of Peons and Servants Wages, but also in suffering all or the greatest part of Captain Spears Servant (whilst Commandant at DeveCotah) to be also passed on those Rolls tho' never doing duty.

11. THAT you have connived at false Musters of Peons, the Number charged being deficient till within a few days of the Supravisors Arrival at DeveCotah by 9 Persons who were then enlisted to compleat the Roll.

12. THAT notwithstanding the President and Council in their General Letter of the 8 April 1754 acquainted you that they had directed the Deputy Governour & Council of Fort St. David " to furnish you with what fanams

" you might want for discharging all small Articles not amounting to a Pago-
" da to avoid the Necessity there would otherwise be of erecting a head of
" Batta on the DeveCotah Books in order to credit the Company for the
" difference on Exchange " Yet it does not appear that you have ever receiv'd from Fort S^{t}. David more than 500 Pagodas worth of fanams in the Month of April 1754 nor have you since then advised the Presidency of your wanting any, neither have you given the Company Credit in any one Instance for the difference of Exchange.

13. THAT notwithstanding a head of Batty is open'd on the DeveCotah Books for the difference between the real Exchange of Rupees at that Settlement and the price at which they are invoiced yet you have in some Instances credited yourself in Cash for Rupees paid away even at higher Rates than the Invoice Price altho' in reality the Exchange was much less by which you have made a considerable Gain, for Example, In the Month of June 1754, 12000 Rupees are receiv'd at DeveCotah and invoiced at the usual rate of 350 Rupees for 100 Pagodas, the Current Exchange then being 388 Arcot Rupees for Pagodas 100, the difference between those two Exchanges is wrote off to Batta; but in the same Month Batta paid in Rupees to Seapoys carried to the Credit of Cash at the Rate of 320 Rupees for 100 Pagodas, so that a Gain is made here of 68 Rupees on every 100 Pagodas which is near 22 ℔ Cent.

14. THAT having been directed the latter end of the year 1753 and beginning of 1754 to assist the Phousdar of Pallam Cotah in recovering his Districts out of the hands of the Enemy and to receive from him the Charge of the Troops sent to his assistance, you did charge to & receive from the said Phousdar about one hundred Pagodas for Batta of Seapoys more than you have brought to Account or than the real Batta amounted to.

15. THAT Contrary to the Company's known Rules (whereby a free Trade should be allowed to every one in all their Settlements) and to the great detriment and Oppression of the Inhabitants, you either did yourself or suffer'd your Dubash or Servant acting under the Sanction of your Authority to engross the whole Trade of the Buzar or Market publishing an Order throughout the Bounds by beat of Tom Tom, that no person should presume to bring in or vend any Beetle Beetle Nut Tobacco, Sugar, Tamarin and other Buzar Articles, confiscating such as were brought in contrary to this order and obliging the Inhabitants to purchase them of you or your Dubash at exorbitant Rates.

16. THAT altho' by the Account Remains taken in April 1752 there should be 800 Pagodas worth of Grain in store on the Companys Account yet on the arrival of the Supravisor there in December there was not one Grain in store nor had any been then brought to Account as sold, altho' the President & Council are inform'd the whole had been sold sometime before, and that the Profit thereon amounted to upwards of 105 Pagodas.

17. THAT you suffer'd the Companys Conicoply under the sanction of your Authority to dismiss and turn out at his Pleasure the Officers of the Seapoys belonging to the Garrison of DeveCotah, merely to create Vacancies, taking Bribes from others under the Name of Entrance Money for promoting them to the Superior Ranks become vacant by such Dismissions.

18. THAT notwithstanding Orders were sent to you by the Select Committee dated 10th. October 1755 that no Vacancies occasioned by the Death or Desertion of any Seapoys belonging to the Garrison of DeveCotah should be filled up till further orders, and that the particular day of any such Death or Desertion should be noted on the Pay Rolls yet sundry Vacancies so occasioned were after the Receit of those Orders filled up and no Notice taken on the Rolls that any such Vacancies had happen'd.

——— *FORT ST. GEORGE, MAY 1756* ———

To the Honble George Pigot Esqr.
President & Governour &ca. Council
of Fort St. George.

Honble Sir & Sirs

As a Quantity of materials had been supplied me Monthly by the Paymaster & Storekeeper for the Use of the Works and that those Materials are nearly expended, The Board has herewith an Account Current shewing what Ballance was left in my hands to the 31st. July 1753, at which time, I receiv'd an order from the Board which obliged me to Return that Ballance to the Paymaster and Storekeeper Respectively According to their several supplies, but as the Paymaster had already Charged the Materials he had furnished me in his Monthly Bills, he could not Charge them again when expended (as there would have appear'd a double Charge) I therefore was obliged to keep them in my hands till they were work'd up, in consequence of which the Board has also an Account Current from the 1st. August 1753 to the 30th. April 1756 shewing what Payments have been made by the Paymaster for Materials and Workmanship and what Accounts I have deliver'd Monthly to the Board since that Time. The Ballance of which being only in * Mamooties (which are in Use in the Works) and some Rattans fit only to make Charcoal for Painting amount to Pagodas 221. 26. 8.

Annexed to those Accounts are also one shewing where the Ballance of Materials Remaining in my hands the 31st. July 1753 has been expended and to what Heads; for all which I must beg the Board will be pleased to Order that I may be Credited if upon Examination those Accounts appear to them to be Just, that I may be discharged from any sums appearing in the Company's Books under the Head of Materials supplied me.

I am
Honble Sir & Sirs,

As I intend returning to Europe on the Delawar should it meet with your approbation must desire the favour that you will give an order to Captain Winter to receive me and my necessary things on board of that Ship.

You know Gentlemen that the Nabob and I are old Acquaintances and I have receiv'd many favours from him which Merits a gratefull acknowledgment from me at least. You will therefore oblige me in the most sensible manner by granting me leave of absence for ten days that I may pay my Respects to him and his family at Arcot, and take my leave of them. I have the honour to remain with the greatest Gratitude and Respect,

That besides the quantity of pepper order'd for the Houghton they shall have remaining considerably more than one ships entire Cargo of that Article all of last years Crop. No. 73 From Richard Starke Esqr. Deputy Governour &ca. Council at Fort St. David dated the 30th. Ultimo acknowledging the Receit of our Letters of the 12th. and 20th. with the Treasure ℔ Bridgewater and Twenty Thousand Pagodas (20000) ℔ Peons and acquainting us that they have communicated our Orders to Captain D'. Illins and shall regulate his Company according to our Instructions. That their Warehousekeeper is willing to undertake the Package of their Bales on the Terms We proposed, enclosing an Indent for stores they receiv'd from Captain Caillaud which they cannot comply with. That they shall follow our directions relating to any Europe ships that may touch there, but as the Squadron did not receive any Madeira Wine there last year they shall be at a Loss what Quantity to Land on their Account. That they have called on Captain Schaubs Officers for the Rolls We mentioned and their Answer is, that tho it is customary in their Corps to keep a Journal of Occurrences they were prevented by Captain Schaubs ordering the Serjeant Major not to make them any return but they suppose Captain Schaub has done it, that they never saw any Rolls he having always made them privately by Night and in every respect kept them in Ignorance of all transactions relating to his Company. That therefore they can say nothing positive as to the sudden reduction of the Detachment in October 1752 from 89 to 49 Men nor do they know of any remarkable sickness or Desertion except about 30 Men who ran away to Golcondah in August 1753 for which reason they think the sudden reduction in October 1752 impossible, that Serjeant Heim might probably give a better Account, but that two days before Captain Schaub set out for Madras he went away to Pondicherry where Captain Schaub was seen by his Dubash to give him 30 Pagodas. That Mr. Frishman further says neither he or Mr. Huibert ever received pay as Voluntiers tho they often ask'd for it as they were inform'd they were charged in the Rolls at 5 Pagodas ℔ month. That Captain Schaubs Dubash informs them his Master sent Serjeant Heim to Pondichery under Charge of two Seapoys a few days before he went to Madras and that he saw his Master pay him 30 Pagodas at Pondicherry, and heard the Serjeant say he had his Masters leave to go to Bengal. That this is all the information they can get but shall endeavour to bring Serjeant Heim from Pondicherry in hopes of learning more. That they now forward Duplicate of their General Books ending Ultimo April 1755.

——*FORT ST. GEORGE, JUNE 1756*——

Rupees sold Linga Chittee.

The President acquaints the Board that in Consequence of the reference in Consultation the 12 April in regard to the Fort S[t]. May having compared the Prices of the Northward Cloths as settled in Consultation the 20 December with the Accounts sent up from Ingeram and Bandarmalanka shewing the difference between those prices and the former Invoice prices he finds there was a mistake in the Long Cloth Midling thrō an omission of adding ten ℔ Cent on the Madras Pagodas to bring them into Current, and in regard to the other Cloths that they are all settled at pretty near the former Invoice prices of the Vizagapatam Cloths.

Order thereon.

AGREED that the Gentlemen at the three Northern Settlements be directed to Invoice their Long Cloth Midling in the following manner.

General Letters from Ingeram read.

No. 74 and 75 General Letters from Foss Westcott Esqr. Resident at Ingerm read the first dated the 18th. Ultimo acknowledging the Receit of our Letter of the 11th. May, and acquainting Us that he will endeavour to give Us immediate Notice should the French attempt any Hostilitys, tho he is apprehensive as they are in possession of the Country round they will take care to intercept his Advices. That he thinks it his Duty to represent to Us the situation of that Settlement That we may take proper methods for its security Vizt. that in his Letter of the 20th. January 1755 having informed Us of the damages it had sustain'd We reply'd that in case the Treaty took place the Works at Nellipillee were to be demolish'd, that those Damages have been greatly enlarged by the last Rains and the Works have settled considerably so that they require to be much raised. That the Garrison consists chiefly of old Topasses & Seapoys scarcely capable of Duty, besides about Thirteen Europeans all foreigners Deserters amongst whom there is not one capable of levelling a Gun or throwing a shell. That the whole amount of the Repairs will be about One thousand (1000) Pagodas and if We should think proper to have them done he should be glad of a person to inspect them. That the supply of money we propose sending will be very acceptable to the Merchants. Cloth on hand in all Ninety seven Corge seventeen pieces 97. 17. The other is dated the 25th. May enclosing Duplicate of the foregoing Letter Cloth on hand in all 108 Corge.

No Repairs to be made at Nellipillee.

AGREED that Mr. Westcott at Ingeram be directed not to make any Repairs to the Works at Nellipille at present.

Letter from the Engineer that 6 Six Pounder Guns may be spared. *Vide Cons 1st. Inst. order for delivery.

Letter from Mr. John Brohier Engineer read as entered hereafter acquainting the Board that in Consequence of their Order of the 1st. Instant having examin'd the return of the Ordnance at St. David, he finds there are 6–18 Pdrs. 12–12 Pdrs. 37–9 Pdrs. and 60–6 Pdrs. which if the Works were finished would not be more than sufficient for their defence, but as the Fortifications cannot be in a Condition to receive them for some years he conceives Six Six Pounders may be spared without prejudice to the Company.*

Representation of the Expt. Ware-Ho. Kr. in relation to Bags deliver'd with Rice purchased.

Order thereon.

The Export Warehousekeeper represents that with the Ship Rice purchased for the Companys Account sometimes Bags are delivered and sometimes not, and it often happens that great part of those which are deliver'd are old and of little value and therefore have not been brought to Account but upon exportation of Grain such as were serviceable have been made use of again, but as this Method does not appear quite regular he desires the directions of the Board in what manner to bring them to Account. The Board being of Opinion that this Article is too inconsiderable to occasion a head in the Books ORDER'D that the Export Warehousekeeper take for his own Account all the Bags delivered with Rice purchased for the Company, and provide at his own Expence sufficient Bags for the Rice Exported.

Deficiency in Salt Petre ℔ Syren to be wrote off

The Export Warehousekeeper reports that there is a deficiency in the Salt Petre Consign'd from Bengal by the Syren of 9. 17 lb. which he apprehends might have happen'd in bringing ashore one Boat having receiv'd much damage in the Surf ORDER'D that the said deficiency be wrote off.

Arms &ca. in the Armoury to be Survey'd & Reported.

There being many old Arms and Accoutrements in the Armoury of which some may be repairable and others not ORDER'D that the Military Storekeeper, with Lieutenants Paschoud and Jennings of the Train Survey and report to the Board the Condition of the said Arms &c^{a}.

Cawn Moodeliar & Tenneveroy Pillah called in *enter'd after the Minute of last Cons. Award read—they are required to pay their Ballce. Answer.

Agreeable to order of last Consultation the two Fort S^{t}. David Merchants Cawn Moodelair and Tonneveroy Pillah attending are now called in and the * Award of the Arbitrators being read to them the President acquainted them that the Board expected they should immediately think of means to discharge the large Ballance due from them to the Company in the proportions settled by the said Award, to which they replied, that they were unable to discharge it at present by reason of the large Debts due to them which they have not hitherto been able to collect in, whereupon they are promised the Boards assistance and directed to deliver to the President before the next Consultation just and true Lists of their several Outstanding Debts.

Order'd to deliver Lists of Debts due to them. Recommendation to the Company to make an addition to Coll. Lawrences Appointments.

The Appointments which the Honble Court of Directors have been pleas'd to settle on Colonel Lawrence being insufficient to defray his necessary Expences in the station they have thought proper to place him, the Board with all Deference to the Commands of their Superiors, beg leave to take Notice that considering the high Opinion they were pleas'd to entertain of Colonel Lawrences Abilitys when they appointed him to his present Station of Commander in Chief, and the Satisfaction they have since on many occasions express'd with his Conduct (all which the Board humbly beg leave to say his good Services and Attachment to the Company very justly deserves) they conceive it cannot but be the Intention of their Honble Masters to allow him a Maintenance suitable to his Rank in their Service, Whereas that which he now enjoys is scarcely more than the Pay and Advantages of one of the Companys of Artillery It is therefore AGREED that it be humbly recommended to the Honble Court of Directors in the next General Letter to make such an Addition to Colonel Lawrences Appointments, in Consideration of his good Services, as they shall think proper and untill their pleasure be known that he be allow'd One hundred Pagodas ℔ Month exclusive of his present Salary and Diet to commence from the 1st. Accot. of Rice purchased of the Supra of the prussian ship * Vide Con 5 April 1756.

The Export Warehousekeeper lays before the Board an Account of the Rice purchased of the Supra Cargo of the Ship Prince Henry of Prussia * in quantity seven thousand nine hundred and sixteen (7,916) Bags, weighing One lb. Million seventy seven thousand three hundred and eighty two pound 1077. 382) or One hundred and sixteen Grace, one hundred and fifty six thirteen sixteenths Mercals (116. 156 13/16) amounting (at the several prices according to the Quality of the Rice) to eight thousand three hundred and forty four Pagodas twenty fanams and seventy eight Cash (8344. 20. 78) which is order'd to be paid.

Committee of Accots report on the Accots. of this Settlement for Janry & Febry & Orders thereon.

Report dated the 15th. Ultimo from the Committee of Accounts on the Accounts of this Presidency for January and February last, read, as entered hereafter.

Para. of Report 6 . . In regard to the recommendation in this para. ORDER'D That all serviceable Wood Timber and Iron Work of Buildings pulled down be deliver'd to the Storekeeper and brought to Account in his Books under a Head of OLD MATERIALS to be opened for that purpose, but that the old Bricks and Rubbish be used where they may be serviceable without being particularly Accounted for, as indeed it would be difficult, if not impracticable to take an exact Account of them.

8. In regard to the Check recommended in this Paragraph the Board observe that the method which they think might most effectually check the employment of Materials, would be by an Overseer of sufficient skill and knowledge in Building to be able to Judge by a view of the Works what quantity of Materials are employed in them from time to time, and as the Board do not know of any person so qualified there is a necessity of relying on the Engineer, for as it would be impossible for the Paymaster, or any one else personally to attend and see every Material employ'd the Paymasters Check could be but of little service as it must be grounded on reports of black Servants. In regard to the Payment of Cooleys the Paymaster acquaints the Board that his People and the Engineers pay them together so that they are a Check on each other.

All the other observations and Recommendations in the said Report are approved and ORDER'D to be observed and carried into Execution by the several persons whom they Concern.

2. . . With regard to the Engineer's having compared them with the Paymaster's, We find several variations between them by their inserting the same Articles under different Heads and often bringing them to Account in different Months which might be easily remedied & should be for the more ready scrutinizing and comparing the two Accounts.

3. . . We must observe that the Engineer's Accounts are regular and exact, and We recommended that the Paymaster should carefully observe to make his correspondent [*sic*] with Y^m^.

4. . . The Pay and Salary to Mr. Brohier and Assistants should be brought under Charges General in both Accounts. The Engineer omits to insert the Pay of forty Peons employ'd on the Works, and brings the Pay of 12 Conicoplies employ'd under him to account under several Heads As they are fixed Servants, they had better be charged at once under Charges General as the Paymaster has done.

5. . . In the Engineers Accounts, We find two Charges, One for making Military Stores and another for repairing Military Stores, which are taken no notice of by the Paymaster who proposes adjusting those Accounts with the Military Storekeeper at the end of the Year, and at present only keeps memorandums of the Disbursements on that Account. The most regular method We think would be for the Paymaster to Debt the two Heads made use of by the Engineer for all Money advanced on Account the Military Storekeeper, who must make a correspondent Entry in his Books. When the Engineer delivers any Stores to the Military Storekeeper, the Engineer should value them, and the Military Storekeeper credit those Heads accordingly.

6. . . We find no Materials of Buildings pulled down have been brought on the Company's Books, excepting those of the Portuguese Church. On discoursing with the Engineer on this Subject, he tells Us that all such Materials were worked up in the new Buildings and not charged for. As this is very irregular and leaves an opening for abuses, it should be remedied, and all old Materials be valued and put under the charge of the Storekeeper. or some other Officer appointed for the purpose.

7. . . The Books kept by the Engineer are a monthly general account of charge of Workmen & Materials on the several Buildings &c^a^. and an Account of Materials expended, exhibited in Collumn's with an Abstract of the whole at the Years end. We think there should be likewise an Annual abstract of Receits of Materials in order to adjust with the Abstract of Issues, also a Monthly abstract of receits of Materials is necessary to be collated with the Storekeeper's & Paymaster's Accounts.

8. . . We must observe that the Engineers People receive all Materials, and have the applying them on the several Works, in which they are sufficiently Checked; If it would be attended with no inconvenience to the dispatch of Business, the Paymaster might be a proper Person to dispose of the Materials in the manner pointed out by the Engineer and then the latter would be a proper and sufficient check on the former.

9. . . We have likewise examin'd the Commissary Generals Accounts to Ultimo November, no further being brought up for want of the Trichinopoly Accounts for December and January.

10. . . With respect to the other Accounts of this Settlement. We have nothing particular to remark & give it as our Opinion that the Home Accounts in general are fit to be passed.

FORT S^T^. GEORGE,
15^TH^. MAY 1756.

———*FORT ST. GOERGE, JUNE 1756*———

To the Honble George Pigot Esqr.
President & Governour &ca. Council
of Fort St. George.

Honble Sir & Sirs,

Para 1. . . This Report contains our Observations on the Accounts of the Southern Settlements.

1st. Fort St. David

2d. . . We have looked over the several Accounts forwarded from thence for the months of July, August September October November December January and February, together with the Reports of the Fort St. David Committee of Accounts Dated 25th. January & 2d. 17th. & 22d. March. We will offer You our Remarks in the Order of the Accounts.

Cash Account.

3. . . They still blend Rupees and Pagodas in the same Account. Two distinct Cash Accounts should be kept one of Rupees and the other of Pagodas, the latter to be exactly on the Madras Plan with double setts of Collumns a Form should be transmitted them for that purpose. The Rupee Account must likewise have double setts of Collumns, the inner expressing the number of Rupees, and the outer their value in Pagodas at the exchange the several Receits and Payments shall be made.

4. . . The Issues of Rupees at St. David are principally to the Military Paymaster for paying the Seapoys in the Service of the Nabob, who is debted for these at the rate of 350 ℔ 100 Pagodas, which is a great over Charge. The Military Paymaster might draw Monthly on the Cash keeper for the exact Sum of Rupees necessary for paying the Seapoys, and which may be carried to the Nabob's Debit at the exchange of the Day. This method will keep the Military Paymaster's Account clear, & at the same time do justice to the Nabob. Supplies to Rupees to the Commissary in Camp where Disbursement in that specie are entirely on Account of the Nabob must be likewise brought to Account at the Exchange of the Day, but supplies to DeveCotah may be still carried off at 350 as regular Books are kept at that Place, and the difference of Batta may be there taken notice of.

5. . . The small Errors discover'd by the Fort St. David Committee in their Cash Account, if not already rectified should be directed to be done.

Export Warehouse.

6. . . In a former Report We referr'd to Your Honour &ca. consideration, whether the Package of Bales should not be undertaken at a fixed rate as practised here, and the Retail of Packing Stuff discontinued.

7. . . In the Sale of Rice it is not expressed how much was received in Pagodas and how much in Fanams. It should be recommended to every Office to shew this particular in their Accounts in the clearest manner, and that the Monthly Abstract of Cash usually annexed to their Accounts be kept in doubts setts of Collumns as observed at Fort St. George, for which purpose the Form should be sent them.

Import Warehouse.

8. . . We have nothing particular to remark of this Employ.

Storehouse Civil & Military.

9. . . We have already represented that it is impossible for Us to Judge whether the several Disbursements made in these Offices are absolutely necessary or whether the Stores provided are at reasonable prices. The Deputy Governour & Council, or their Committee of Accounts must be the best and

only Judges by being on the Spot and therefore may be directed to make a constant Scrutiny into the matter and correct whatever they find a miss, Whether the List of Prices of Sores at Fort S^{t}. George mention'd by the Fort S^{t}. David Committee be necessary to be sent them your Honour &c^{a}. will determine. We shall only observe that Stores purchased here are for the most part at variable prices, and the Gentlemen at S^{t}. David should always be carefull that theirs are provided at the lowest Rates their Market will admit.

10. . . None of either the Military or Civil Storekeeper's Accounts are Sign'd before November, They have both open'd Diaries in November As it is proposed that their new Books shall be exactly on the Madras Plan one Month's Journal Parcels should be transmitted them from hence for their guidance.

11. . . The Observations of the Fort S^{t}. David Committee with regard to the Drafts for Pay for the Train and Military Pickets, reduction of Artificers, extraordinary consumption of Stationary by the Military, extravagant Indents for Wax Cloth and the Adjutant's Monthly draught for Stores exceeding his expence, should be taken into particular consideration by the Deputy Governour & Council, and the necessary regulations made.

PAYMASTER CIVIL.

12. . . The several Regulations in his Employ proposed by the S^{t}. David Committee seem highly proper to be put in force. The Points offer'd to the consideration of the Deputy Governour & Council should be dismissed by them and determined.

13. . . It should be recommended to the S^{t}. David Council to inspect always these Accounts with great attention in order to prevent all immoderate & unnecessary Expence.

14. . . With regard to the S^{t}. David Committee's enquiry concerning the Tappys, We find they are Stationed at 12 Stages, and that only one Stage is paid for at this Place.

PAYMASTER MILITARY.

15. . . The Stewards charge for feeding 27 Bullocks in Camp, is order'd to be struck off. It's perhaps intended that it should appear in the Accounts of the Commissary at Camp, which is certainly the proper Place for it, but enquiry should have been made if the Stewards charge is just or extravagant.

ENGINEER.

16. . . He has hitherto transmitted no Accounts but should be divided to keep the same as the Engineer of Fort S^{t}. George Viz^{t}.

17. . . A General Account of Charges both of Materials & Workmen on the several Works to be drawn up Monthly and transmitted.

18. . . An Account of Materials expended exhibited in collumns, with an Abstract of the whole at the Year's end to be transmitted Annually.

19. . . He should likewise be required, as well as the Engineer here, to deliver in a Monthly Abstract of Materials receiv'd with the general Annual one at the Years end.

20. . . If the Engineer at S^{t}. David receives all Materials, and his People have the entire applying them without the necessary Checks, some regulations are necessary to prevent abuses.

SEA & LAND CUSTOMERS OF CUDDALORE & TEVENEPATAM.

21. . . Nothing material occurs to Us in these Accounts.

2^{dly} DEVECOTAH.

———*FORT ST GEORGE, JUNE 1756*———

22. . . In October and November the Settlement was under the charge of the late Chief for which reason the Accounts of those Months are left to be consider'd at the time when that Gentleman's transactions in general shall be enquir'd into. We shall only observe that a considerable reform is begun in the last Month.

23. . . We have examined the Accounts for December January and February during the Management of the Supravisor, & are glad to find the extravagancies We pointed out in former Accounts so well put a stop to The Expence now is clearly shewn whether it arose in Pagodas or Fanams, so as effectually to prevent all private appropriating of Battas, but there still required to be inserted in an outer Collumn the valuation of the Fanams at the rate of 36 to the Pagoda in order to the regular posting of the Journal Entries into the Ledger.

24. . . A Cash Account in Rupees distinct from their Cash Account in Pagodas is necessary to be kept here in the manner recommended for S^{t}. David and Forms of both should be sent thither for that purpose. The Payment to Seapoys in the Nabob's Service, is here likewise made in Rupees cast up at 350 ℔ 100 Pagodas and requires the same Regulation as at S^{t}. David. The Form of the Cash Account in Pagodas to be transmitted them, should particularly shew the manner of bringing to Account the Purchase of Fanams.

25. . . These are all the remarks that occur to Us with respect to the Accounts of the Southern Settlements.

We have the honour to be

FORT S^{T}. GEORGE,
15 MAY 1756.

TO THE HONBLE GEORGE PIGOT ESQ^{R}.
PRESIDENT & GOVERNOUR &C^{A}. COUNCIL
OF FORT S^{T}. GEORGE.

HONBLE SIR & SIRS,

1. . . We now lay before You our Remarks on the Accounts of the Northern Settlements for the Months of October November December January and February.

1st. VIZAGAPATAM.

2. . . The irregularities with regard to the method of those Accounts which were represented in a former Report still subsist. No Journal Parcels are transmitted; Cash Accounts and Paymasters Accounts being the only Accounts they send up.

3. . . In the Cash Account Rupees and Pagodas are blended together. They should keep their Rupee Account separate from their Pagoda Account, observing in the former to carry into an outer Collumn the value of the Rupees according to the Exchange they are receiv'd or Issued at.

4. . . For want of a sufficiency of Pagodas Rupees have been constantly changed away for Pagodas at the rate of Four hundred Rupees ℔ One hundred Pagodas with a remark in the account that the Rupees are to be replaced as soon as they get Pagodas. We find on Ballancing the Receits & Payments

———*FORT ST GEORGE, JUNE 1756*———

that have arose in this manner from 1st. May to Ultimo February that there is the sum of 46232 Arcot Rupees remaining to be replaced. For want of the Journal Parcels We are quite at a loss to know how their Cash Account is Journalized but by their blending both Pagodas & Rupees under one general Head of Cash, the above circumstances cannot appear on the Ballance of their Books, and should there be any advantage in the exchange, it may be appropriated by the Cashkeepr without discovery.

5. . . The Military of Vizagapatam are paid in Rupees at the rate of 2 f 4 sh. ℔ Rupee this compared with the Pay of the Military at Fort St. George Vizt. 8 ℔ Pagoda turns out at the rate of 343 Rupees ℔ 100 Current Pagodas. Your honour &ca. can best determine if the Military there are paid at a due Exchange.

6. . . We have already represented the necessity of putting the Vizagapatam Books on a new Plan. As the currency of that Place is Rupees the readiest and best method that Occurs to Us for their Accounts to be all kept in that Specie, which will obviate the numberless perplexities occasion'd by the various exchanges now in use, the mention of which will be sufficient to convey the strongest Ideas of the confusion & uncertainty of their Accounts.

Rupees Issud to the Paymaster are reckon'd @ 300 ℔ 100 Pagodas.

Receiv'd for Wares & Stores sold	..	..	..	@ 315
Receiv'd from Fort St. George	...	...	...	@ 350
Issued to the Merchants	...	...	...	@ 380
Exchanged for Pagodas	..	..	..	@ 400

7. . . The Paymasters Account which is the most considerable, is already kept in Rupees, and the chief use they have for Pagodas is for their Southern Investment which can give no impediment to the keeping their Accounts in Rupees. The Exchange may be fixed, perhaps 400 Rupees ℔ 100 Madras Pagodas may be found both a convenient and reasonable Exchange.

2dly. INGERAM.

8. . . The Pay of the Military here is reduced into Rupees in the same manner as at Vizagapatam @ 2. 4. ℔ Rupee, but then the Rupees are brought into Madras Pagodas at the rate of 350 ℔ 100 Pagodas, by which means £100 Sterling turns out to them Madras Pagodas 245 instead of Madras Pagodas 227 which it would only yield them at Fort St. George. As the Currency of Ingeram is Madras Pagodas, the Military Pay should of right be computed as at Fort St. George, deducting 10 ℔ Cent Batta to reduce the Madras Pagodas into Current.

9. . . The Pay of Seapoys is likewise cast up in Rupees, and those brought into Madras Pagodas at 350. One hundred Madras Pagodas by a moderate estimation will produce 400 Rupees, the reason therefore of such an overcharge requires to be explain'd.

10. . . Beside the above, We find a monthly charge of about 10 Pagodas, for loss in exchange by paying the Military & Seapoys in Dubs. This indulgence perhaps may be deem'd not improper, where small money would otherwise be difficult for them to procure.

11. . . In November and December Cloathing 3 Recruits is charged for, & in October cloathing a Seapoy, which wants an explanation.

12. . . In February under the Head of Charges Merchandize there is an extraordinary Freight of 60 Pagodas charged for few Wares & Stores sent thither ℔ Nancy & Don Carlos it turns out near 15 ℔ Cent on their Invoices.

3dly. MADDAPOLLAM.

13. . . The Pay of Military & Seapoys there is computed just in the same manner as at Ingeram and the Regulation may be the same as the Maddapollam Currency is also Madras Pagodas.

* Dub—A small copper coin, Hobson—Jobson, page 327,

———*FORT ST. GOERGE, JUNE 1756*———

14 . . Of the Accounts of this Settlement We must recommend in general that they be drawn out more circumstantially. In February Cash is Debted to Paddy Pagodas 120 and to General Stores Pagodas 19 without further particulars of any kind.

We are with Respect

FORT ST. GEORGE,
15TH. MAY 1756.

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CA. COUNCIL
OF FORT ST. GEORGE.

HONBLE SIR & SIRS

1. . . We have examined the Accounts of the Out Garrisons, Camp and Commissary from prime October to Ultimo February, excepting the Trichinopoly Accounts for December and January, which were transmitted hither, but by some accident have been mislaid and cannot be found. Your Honour &ca. will therefore please to direct the Commanding Officer of that place to send up second Copies of them.

2. . . With respect to the Disbursements at the Out Garrisons, We have already represented in a former Report that they are not duely check'd. From the Character of the present Commanding Officers We have no room to doubt the justness of their Accounts, but it is wholly on their integrity that We are to rely, for great abuses might be practised in their Circumstances without a possibility of our detecting them in the present method of their Accounts. We must therefore recommend to Your Honour &ca. to consider of the most effectual means of remedying this Defect.

3. . . Many Articles of expence are still brought to Account in an abridged manner, Orders should be given that the particulars of every charge be expressed.

4. . . At Chingleput several small Disbursements are made in Pagodas, which breeds confusion in those Accounts and often occasions a Ballance of Cash on each side of the Account Current. The Commanding Officer should be directed to make his Disbursements in the Rupees only excepting the pay of the Europeans Military, which is hardly necessary to appear in his Accounts as the exact sum is always drawn for on the Military Paymaster here, who brings it to Account with the necessary particulars.

5. . . The Commandant of Arcot has transmitted an Account of the expence of repairing and fortifying that Fort for which the Nabob furnishes Money. We would recommend to Your Honour &ca. consideration whether every Commandant should not send up in the same manner Monthly Accounts

———*FORT ST. GOERGE, JUNE 1756*———

of all his Disbursements on behalf of the Nabob in order to their being examined and every extraordinary charge corrected. We think it would not be improper to have them countersign'd by the Nabob's Killedar.

That when he spoke of the safety of Bandarmalanka compared with that of Palicol it was at a time when he was under no apprehensions of a War. That having continued to provide the Midling Cloths, he should be glad to be advised soon whether We will comply with the former prices as he is under Contract with the Merchants for it, and the Loss would fall heavy on him. That if the prices are lower at Vizagapatam, it must be consider'd that the Necessaries of Life are at least Fifty (50) ℔ Cent cheaper there than at Bandarmalanka, which must in proportion affect all Manufactures, besides he has Reason to believe that the fine Cloths provided that way areinferior to those made about Bandarmalanka. Report of the state of Deve Cotah & Plan & Estimate of works there.

The President Reports from the Select Committee that Messrs. John Call and John Hume having been directed to Survey the Fort of Deve Cotah and to make their Report of its present condition as well as of the Repairs necessary to render it defensible, they have accordingly taken a survey and made a Report thereof to the Select Committee in a Letter which is now submitted to the consideration of the Board. The said Letter being read (as enter'd hereafter) it is the unanimous opinion that considering the importance of Deve Cotah in preserving the communication with the Southern Province it is of great consequence that it should be put in a State of Defence, and as the proposed Works appear well design'd for that purpose the whole Charge whereof is estimated at seven thousand Pagodas AGREED therefore that the Works proposed be carried on under the inspection of Mr. Hume as Engineer and that the Chief of Deve Cotah be directed to give all the Assistance he can in providing Materials and other necessaries, and that it be an instruction to the Engineer not to begin on the Ditch untill the other Works are well advanced.

Mr. Smith having been directed in Consultation the 21st. Instant to lay before the Board the Proofs in support of the Charge against Mr. Hopkins, he now delivers in a Letter address'd to the Board by way of Reply. The Charge against Mr. Hopkins enter'd after Consultation the 25th. Ultimo as well as his Answer dated 19th. June (which is enter'd hereafter) being first read, Mr. Smith's said Reply is then also read (as enter'd hereafter) on Consideration whereof and of the Proofs therein referr'd to, the Board are sufficiently Convinced that Mr. Smiths report is well grounded and that Mr. Hopkins has defrauded the Company of divers Sums of money which he has applied to his own use, but altho' the Circumstances are such as leave no room to doubt the Facts yet the Board are of Opinion that the proofs are not sufficient in Law to compel Mr. Hopkins to refund, however, suspending for the present their final Resolution, it is now ORDER'D that a Calculate be made and laid before the Board of the amount of the several sums charged in the 2d. 3d. 4th. 5th. 6th. 8th. 9th. and 14th. To the Honble George Pigot Esq^{r}. President
& the other Gentlemen of the Select Committee.

HONBLE SIR & SIRS

In Complyance with your Orders Communicated to us by the Deputy Governour of Fort S^{t}. David we proceeded as soon as possible to Deve Cotah, and immediately after our arrival apply'd to the Chief for a return of such stores as were then in the Garrison. While this return was preparing we took a survey of the Fort, and the Country adjacent, that we might in the meantime consider what could be done with the greatest Expedition, and least expence

for the immediate Defence of the place. During this consideration we were led to conclude that something might at the same time be added for its Security hereafter; by uniting the present with the future some advantages might ensue in point of Defence and Æconomy, And tho' such a provident consideration was not particularly recommended to us, yet as we conceive it not foreign to the purport of our Commissions we hope Your Honour &c. will pardon the freedom with which we shall express our Sentiments during the course of this Letter, and believe that our Whole view is to promote the good of the service we have the Honour to be employ'd in.

As the Importance of a Place to be fortified, or secured has the greatest weight in determining the nature of the Works for that purpose, we will for a while beg leave to suppose that the Fort of Deve Cotah is of the utmost Service in preserving our Communication between Trichinopoly, and the Settlements on the Coast; and that consequently when an Enemy has in View the Conquest of the Southern Provinces he will first endeavour to possess himself of Deve Cotah, as a Key to the rest. For should the French (whom in this Case we will suppose our Enemys) once get possession thereof, and at the same time possess Karikal, Chellumbrum, Porto Novo, Bonaguery, Verdachelum & Syringham, we cannot but conclude that all communication with Trichinopoly, except under Convoy of a large force must be cut off especially as there is great probability that the King of Tanjore will in these Circumstances be our Enemy, or at least observe a neutrality.

This is the light in which we regard Deve Cotah; and from hence do conclude that its preservation is of the greatest Consequence; How to effect it with that Æconomy which has been so strenuously recommended to us, we have Labour'd to determine, and for that purpose beg leave to lay before Your Honour &c. the Plan accompanying this Letter. For the better understanding of which it may not be unnecessary to promise that the Condition of the Fort is now nearly the same as described by Mr. Call in a Letter dated July the 21st. 1754. Its situation is naturally strong and the approach of an Enemy to a considerable Distance may be much impeded if not render'd impracticable by means of Breast Works thrown up at the most frequented passes, and a vigorous opposition made in Traversing the Woods & Rivers, which surround Deve Cotah on every side but that towards the Land and even there the approach is far from easy. The natural strength of its situation being once got the better of and Cannon brought to play on the Walls a large Breach may soon be made, and as there is no Ditch the beseiged must defend it almost on an equal footing with the Assailants. In this Case then. few would be so hardy or imprudent as to risque the sacraficing a Garrison to the fury of a victorous Enemy, when the most obstinate Resistance would scarce admit a probability of defending the place. It may perhaps be urged on the contrary, that tho' Deve Cotah in its present Condition is not capable of much Defence, yet if the Rampart was faced within; the exterior facing of the Curtains reduced to a proper height for Musquetry. the Towers cover'd with Parapets and Cannon mounted thereon; it might with a tolerable Garrison oblige an Enemy to lay some days before it, and thereby give time for Reinforcements to arrive which should oblige the beseigers to quit their enterprize. This we grant may be done at certain times of the Year. but as an Enemy will probably attempt the reduction of Deve Cotah when the Garrison is weak and our Troops otherwise employ'd, or when the southerly Monsoon will not admit of a Communication by Sea, we apprehend that little dependence can be had on the certainty of its being reliev'd, especially if the Enemy by possessing Chellumbrum. and Porto Novo. should cut off our Communication by Land. These and other Reflections of the same nature determin'd Us in favour of the Plan now laid before you in which we have at once endeavour'd to secure the place from a surprize and for an inconsiderable

expence (when compared with the sums usually expended on these occasions) hope to construct such Works as will require no small force to attack them; and by the Defence they will be capable of making, will oblige the Enemy who expects success, to bring with him several pieces of battering Cannon, to open Trenches to cover the approaches; and proceed with all the Caution necessary in a formal Siege; and even then the Success will be precarious, provided Deve Cotah has a Garrison of Two hundred Europeans and five hundred Seapoys with Provision & such Ammunition and Stores as we shall represent necessary.

Your Honour &c. will please to observe that the particular Design of this Plan is to carry a Rampart of (12) feet broad all round the Fort which will be faced with a thin Wall; to take down the Battlements of the old Curtains and form a Parapet proper for Musquetry; to raise Parapets of (6½) feet high round the Towers and peirce them with Embrasures; to surround the place with a Ditch of (6) feet deep which will communicate at each End with the River to fix Pallisadoes therein to prevent a surprise; to form a slight Glacis & Cover'd way; and lastly for the better Defence of the whole we have constructed two Counter Guards before the Towers G & L whose flanks will scour the three sides of the Fort most liable to be attacked, And to preserve these Counter guards from the violence of the Weather we propose to face them with a thin brick Wall laid in Chunam to the height of (7) feet above the Horizon, and thereon lay a stout Parapet of Earth which will be well faced and cover'd with Turf; Each of these Works will have Room for mounting ten Pieces of Cannon, but if they are furnished with six it will be sufficient. The rest of the Works will be well sloped of to avoid expence and nothing done in brick of the new Project but what is represented in the Plan & Profit by Yellow, At the south end of the Fort by the Rivers side will be made two Bridges over the Ditch and Barrier Gates fixed at the Ends thereof which being shut at night will close the Passage to the Fort on both sides, Sally Ports will be open'd under the Rampart at (a, b & c) and Ramps made at proper Distances for the Convenience of mounting Cannons. With these additions we conceive the place will be very defensible; but to remove every thing which may impede its Defence, as well as to make room for the intended Alterations it will be necessary to pull down the Huts which are built close under the Wall of the Fort towards the Land, and which by their Proximity are of Great Prejudice to the place, both by affording Cover to an Enemy or by being set on fire when the Wind blows from the Land, thereby favouring a surprize. These Huts it is highly necessary to remove and we imagine they might be rebuilt much more advantagiously within the Walls at least such part of them as are inhabited by Seapoys, Lascars, and Artificers employ'd by the Company, who by this means would be always at Hand when any sudden necessity required their Service. Two or three small Magazines will also be necessary in different parts of the Fort as marked in the Plan by the Letters (d, e & f) which by being thus distributed will be more convenient for furnishing the Works with ammunition and in Case of an Accident to either of them the place will not be left destitute. When three or four convenient Apartments for lodging Officers are added to what we have already mentioned, the place will then be render'd convenient in every Respect, and we cannot help remarking that had such Apartments been built at first the money which has been laid out at different times in patching up temporary Lodgings might have been saved & better employed on other occasions.

Thus Honble Sir & Sirs we have given you as concise an explanation as possible of what additions we think necessary for strengthening, and making convenient the Fort of Deve Cotah, but as we may probably have regarded it in a false light we submit the whole to your Judgment who best know the Importance of the place, & whether the Advantages from thence arising are adequate to an extraordinary expence of Pagodas seven thousand (7000) that is, exclusive of the Expence which will Monthly arise from Repairs and Jobbs of no great

Consequence. A Calculate we have subjoin'd hereto but cannot pretend to say the particulars are exact for want of a better knowledge of the ability of the Artificers, & price of the Materials, However upon the whole we are almost satisfied the Charge will not exceed the amount of the several Articles which follow :—

To facing the interior part of the Rampart	800
To taking down the Battlements, raising Parapets to the Towers, and new laying the Platforms	300
To repairing the foot of the exterior Wall which is petted away to a considarable depth by Age & the Salt Air ..	200
To digging the Ditch round the Fort	2000
To cutting, preparing, and fixing 5000 Pallisadoes of 8 feet long & from 5 to 6 Inches Diameter	250
To building two Counter guards @ 1000 Pagodas each ..	2000
To building three small Magazines @ 203 Pagodas @ ..	600
To building Apartments for Lodging four Officers	500
To contingent Charges	350
Pagodas ..	7000

We have only to add on this Subject that should Your Honour &c. think proper to fortify Deve Cotah either in the manner we have laid down or any other, we imagine many Artificers & others will be thereby induced to settle in the Bounds and live under the Protection of the English Flag; at least such is the discourse among the Inhabitants at present who discover great satisfaction from the hopes they conceive that the place is to receive some additions of strength.

The Artillery, Military and other small stores which are at Deve Cotah being distributed in such a manner as to require much longer time for a thorough Survey than we had to spare, we can now only send a Return of such as are most material towards the Defence of the place, but as soon as the rest are sorted and properly disposed Mr. Hume will transmit a farther Account of what is in Garrison and of what will be wanting.

In this Return your Honour &c. will please to observe that there are in this Garrison many Stores which were intended for the use of the Army or Trichinopoly & which are of no service here, but occupy such Room as might be better employ'd in stowing the Stores of this Garrison. We therefore are humbly of opinion that it would not be improper if Your Honour &c. gave orders for the removal of all unnecessary Stores to Fort St. David or Trichinopoly where they may be most wanted. We have only to remark that the Lascars, Bullocks & Boats which are mention'd in the Return are very necessary Articles and will be of great service in fetching Turf, Bricks, Piles, &c. if any Works are to be carried on at this Place, but more particularly so, when occasion shall require a Party to be sent out to any part of the Bounds. We are with the greatest Respect

HONBLE SIR & SIRS

Your Most Obedient
& most faithful Servants

JOHN CALL.
JOHN HUME.

DEVE COTAH,
JUNE 11TH. 1756.

——*FORT ST. GEORGE, JUNE 1756* ——

To the Honble George Pigot Esqr.
President & Governour &c. Council
of Fort St. George.

Honble Sir & Sirs

The 30th. Ultimo at night I receiv'd a Letter from Mr. Secretary Du Pre' dated the 15th. advising that he had receivd Your directions to acquaint me, " that a Report of my Transactions at Deve Cotah during a part of the time I held the employ of Chief there having been laid before You by Mr. Smith as Supravisor of that Settlement, my Conduct in many instances appears unwarrantable and particularly in the following, amongst many others of less Note which are therefore not taken Notice of at this time ".

These I find are ranged in Eighteen Articles which in obedience to Your Commands I shall now reply to as briefly as the Nature of the thing will admit of, and to the best of my present Abilities, making no doubt of every kind allowance for the imperfections which may be discover'd in the performance.

The first Article contains a charge of having directed the Companys Conicoplies to burn and destroy their Cadjans, Can there be the least probability that those very Men who have been my accusers would at my Command (even supposing I had order'd it) burn those Cajans which were not only their Justification but my Conviction, and their destroying also what were of a Prior date to my Appointment to that Settlement, which could have no connection with my Transactions, is a circumstance which no doubt will give Your Honour &c. no very favourable impression either of their Honesty or Integrity, but on the contrary, give You great cause to doubt their Veracity even in the remaining Articles.

As the 2d. 3d. 4th. 5th. 6th. 7th. 8th. 9th. 13th. & 14th. Articles contain Accusations of the same kind I hope it will not be disagreeable to your Honour &c. that I presume to make one Answer to serve for all; and that is, Whatever Article has been overcharged, was without any design or even my knowledge and whatever mistakes or Errors have happen'd, resulted chiefly from my being render'd incapable by a lingering bad state of health, of Inspecting into the Conduct of my Servants, who made every advantage they could from it, and who were the only people I had to depend upon; and as to the exchange of Rupees, it was a mistake of the Conicoplies, which I had given directions to be rectified, but what part of the 12000 Rupees spoken of was exchanged at the rate of 320 ℔ ℅ Pagodas has escaped my memory but which when adjusted, as it proceeded entirely, through the neglect of the Conicoplies I shall be ready and willing to reimburse.

In Answer to the 7th. Article Comrapah the head Conicoply of the Companys, came to me desiring I would grant him the liberty of going to Combiconnam feast, informing me at the same time that it was always customary, not only to comply with such request, but for the Honour of the Company, that he should be attended with some Seapoys. I therefore consented, as it was at a time of profound tranquility, believing it to be an indulgence usually shewn them and not ureasonable [*sic*], as it gives the Country people a proper Opinion of a Chief servant of the Company.

The 10th. Article contains circumstances that have been usual before my time Seapoys when not upon service, being often employ'd in other Capacities. The Pay Rolls were always brought to me ready drawn out, and sign'd by the Commandant for the time being, and therefore with submission I cannot think myself to blame, more especially as whenever my ill state of Health would permit me to see them musterd they appeared compleat, and if a Seapoy at other times was made use of as a Baker, Washerman, or Ironman (which I am totally

ignorant of) it must have been an imposition put upon me by the Conicoply; though supposing it was so if as I have abovesaid they were compleat I cannot see the harm of their acting in a double Capacity.

The 11th. Article is amply answer'd in what I have said to the 7th. and 10th.

In Answer to the 12 Article relating to Fanams I did write to Mr. Starke of the great want thereof and had I been supply'd from thence, this never would have been an Article against me, but He assured me there were not enough at St. David for their own purposes and his letter can be produced if Your Honour &c. require it.

If there were any Prohibitions laid upon Trade, or any Inhabitant oppress'd either in their Person or Property as set forth in the 15th. Article, it was so industriously kept from my knowledge that I was an utter stranger to it, having several times by beat of Tom Tom, done all I could to encourage a freedom of Trade and the Inhabitants to complain upon any ones presuming to Aggrieve them in that, or any other point; and had they ever Complain'd no Man would have been more ready to do them Justice.

In Answer to the 16th. Article, my sole reason was to relieve the necessities of the Poor, and this with no detriment to the Company, as the Farmers about Chially promised to replace it, and they would have comply'd with their promise had not the great Freshes prevented them, When I found myself in this distress, I applied to St. David, but without success. I dare believe Mr. Smith will do me the Justice to acknowledge, that I always intended, and endeavour'd to replace it, and I hope it is already or will be done in a short time, and that Your Honour &c. will not Interpret this in any other light, than what it was intended.

In Answer to the 17th. Article, I knew nothing of such practices, as therein specified but this I know that it is too often in the power of the Subadars and Conicoplies to connive at such irregularities, when the whole Advantage accruing from thence is their own, and the whole management must go through their hands and not in the power of the Chief or Commandant to prevent them, till it is found out through a disagreement amongst themselves; and give me leave to add, that the Gentleman sent to enquire into my Conduct too easily believ'd the many Charges brought against me, without ever permitting me to be present at any of his Examinations which would have enabled me to have Confronted the Evidence and made this my answer to Your Charge more Compleat; nor would those Evidences then have dared to lay so many Falsities at my door, and I should have enjoy'd a liberty, which though deny'd to me, yet on all other occasions, has been granted even to the worst of Criminals.

In regard to the 18th. Article, upon receiving the new Regulations from Your Honour &c. I immediately Publish'd them, and till I found it an Article of my Charge, never knew, but they were as strictly executed; but to my great concern their Villainy has been all of a piece, who after they themselves have made every advantage of it, load me, with all the Infamy.

Having thus reply'd to the several Articles of the Charge exhibited against me, to the best of my Abilities and Memory, there only remains to solicit of Your Honour &c. Permission to recommend to Your serious consideration, the great ease, with which either White or Black people (particularly the latter who govern themselves by very slender Tyes to either Truth or Confidence) may be prevail'd upon to accuse even their nearest Relations much more their Masters, of those unwarrantable actions they themselves have been the Authors of whenever it comes in Competition with their own safety and from the dread their minds are seized with thereby pretend to have receiv'd orders for so doing in hopes to escape the Punishment they know ought to fall upon them only, the

—— *FORT ST. GEORGE, JUNE 1756* ——

Evil consequences springing from such practices (if they are once either permitted or Countenanced) I need not point out to this Honble Board, as nothing can be more evident than the dangerous lengths it may be extended to, in destroying the most unspotted Innocence.

Upon the whole I do with all humble submission entirely Resign myself to whatever Determination You come to on the subject, and I flatter myself it will be attended with the utmost Candour & Humanity, more especially when You come seriously to Reflect, who my Accusers are. In the meantime permit me to subject myself with the greatest Respect

St. Thomas's Mount, Honble Sir & Sirs

19 June 1756. Your most Obet. & most obliged humble Servant

Charles Hopkins.

To the Honble George Pigot Esqr.
President and Governour &c. Council
of Fort St. George.

Honble Sir & Sirs

Your Honour &c. having been pleased to direct me to lay before you the Proofs in support of the Charge against Mr. Hopkins, I beg leave to produce the most material of those on which I grounded my Report.

The first Charge against Mr. Hopkins is for Ordering the Cadjans to be burnt. To this Mr. Hopkins in answer only speaks of the improbability of such an Order from him, without denying it. The means by which it came to my knowledge, were by the Information of Comrapah and Narrain the Company's Conicoplies, Mr. Hopkins's own Conicoply Mootiah and Manoel Soares his Portugueze Writer. The Last upon Oath, whose Declaration No. 1 is hereunto annex'd for your Information.

Mr. Hopkins replies in one Paragraph to the 2d. 3d. 4th. 5th. 6th. 8th. 9th. 13th. and 14th. Articles of the Charge, by saying whatever Overcharges have been made, were without his knowledge. That such Overcharges were made and by his Direction will appear by Comrapah's Declaration hereunto annex'd No. 2.

The 7th. Article being a Charge against Mr. Hopkins for allowing the Company's Conicoply a large Escort of seapoys to Combiconnum Feast, Mr. Hopkins does not deny, and therefore it is not necessary to produce any Proofs. How far his Conduct may be justified remains with your Honour &c. to determine.

On Mr. Hopkins's Answer to the 10th. Article of the Charge wherein he asserts that the Seapoy Rolls were compleat and that if any servants &c. were enter'd on them it was without his knowledge, and even in that case they acted in a double Capacity. I have only to observe to your Honour &c. That Captain Spear acknowledged to me he had Mr. Hopkins's permission to charge his own servants who were not Seapoys; And that Mr. Hopkins own Washerman &c. were also charged will be proved by the Testimony of Comrapah the Company's Conicoply if Your Honour &c. think proper to call him before you.

Mr. Hopkins answers the 11th. Article of the Charge by referring to his Answer to the 7th. & 10th. Articles. That the Peons Rolls were incompleat, as is mention'd in my Report, the Declaration of the then Chief Peon at Deve Cotah will prove No. 3.

——*FORT ST. GEORGE, JUNE 1756* ——

How far Mr. Hopkins's Reasons in answer to the 12th. Article for not crediting the Company for Batta on Pagodas, may be deem'd satisfactory, is left to Your Honour &c. Judgment and require no Proofs from me.

Mr. Hopkins's Answer to the 15th. Article seems extraordinary, for in all my Enquiries I never had the least intimation that he ever beat the Tom Tom for the Encouragement of Trade, as he asserts, but on the contrary that he published an absolute Prohibition, in that manner as is set forth in my Report and the said 15th. Article of the Charge, the annexed Testimonies of the Mettoe Peons No. 4, 5, 6, 7, 8 & 9 afor'd an ample Proof, and therefore I beg leave to refer to them without farther Particulars.

In regard to the Company's Grain sold and not accounted for as charged in the 16th. Article Mr. Hopkins appeals to me for my opinion whether he did not mean to replace it On this I have only to observe to your Honour &c. that it is most natural to suppose he did intend it. Whether Mr. Hopkins would have done strict justice to the Company in only replacing the Grain instead of crediting them for it as sold, is a Point that your Honour &c. can best determine.

Th displacing of Seapoys by the Company's Conicopl ywith Corrupt Views is charged against Mr. Hopkins in the 17th. Article only as a neglect in suffering it and in not having sufficiently informed himself as the Chief of the Settlement of the Transaction relating to the Military. That Sepoys were displaced and Entrance money taken I have proofs ready to produce to your Honour &c. when required.

Mr. Hopkins's Answer to the 18th. Article being of the same kind with his Answer to the 17th. admits of the same Reply.

Mr. Hopkins's Complaint in Answer to the 17th. Article. That he was never permitted to be present at the Examination of the Witnesses, I must say in justification of my Conduct that I offer'd to call the Company's Conicoply and others before Mr. Hopkins that they might publickly declare what they knew relating to divers particulars of his Conduct, but he absolutely declin'd it. However, if Mr. Hopkins should now think it may be of service to him to have them re-examined in his presence, they are here ready to be produced if your Honour &c. should think fit.

These are the most material Proofs on which I grounded my Report, and I am with the greatest Respect

Honble Sir & Sirs

Having sometime since wrote to the President for leave to return to Europe by the first Ship, but not having receiv'd any answer, make bold to Address the Board for the same, my reasons for so doing the Governour was acquainted off which were that I had not my health, and had receiv'd a Letter from Europe by the Delawar from a Friend which advised me to come Home as my Relations expected me. I have therefore resolved to take their advice (with your Honour &c. leave) as I find the little time I have been in India my Expences too far exceed the Honble Company's Allowances, and was I to continue in their service must be obliged to borrow Money which I never will without being certain that I could pay it soon. As these are my Reasons, I hope you will have no objections to my returning and your leave to come up to Madras would highly oblige

AT A CONSULTATION

MONDAY THE 5TH IN THE AFTERNOON.

Present

GEORGE PIGOT ESQR. GOVERNR. PRESIDENT.
STRINGR. LAURENCE. HENRY POWNEY.
ROBERT ORME. ALEXR. WYNCH.
WILLM. PERCEVAL, JOHN SMITH.
CHARLES BOURCHIER.

The Book of Standing Orders lying on the Table.

Packet ℔ Godolphin open'd.

The Packet from the Honble Court of Directors for this Presidency by the Godolphin being brought on Shore is now opened and the Papers therein Contained being found to Agree with the List of the Packet, on comparing the General Letters and other material Papers with those read by the Stormont &c. they appear to be duplicates thereof.

Order sign'd for delivery of Treasure & c.

An Order is now sign'd to the Commandr. of the Godolphin to deliver the Treasure Military Wares and Stores Consigned to this Presidency.

Orders in consequence of the Company's General letter dated 19th. Decmr. 1755.

Pursuant to Adjournment this Morning the Honble Companys Commands in their General Letter dated the 19th. December last are now consider'd and the following Directions given thereon Vizt.

1ST. SHIPPING.

Paragraph 6. Relating to Redwood for China.

The Export Warehousekeeper acquaints the Board that there is a considerable quantity of Redwood brought in and ready to be sorted.

ORDER'D that the Export Warehousekeeper and Engineer examine the same and seperate that which is proper for the China Market and report the same to the Board.

ORDER'D that to avoid any delay in the dispatch of the China Ships The Redwood be sent on board them by the returning Boats as fast as they land their Consignments here, if the Ships can take it in.

2D. GOODS FROM EUROPE &C.

Paragraph 34. That thirty Men Coffrees be sent to St. Helena.

Altho the Coffrees here having been long train'd to Arms are now very good Soldiers and may be extreamly usefull as there is but too much cause to apprehend fresh troubles on this Coast Yet as the Company's Orders are positive.

AGREED That Fifteen of the Coffrees be sent to St. Helena by the Delawar and the remaining Fifteen by the Ship to be dispatch'd in January.

3D. INVESTMENTS.

Paragraph 43. Directions in what manner to Contract for the Investment.

Althó the Board have no grounds to imagine they shall meet with better success from Publick Notice than they had last Year for the reasons which have been fully represented to the Honble Court of Directors yet in Obedience to their Commands

— *FORT ST. GEORGE, JULY 1756* —

ORDER'D that Publick Notice be given by Advertisement to be affixed in the usual places that all Persons who may be inclin'd to Contract for or undertake to provide the Company's Investment or any part may deliver in their proposals in writing within two Months from the date hereof, and that in the mean time the Musters may be view'd at the Export Warehouse And it is also AGREED to write to the Gentlemen at Fort S^{t}. David to give Publick Notice for Contracting these in like manner. ORDER'D that the form of the Advertisement be entered hereafter.

45. To be careful that the Expences of Deve Cotah do not exceed the Revenues.

This subject is considered under the Head of Fortifications.

4TH. COUNTRY GOVERNMENT.

51. That the Nabobs Debt be exactly ascertain'd to a certain Period and then be acknowledged by him or otherwise order'd valid, and that in future what may be further Contracted be secured at short Intervals.

The Transactions with the Nabob being under the Management of the Select Committee it is referr'd to them to pursue such measures at present and in future for obtaining the acknowledgment and Authentication of the Accounts between the Company and the Nabob as they shall think fit, And the Accountant is directed to lay before the said Committee a State of those Accounts, and that he may be the better enabled to draw out the same AGREED to write to the Gentlemen at Fort S^{t}. David and Deve Cotah that they are to furnish him from their Books with such Extracts and Accounts as he shall apply for.

5TH. FORTIFICATIONS &C.

55. All the Orders given in regard to the Conducting the Works at this Presidency are to be observ'd in the same manner at the Subordinates. The Board observe that at Vizagapatam and such other of the Subordinates where there are but few of the Company's Servants it is impossible that the same Method can be pursued as at the Presidency but with respect to S^{t}. David AGREED that the Deputy Governour and Council be directed to appoint a Committee for Conducting their Works, to consist of two of the Members of their Board and M^{r}. Call who are to consider of ways and means for providing Materials and carrying on the works to the best Advantage but that previous to their resorting on any method of providing Materials Publick Notice be given that all Persons who may be inclined to supply the Company with Bricks or other Materials may deliver in their proposals, and then upon the whole that they fix on such Method as may seem best in all Respects.

56. That nothing more than unavoidable Repairs be done at Deve Cotah. The Fort of Deve Cotah being to Us the Key to Tanjour Country and Trichinopoly from which our Communication might be easily cut off had the Enemy a Superior Force and that Place in their Possession the Board think it of the utmost Consequence that it should be preservd at least untill the Country be settled in Peace even thó it may not answer for an Investment, and the Charges of repairing and maintaining the Settlement should at this time exceed the Revenues of it which however it is hoped will not be the case long, those bounds having been lately farm'd for upwards of Nine Thousand Pagodas (9000) and being capable of great improvement. Upon these Considerations a Survey has lately been made of the Condition of the Fort and the Works necessary to render it defensible a Report and Estimate whereof amounting to Seven thousand (7000) Pagodas having been laid before the Board the 28th. Ultimo. were then order'd to be carried into execution and the Board being still of Opinion that the Importance of the Place is much more than adequate to the Expence it is

— *FORT ST. GEORGE, JULY 1756* —

Resolv'd that the Orders already given do subsist, with this difference only that the erecting the two Counterguards and digging the Ditch as they are the most Expensive part of the Works being estimated at Four thousand Pagodas be not set about untill the other Repairs are well advanced.

58. The Powder Mill to be put under the direction of the Committee of Works.

ORDER'D that the Powder Mill (a Model whereof was sent out by the Onslow) be erected under the Inspection and direction of the said Committee on some proper spot at a Convenient distance from the Powder Mill at Egmore.

59. To be mindfull of making an Assessment on the Inhabitants towards defraying the Charges of the Fortifications.

As such an Assessment cannot be made without very discouraging Circumstances which are fully stated in the 72d. Paragraph of the General Letter by the Hardwick dated 27th. October the Board think they ought to suspend any further Resolution thereon untill they receive an Answer thereto from the Honble Court of Directors.

68. Such Recompence to be made the proprietor of the Confiscated Houses as the Board shall think reasonable.

The Court of Directors having being pleased to leave the settling this Affair entirely to the President and Council they are of Opinion that the best Method of determining it is to restore the Houses in their present Condition to the former proprietors upon Condition that they immediately dispose of them to European Protestants residing here And it is Agreed that they be restored accordingly.

6. COVENANT SERVANTS &C.

Para. 70. One of the Council of the Presidency always to be Second of Fort St. David and constantly reside there. Mr. Wynch appointed to that Station.

Mr. Wynch thinks himself happy in the good opinion our Honble Masters are pleas'd to express of his knowledge in their Civil Affairs and chearfully submits to their Appointment.

71. The Junior Chaplain always to reside at Fort St. David. Mr. Palk directed to proceed thither.

ORDER'D that the Honble Company's Commands in the foregoing Paraaph be signified to Mr. Palk.

73. Mr. Dawsonne Drake dismiss'd from the Service.

Mr. Drake being now at Deve Cotah as Provisional Chief AGREED that Mr. James Bourchier be, and he is hereby appointed Chief of the Settlement of Deve Cotah that a General Letter be wrote to Mr. Dawsonne Drake signifying the Honble Company's Commands and directing him to deliver over the Charge of the Settlement to Mr. James Bourchier and repair hither as soon as he has settled his private Affairs.

91
92 } The Swiss Companies to be incorporated with the English.
93

The President and Colonel Lawrence are desired to see these directions carried into Execution.

95. Victualling the Military in Messes in the manner of the Kings Troops recommended.

The President and Colonel Lawrence undertake to regulate this accordingly.

— *FORT ST. GEORGE, JULY 1756* —

97. In regard to Invalids. As many of the Europeans as the returning ships can take may be sent as Charter Party Passengers. The settling a Fund recommended.

ORDER'D that as many Invalids be sent home on the China Ships as the Commanders will receive and that ten be also sent by the Delawar if Captain Winter can carry them besides the Coffrees for S^{t}. Helena. In regard to the settling a Fund having wrote fully by the Hardwicks on this Subject.

Paragraph one hundred the Board beg leave to refer thereto.

99 The Office of Town Major Abolished. Para.

The President acquaints the Board that the reason for appointing such an Officer was the great ease and Assistance it is to him in dispensing the necessary Military Orders in the Garrison and which is become extreamly necessary since the vast encrease of Business in every Branch, And as the resolution of the Honble Court of Directors to abolish it seems not to have arisen from any dislike to the Office but to the Expence attending it, he acquaints the Board that Captain Bridge is willing to execute it without any Additional Pay. The Board considering the Companys Orders in that light it is AGREED that the Office of Town Major subsist so long as it be executed without any additional Charge to the Company.

100. Publick notice to be given that the Board will receive proposals for Victualling the Troops.

ORDER'D that such notice be given accordingly by Advertisements to be affixed in the usual Places, and that such Proposals be delivered to the President in writing within one month from the date hereof. The form of the Advertisement is enter'd hereafter.

101. Directions for Discharging a Bond due to Coja Sultan David with simple Interest.

ORDER'D that an account be stated of the said Debt and Interest and that the Ballance be paid to Coja Sultan David.

108. Account particulars of all Military Expences to be sent home.

The Commissary's Accounts having been regularly deliver'd in and deposited in the Accountants Office. ORDERD that Copies thereof be made to be sent home, and that in future the Commissarys Accounts be sent home regularly every Year in the same manner as all the other Accounts of the Settlements.

8 WEST COAST.

118. Mr. Pybus directed to return to his Station here by the very first safe Conveyance.

Althó the last Advices from Fort Marlbró mention that Messieurs Combes and Carter (who are by name appointed to succed to the Chair there) had declared their Intention of returning to England on the Storeship, yet as the Honble Court of Directors have been pleased to direct a General Succession in case of Vacancies above M^{r}. Jack who is appointed Standing third, and also positively Order that M^{r}. Pybus return hither by the very first Conveyance.

AGREED that by the next opportunity M^{r}. Pybus be directed to Return accordingly leaving the Charge of the Settlements there to such Persons as are appointed to succeed thereto by the Company's said Orders.

120. Present of 100 £ Sterling to be given to M^{r}. Walsh.

Enclosing a Packet for the President & Council of Bombay to be forwarded. The second dated 4th. June Acquainting Us that since the date of their last they had been & are still involved in a Dispute with the Country Government occasion'd by the Nabobs taking Umbrage at their repairing & Strengthening their line of Guns towards the River and That by Letters from Cassimbuzar (Copies of which they send us) they are afraid Matters will be carried to Extremities. the Nabob having station'd a Party of Horsemen round that Factory & seeming much exasperated. That should they be attacked they are resolv'd to repel force by force & to that

End desire We will send them as soon as possible all the Recruits We have detained from them or at least a Reinforcement of Five hundred (500) Men with a proportionate Quantity of Arms & Stores which if We neglect doing they deem themselves no ways responsible for what may happen. That they think it advisable We should communicate this to Admiral Watson. That the Prince George has imported there & shall be return'd to the Negrais with Stores &c^{a}. Artificers so soon as repair'd, should they in the mean time not receive any Instructions from Us to the contrary. That the Owners of the Fortune Ketch have relinquished the Freight for the Treasure sent them, & they doubt not but upon proper Application to the Commanders of the Vessells belonging to their Settlement. We may always forward the Supplys intended them freight free. That they shall dispatch a Pattamar to Us about the end of the Month with a Packet to be forwarded by the Delawar to England & now Enclose a Packet from the Negrais receiv'd by the Prince George. A Postscript is added to acquaint Us that they had just receiv'd Advices from Cassimbuzar that another Party with a Train of Artillery was arrived there, that some Peons are placed over their Vackeel and that all Communication with the Country People is cut off from which We may judge what they have to expect. The third is dated the 7th. June acquainting Us that the Nabob had ordered a considerable Party with a large Train of Artillery to march down the River, that they were actually on this side to Cassimbuzar and that all Communication was cut off from that Factory from which they apprehend his Designs extend further than is known & therefore entreat Us to send a Reinforcement without the least delay. In a Postscript they advise Us of the surrender of Cassimbuzar & refer Us for Particulars to Copies of Letters from thence which they enclose.

A Detachment of 2 Companies to be sent to Bengal by the Delawar.

The Measures proper to be taken with respect to the Situation of Affairs at Bengal being considered the Board at first had thought of sending the Suffolk with the Delawar down thither but upon discoursing with the Commanders, and finding that the Delawar alone can carry as many Men as can be spared it is AGREED that the Delawar only be dispatch'd as expeditiously as possible and for that purpose that the Bales and Salt Petre laden on her for Europe be landed with all dispatch, and that two Compleat Companys of Military be sent on her. The Board then proceeded to the Nomination of Officers to Command the said Detachment when Colonel Laurence very readily Offer'd to proceed with the Command, but the Board thinking his Service necessary here and judging also from an Indisposition which constantly attends him that the Air of Bengal especially at this Season of the Year might prove fatal to him it is therefore on these Considerations thought more adviseable to desire Major Killpatrick to take upon him the Command of the Detachment. Major Killpatrick being thereupon desired to attend the Board and being inform'd of the Circumstances of Affairs at Bengal & the resolution of sending a Reinforcement thither, acquaints the Board that tho' he had resign'd the Service and resolv'd on going home yet being ready and desirous at all times to show his inclination to serve the Company as well as Gratitude for the favours receiv'd, if the Board think proper he will proceed with the said Command, It is thereupon AGREED Major Killpatrick Command the said Detachment and that the other Officers be

HONBLE SIR & SIRS

The Honble Companys Stock of Timber and Plank being entirely Expended or in use, in the several Branches of their Works on hand, which must suffer great Impediments, if a further Supply is not speedily obtain'd We have therefore made it our Business to procure an Account of what may be had in the place belonging to Private Persons with the price of it, which we Now lay before you & think reasonable. We therefore submit to your Honour &ca. Consideration, whether it would not be proper to purchase the same for the Honble Company's Use, As well as Concert the necessary Measures for Importing a further Quantity Which will not only be greatly wanted for carrying on the Works, but We imagine may be attended with less Expense to our Honble Masters; As a large Store in the Place must of Course lower the Price, and prevent our being reduced to the Necessity of supplying Ourselves from the Inhabitants at an advanced rate, which must be the case to answer immediate Occasions, if the Company have not a large Stock on hand as the many Branches of their Business occasion a very Considerable Consumption.

We are with Respect

Fort St. George.

Honble Sir & Sirs

I now take the Liberty of addressing Your Honour &ca. concerning an affair of the utmost consequence to me 'tis in regard to my keeping my Standing from the time I was appointed which was in December 1750, but being so unlucky to be taken ill, with the Small Pox about the time the ships were to sail for this Coast, by that I was detain'd, till 1752, I can't but think it extreamly hard, that I should be superceeded by those that were younger on the List than I was, which I am by nine Gentlemen, having so good a reason to plead for my being detain'd in Europe which I will submit to Your Honour &ca. Superior Judgment and consideration.

The enclosed is Copy of the Date of my Covenants, which I have now got, and may I hope be of some service to me.

If I could presume to take the liberty to entreat Your Honour &ca. to mention this in Your Letter to England in as favourable a light as possible, I then might have some hopes of being stated to my former rank, but without it all I can do will be nothing worth.

I hope Your Honour &ca. will Pardon the freedom I take in addressing You on an Affair so nearly concerns my welfare, and I beg leave to assure You that.

I am with Great Respect

The Minutes of last Consultation the 28th. Ultimo read & Sign'd.

General Letters read Vizt.

General Letter read from Bengal.

No. 104 From Roger Drake Esqr. Presidt. & Governour &ca. Council of Fort William dated the 8th. June Enclosing Triplicate of what they wrote Us a few days before & Copies of the Letters from the Gentlemen at Cassimbuzar giving the Account of the surrender of that Place to the Nabob And acquainting Us that they had received authentick Advices that the Nabob with his Artillery and a considerable Body of his Forces are on their Way down to Calcutta. That they are making all preparations for a vigorous Defence, but as their Garrison is extreamly weak they will endeavour to amuse him and avoid proceeding to Hostilities as long as they can, in hopes of our sending them a Reinforcement sufficient not only to repel those Troops but recover the Factory at Cossimbuzar. That as their Safety is at stake and only depends on the Relief We shall send they earnestly request We will not on any Motive neglect supplying them with the Number of Men they demanded otherwise We must excuse them if they exculpate themselves by protesting against Us for the bad Consquences. That as they are very deficient in Musket Shott & most kinds of Military Stores they expect We will send them proportionate Quantity of all of them, and also as much Gunpowder as We can; as it will be impossible for them to make any should the Town be invested & the Quantity they have by them will probably be expended by the time We can send any.

From Vizagaptm.

No. 105 From Charles Boddam Esqr. Chief &ca. Council at Vizagapatam dated 15th. July Enclosing their Cash Account for June and acquainting Us that they had just received a Packet from Bengal which they now forward to Us.

Resolution in regard to a further Detachmt. to be sent to Bengal.

The President reports to the Board from the Secret Committee that Salabad Jung having made pressing Sollicitations for a Detachment of our Forces to Join his Army the said Committee have had under Consideration whether his request could be complied with or not, and in the Course of their Deliberations have given it as their Opinion that Four hundred Men might be spared for that Service including the Train. The Board thereupon taking into Consideration the State of Affairs at Bengal and the pressing demand made by the President and Council there for Military are of Opinion that altho' Four hundred Men might be spared to Join Salabad Jing yet the same Number cannot prudently be detach'd for the Service in Bengal because in the first Instance it might reasonably be supposed that their Junction with Salabad Jing would draw off at least an equal Number of French Troops that way or if Occasion should require the party might be recalled but in case of sending such a Body of Men to Bengal it might be impossible to have them back here in time of Need nor would the French be under any necessity on that Account to lessen their Forces on the Coast. The Board are therefore of Opinion that not more than One hundred and Fifty Men can be spared from this Coast (besides those already sent by the Delawar) for the service of Bengal And it is AGREED to apply to Admiral Watson for the Twenty Gun Ship or Sloop belonging to His

—— *FORT ST. GEORGE, AUGUST 1756* ——

Majesty's Squadron to transport that Number of Men with Military Stores to Calcutta a Draught of a Letter to Admiral Watson for that purpose is now settled and is enter'd hereafter.

The Sea Horse Sloop to be hired to carry Gunpowder to Bengal.

AGREED that the Sea Horse Sloop Captain Oliphant now lying in the Road be Freighted on the Hon'ble Companys Account and dispatch'd as soon as possible to Bengal with Gunpowder and Ammunition.

Letter from Mr. Brohier proposing 10,000 Husbandmen to be furnished by the Renters for the Works.

The President lays before the Board a Letter address'd to him by Captain Brohier which is read (as enter'd hereafter) representing amongst other things that the Cooleys at present employed on the Works are not the tenth part sufficient to throw up such as are immediately necessary for the Security of the Place and that he believes ten thousand Husbandmen may be procured with their Tools out of all the places dependant on this Settlement if a proper Abatement be made to the Renters on their Farms for the time those people will be so employed. The President thereupon acquaints the Board that in Consequence of Mr. Brohier's Representation having sent for the several principal Renters and Order'd them to deliver in an Account of the Number of Husbandmen each of them could collect together in their several Districts to be employ'd on the Companys Works here, he had receiv'd Petitions from the Renters of Poonamallee, Tripossore, Covelong, Chingleput, Mannamangalum and St. Thome, which are now laid before the Board, whereby it appears that instead of Ten thousand Men they will undertake to furnish no more than three thousand and their estimate of the loss they shall sustain thereby as this is the Season for Sowing Sundry Sorts of Grain, amounts to no less a Sum than forty five thousand Pagodas for one Month, which Sum added to the price of their Labour on the Works, the Board think by far more than adequate to the Service they can perform, and therefore declines Mr. Brohier's proposal but will Endeavour by all reasonable means to procure as many Cooleys as possible which Resolution the Secretary is directed to Signify to Mr. Brohier and the Petition of the Poonamallee Renter and One of the other Petitions (the rest being of the same tenour) are order'd to be enter'd hereafter.

Resolution thereon.

Mr. Smith's Report of Mr. Hopkin's Gain by Batta on fanams.

Agreeable to Order of Consultation the 5th. Ultimo Mr. Smith now lays before the Board an Extract from the Devy Cottah Books of the Batta gain'd by Mr. Hopkins on the Exchange of Pagodas into fanams amounting to Pagodas One thousand nine hundred and seventy one (1971) ORDER'D that the Secretary demand of Mr. Hopkins payment of that sum with the amount of the Overcharges mention'd in Mr. Smith's Report in Consultation the 5th. Ultimo amounting together to Pagodas Two thousand five hundred and eleven, nine fanams and sixteen Cash (2511–9–16). A Copy of the Secretary's Letter to Mr. Hopkins on this Occasion is enter'd hereafter.

The Secry. to demand of Mr, Hopkins the Acct. of over Charges.

Mr. Brook's Account Presents to the King of the Burmars &ca. Order'd to be paid.

The President lays before the Board an Account of Sundry Presents made by Mr. Brooke whilst Chief of Negrais to the King of the Burmurs, his Ambassadors, Upper Rajah and other Great Men on various Occasions, which have not been brought to Account at the Negrais as Mr. Brooke being on his Return hither was desirous of fully explaining the necessity he was under of making those presents, and obtaining the Approbation of the Board before he Charged them to the Company. In the same Account is also contain'd the Wages paid by him to Sundry Lascars belonging to the Island who came with him in the Cuddalore Sloop being what was due to them at the time of their leaving the Island for the then Current Month, the whole amounting to Eleven hundred and Fifty Rupees two Annaes (1150. 2. –). The President & Council of Bengal having in a Letter of the 7th. June advised Us that the Nabob of those parts had made himself Master of the Companys Settlement of Cossimbuzar and that he was then in full March with a considerable Army towards the Town of Calcutta which is the Principal Settlement of our Company in Bengal the Gentlemen there having but a thin Garrison wrote Us in very pressing terms to send them immediate Assistance. We accordingly laid aside our Intentions of dispatching the Delawar to England and embarked with all the Expedition. We were able [*sic*] as many Men as that Ship could receive on board which were about Two hundred and Thirty. We have great hopes this Reinforcement would reach them in time to prevent their Nabobs making any further progress but as it may not be altogether sufficient to enable the Gentlemen there to oblige him to retire to a proper distance, and having received fresh Letters requesting that the Supply We send may be as large as possible We think it incumbent on Us to send an Additional Force but not having a proper Conveyance We are under the necessity of troubling you with a Request that you will if possible spare the Twenty Gun Ship or the Sloop belonging to your Squadron to embark about One hundred and Fifty Men with a few Military Stores a List of which We take the Liberty to trouble you with And We are further to Request that you will direct the Captain of the Ship to give all Assistance either by Land or on float he may Judge himself capable of doing. if requested by the President & Council there.

HONBLE SIR

As I think it my Duty to Represent to you what I conceive necessary to be done for securing this place against any Attempts from an Enemy, I must beg leave to acquaint you that since I have begun to Raise the Works to the Westward I find that notwithstanding there has been Two thousand Twenty three Coolies employ'd since the 12th. Instant There hardly Appears any thing to have been done, and as We have no less than Forty thousand Rods of Works to be thrown up for the Immediate security of this Place, and that what People we have is not the Tenth part of what We want to do it, And as I conceive it is of the greatest Importance to the Company to Effectuate the Speedy Security of the Town with all possible diligence, I believe that Ten thousand Husbandmen may be procured with their Tools. Out of All the places dependant on this Settlement if a proper Abatement be made to the Renters. on their farms for the time those people will be so employed and I am persuaded I shall then be able to secure the Place.

I must further beg leave to Represent that it is absolutely Necessary that all Timber Plank & firewood be brought into town or Under the Walls along the Seaside. to prevent an Enemy from making use of it in filling up Ditches Raising Works &c^{a}.

I must also beg leave to Acquaint you that the North front is in a Defenceless Condition & Except Works are Thrown up to Cover it the Parapets will only serve to destroy what People will be posted to defend that Part of the Town.

These matters I have taken the Liberty to Represent. As of the utmost Importance to the Company's Welfare. And am most Respectfully

The humble Petition of Numboor Vencaty Soobiah Renter of the Poonamallee Country

Sheweth

That if your Petitioner supplys 1000 Men daily for the Companys Works for the Space of one Month the Planting of the Corn called Caur in the present Month as well as Sowing Sumba Grain &c^a^. will be stopt, for which reason a Loss that shall Accrue to your Petitioner would amount to Pagodas 15000, for which you'll be pleased to grant to Your Petitioner a receipt.

According to the above Accounts it amounts to 30,000 Coolies for the whole Month which Your Petitioner will make it good ten days more or less, that is to say, if not in one Month in 40 days, You'll Order eight of the Companys Peons upon this Business. Some part of the last Years Corn is not yet thrashed which should be done by the Coolies and as they shall be employed in the Company's Works as aforesaid. Your Petitioner desires that you'll grant him a further time for the payment of the remaining of the last year's rent.

And Your Petitioner as in Duty bound shall ever Pray.

The humble Petition of Appauzy Ninary Renter of Conjeevaram and Chingalaput Countrys

sheweth

That your Petitioner was desired to declare his Ability, to supply the Cooleys for the Companys Works &c^a^. as your Honour is sensible of the great distance the said Countrys lay from Madras and this is the proper Season for Planting and sowing Grain, it would be needless for him to say much to your Honour on that head, he therefore declares that he agrees to supply 700 Men daily, for the space of one Month and as that amounts to 21000 Coolies for the whole month, your Petitioner will make that Number good ten days more or less, that is to say, if not in one Month in 40 days as to the Loss which may Accrue to your Petitioner therefrom your Petitioner will abide by your Determination as you may make it with regard to the Renter of Poonamallee.

The Commander of the Chingleput Fort always forcibly carrys the Labourers & Straw &c^a^. out of the said Country wherefore you will please to send a Letter to the said Commander not to trouble Your Petitioner there on that head & also please to give a further time of 2 Months for last payment of the Last Years Rent. Storehouse Military.
Engineer's.
Paymaster's.
Military Paymaster's.

— *FORT ST. GEORGE, AUGUST 1756* —

2. . . The Paymaster's Accounts do not shew with sufficient Distinctness his Disbursements of Fanams. We think he should express in the Body of his Accounts as well as in his Account Current the number of fanams expended, in the method practiced by the Paymaster of Fort S^{t}. David.

3. . . The Military Paymaster has not drawn out his Account Current in the prescribed Form with double Setts of Columns, which he should be carefull to comply with in future.

4. . . We must recommend that all the Employs in General do particularize in an inner Sett of Columns, not only in their Accounts Current, but in all Cash Entries in the Body of their Accounts the Species in which the Receipts or Payments happend, And that the inner Sett of Columns, may be maintained with exactness, and be subject to a Ballance equally with the outer sett, it will be necessary whenever Pagodas are required to be changed into Fanams, that the Entry used on that occasion in the President's General Cash Accounts be observ'd.

5. . . We have nothing further to point out with Respect to the Accounts of this Settlement but give it as our Opinion they may be passed referring how ever as usual the Paymaster's Disbursements to the Inspection of your Honour &c^{a}. We are with Respect

TO THE HONBLE GEORGE PIGOT ESQ^{R}.
PRESIDENT & GOVERNOUR &C^{A}. COUNCIL OF
FORT S^{T}. GEORGE.

HONBLE SIR & SIRS

1. . . We now present you with our Remarks on the Accounts of the Northern Settlement for the Months of March and April.

1st. VIZAGAPATAM
CASH ACCOUNT.

2. . . In March Account Current Fort S^{t}. George is Credited with the Supply of Rupees sent them but not the 5000 Pagodas, tho' the Ballance of Cash is made out as if the Credit had been duely made.

3. . . We observe a Charge for Cooley paid on Cloth from Upparra Tooney &c^{a}. and Charges at that Settlement with M^{r}. Bochme's Pay for six Months amounting to Pagodas570—30 the particulars of which should have been transmitted.

4. . . There are many Entries in the Cash Account that would better appear in the Accounts of the Paymaster or the other Employs concern'd in the Transaction—such as Relisting Military.

Landing Ware & Stores . . . . . .
Freight for D^{o}. &c^{a}.

—— *FORT ST. GEORGE, AUGUST 1756* ——

5. . . We find no part of the Rupees which were taken out in lieu of Pagodas at the Exchange of 400 ℘ % Ps. as Represented in our last Report to have been replaced in Cash indeed they had no Pagodas remaining the last of April to purchase the Rupees with.

WAREHOUSEKEEPER'S & STOREKEEPER'S ACCOUNTS.

6. . . These Employs have sent their Accounts for March and April and the Ballances for April We find paid in Rupees at the Exchange of 315 ℘ % at which rate the Wares & Stores had been sold. The Accounts Remains of these Employs are likewise come up.

SEA AND RIVER CUSTOMER'S ACCOUNTS.

7. . . The Account for April is transmitted the Ballance is mention'd as paid the 30th. April but there is no Entry of it in the Cash Account.

8. . . There is also come up an Account Current of Dubs sign'd by the Chief, which shews the Number of Dubs issued to the Paymaster & the Military to be 295·350 but it never mentions the quantity coin'd or what remain on Ballance. We think the Warekeeper should have the Charge of these Dubs & keep the Account of them.

2DLY. INGERAM.

9 We have nothing to remark on the Accounts of this Factory except large Presents made in April to the amount of Pagodas 260. 4. 21.

3DLY. MADDAPOLLAM.

10 With Respect to which Settlement we have nothing more to observe than what we reported to Your Honour &ca. in our last. We are with Respect

By the Storehouse Journal We find the several Articles were paid for, but we cannot discover by whom as no correspondent Entry appears either in the Paymaster's or Military Storekeeper's Accounts.

5. . . The purchase of Stores are not inserted in the Diary, which should never be neglected nor even the mention of the Person of whom each Purchase is made. The Form which has been transmitted them from hence will We hope prevent further Omissions of this kind.

6. . . The Reasons for the Extravagance in the Adjutants draughts for Stores should be enquired into and all the unnecessary Supplies be prohibited in future. A regular Account of the Receipts Issues & Remains of such Stores should be produced monthly.

7. . . The Disbursements in this Employ being to a large Amount require the particular Attention of the Committee at St. David & it should be recommended to them to see the Madras form exactly followed in the Books of both Storehouses for the present Year.

To the Honble George Pigot Esqr.
President & Governour &ca. Council of
Fort St. George.

Honble Sir & Sirs

We have inspected the Accounts of Trichinopoly, Arcot & Chingalaput & Camp Disbursements for the Months of March and April.

The Accounts of Trichinopoly for December and January which were mislaid when we made our last Report of the Out Garrisons have been also examined. We observe the Disbursements at Trichinopoly are reduced in the month of April by 10,000 Rupees occasion'd by a less number of Seapoys in pay there than before.

As it is impossible for Us to judge of the Justness of the several Charges at the Out Garrisons for the Reasons alledged in our last Report We can only inform your Honour &ca. that the Calculations & Additions in their Accounts are right, with respect to the Camp Disbursements. We have nothing to remark to you.

To the Honble George Pigot Esqr.
President & Governour &ca. Council of
Fort St. George.

Honble Sir & Sirs

We have examined the Accounts of the Committee of Works from Primo May 1754 to Ultimo April 1756 consisting of the following Books.

Account Current in which each Person concern'd in providing Bricks Chunam or Firewood has a head.

Book of Monthly Receipts of Brick & Chunam.

Monthly Expence of Do. on the Works.

Monthly Sale of Do. to the Inhabitants.

Book of Committees Account Current with the Honble Compy.

Account Current of Bricks Chunam & Firewood.

Account of Profit & Loss on Do.

Cash Book.

These might all be comprized in a regular Journal & Leidger with less labour & more Perspicuity. The Committee should open a head of Brick Kilns and carry from thence to their respective heads the several kinds of Bricks at a proper valuation. The present Remains of Bricks consisting of various kinds, not having been valued in this manner prevents a clear Insight whether Our Honble Masters have gain'd or lost by taking the Branch of Brick making into their hands.

No. 109 From Thomas Hodges Esqr. Chief &ca. Factors at Tellicherry dated the 11th. July acknowledging the Receit of our Letter of the 12th. May and acquainting Us that on the 21st. of the preceeding Month at Midnight, the 3d. King of Nelleaseram had taken a Fort from the French called Mollaly which is situated a few Leagues to the Northward of them & maintained the Communication of the Forts of Ramdelly & Nelleaseram which are adjacent thereto & are Part of the Possessions the French acquired from the late Troubles in which Tellicherry was involved with the Prince of Cherica. That this Loss has alarm'd the French so greatly that they have been obliged to apply to several of the Powers in that Country for Assistance and tho' they have had a supply of a thousand Men from the Prince of Cherica it is much doubted if they will be able to maintain their Possessions to the Northward untill a Reinforcement can arrive from this side.

The Book of Standing Orders lying on the Table.

The President acquaints the Board that he had summon'd them to Communicate the Contents of a Letter receiv'd last Night from Messrs. Watts & Collet advising of the loss of Fort William which Letter is now read as follows.

To the Honble George Pigot Esqr.
President & Governour of Fort St. George
&ca. Council.

Honble Sir & Sirs

It is with the utmost concern We now inform you that Fort William was taken by the Moors the 20th. Ultimo the rise of these troubles are as follows.

The Nabob under various pretence sent a Guard upon our Factory at Cossimbuzar to stop Our business as is Customary in this Country when they have any demand on the Europeans and daily increased the Force till the Factory was surrounded by His whole Army which by the most moderate Computation consisted of about 10,000 Horse 20,000 Rageput Gun Men and a large Train of Artillery and then demanded Mr. Watts to go out and see him the Nabob's Duan who commanded the Van of the Army writing Mr. Watts a Letter that He might go out with great safety that no Harm should happen and that He would introduce him to the Nabob upon this. We thought proper to send the Surgeon of the Factory to the Duan and he gave him the same assurances: and sent him back with a considerable Person & a present of Beetle (which is esteem'd a Pledge of Faith) to accompany the Chief to the Nabob accordingly agreeable to the Unanimous opinion of the Gentlemen of the Factory and Officer of the Garrison the Chief went and was introduced to the Nabob who immediately Order'd Him into Confinement and insisted on His giving an Obligation that in Fifteen Days time the Gentlemen of Calcutta should Level what new Works they had raised deliver up the Nabobs Tenants who had fled for Protection there and that if it could be proved that We had Falsified the Companys Dustucks by giving them to those that had no right to them. We should pay back what the Government had suffered by Loss of Duties the Chief being in their hands was obliged to sign this they then told Him that His signing was of no consequence without the rest of the Council accordingly upon the Surgeons returning to the Factory and acquainting Messrs. Collet & Batson that it was necessary they should go to the Chief in order to make an End of the Affair they went and were detain'd Prisoners nothing more being said about the Obligation the Chief had signed (the Chief solemnly Asserts that He told the Surgeon to let Messrs. Collet & Batson know He did not think it advisable for them to quit the Factory) the next Day We were order'd to deliver up Our Cannon & Ammunition which We complied with in hopes entirely to pacify the Nabob, the Army then drew off from the Factory. Mr. Batson was sent back to the Factory & Messrs. Watts & Collet kept Prisoners in the Camp which

then bent its March towards Calcutta. We have since heard All the Godowns at Cossimbuzar were seal'd up with the Nabobs Seal and the Soldiers remaining in the Factory carried Prisoners to Muxadavad.

As the Chiefs going out of the Factory may perhaps appear extraordinary We think it necessary to give Our Reason for taking such a step it has been always Customary in Bengal for the Chiefs of the Subordinates to Visit the Nabobs of the Province and We had great reason to believe that on paying this Visit We should be able to accommodate matters and prevent His March to Calcutta. If We had refused Our Factory must inevitably have fallen into their hands with all the Companys Effects Outstanding in Bengall. Our Garrison being in no condition to make a defence against so large a Force Our Factory being surrounded on three sides by Houses which Overlooked our Bastians & some not Thirty Yards from the Bastian most of Our Guns were Honey Combed & carriages Rotten though We had repeatedly Indented to Calcutta for new Ones. Our Garrison consisted of about 50 Soldiers most of which were Black Portugueze We had about 80 Maunds of Powder but few or no shot or Granades. We might possibly with this Force have held out 3 or 4 Days which would not have prevented the consequence that have since happened and We undoubtedly should have been Blamed for having commenced a War with the Government and We are very sensible had the Gentlemen of Calcutta thought proper to Treat Affairs might have been accommodated even when the Nabob was on his March.

We can give no certain Account how Calcutta was taken. We being then Prisoners in the Camp but We have since heard the Governour Commandant and several other Gentlemen of the Council with part of the Garrison quitted the Fort and retired on Board their Ships which flung the rest into Panick and Confusion, which occasion'd the Fort to be Surrender'd to the Moors. We hear Mr. Holwell was taken Prisoner in the Fort and is in Irons. We have no certain News of the Fate of the other Subordinates but it is reported they are Plunder'd. Most of the Companys Servants that remain'd when the Governour &c^{a}. went away were either killed or have since Died by ill Usage.

We shall address your Honour &c^{a}. again when We can do it with more certainty.

We were releas'd about four days ago & Agreeable to our desire were deliver'd to the care of the French who has the Nabobs Orders to send Us safe to Madras inclosed is a Copy of a Letter from the Nabob to the director of Chandenagore as also One to the Governour of Fort S^{t}. George. The Civilitys that We and all the English have receiv'd from this Settlement requires the greatest Acknowledgments lest any false reports should reach Your Honour &c^{a}. We can assure you that to the best of Our Knowledge the French have given no Assistance to the Country Government but have suffer'd greatly themselves having been obliged to Pay 400,000 Rupees & the Dutch as much or more.

We beg the favour of your Honour &c^{a}. to represent to Our Honble Masters Our distressed situation by the first conveyance and We hope from their Candour that the part We have acted will not be disapproved of As We are conscious to Ourselves that had the Governour & Council made any Proposals to the Government Affairs might have been accommodated. Fort William subsisted and their Effects at the Subordinates and the Arungo safe but by all Accounts they were as averse to any Terms of Peace as they were incapable of War.

We are with Respect
HONBLE SIR & SIRS
Your most Obedient humble Servants,

WM. WATTS.
M. COLLET.

CHANDENAGORE,
THE 2D. JULY 1756.

—FORT ST. GEORGE, AUGUST 1756—

The President also lays before the Board the Translation of the Copys of two Letters one from the Nabob of Bengal to him, the Original whereof is Committed to the care of Mr. Watts, the other from the Nabob of Bengal to the French Director at Chandernagore, which are as follow.

A COPY OF A* PERWANA (OR LETTER) FROM NABOB MANSOOREL MULOCK SERAJAH DOWLAH BAHADUR HAYABET JUNG TO THE GOMASTA OF THE ENGLISH OF THE KOATEY OR TRADING HOUSE AT MADRAS.

DIRECTORE PIGOT, of high and great Rank and greatest of the Merchants, May you be Possessor of the Patcha's Favour.

It was not my intention to remove the mercantile business of the Company belonging to you from out of the Subah of Bengal. But Roger Drake your Gomastah was a very wicked and unruly man and began to give protection to Persons (who had accounts with the Patcha) in his Koatey. Notwithstanding all my admonitions, yet he did not disist from his shameless Actions. Why should these People who come to Transact the Mercantile Affairs of the Company be doers of such Actions? however that Shameless man has met with the desert of his actions and was expelled this Subah. I gave leave to Mr. Watts who is a helpless poor and innocent Man to go to you. As I esteem'd you to be a Substantial Person belonging to the Company I have wrote these Circumstances of his Shameless and wicked Proceedings. Dated the 1st. of Moon Shaval in the 3d. Year of the Mogulls reign which is the 30th. of June 1756.

A COPY OF A PERVANA (OR) LETTER FROM NABOB MANSOOREL MULOCK SERAJET DOWLAH BAHAUDER.

Great Merchant and Man of Friendship Monsr. Renaud Director General of the French Company, Be happy

I have sent Mr. Watts an Englishman and Gomasta at Cossimbuzar to you with a Letter to Mr. Pigot commanding in the Koatey (or Trading house) at Madras, a Copy of which Letter is enclosed. You must therefore send for the said Mr. Watt's Family who were committed to the charge of the Gomasta at Sydabad and send him away with his Family to Mr. Pigot at Madras, see them arrived and send for Mr. Watt's receipt with an answer to my Letter and forward them to me who am welwisher of the People Dated the 29th. of Moon Ramadan in the 3d. Year of the Mogulls Reign which is the 28th. of June 1756.

The Great Importance of the Settlement of Calcutta to the Company, appears in such a light to the Board that they are thoroughly satisfied the utmost Efforts should be made to recover it. It is AGREED therefore to Consult Mr. Watson on this Occasion as it is the Opinion of the Board the Squadron, or part may render great Services at this time, and in Consequence of this Resolution it is AGREED to suspend the Embarkation of the Troops as settled in Consultation the 14th. Inst. untill further Measures have been concerted with Mr. Watson.

WEDNESDAY THE 18TH.

George Pigot Esq^{R}. Govern^{R}. President.
Stringer Lawrence. Henry Powney.
Robert Orme. William Perceval.
John Smith. Charles Bourchier.

Charles Watson Esq^{r}. Rear Admiral of the Red and Commander in Chief of His Majesty's Squadron in India And George Pocock Esq^{r}. Rear Admiral of the White also Present at the request of the Board.

The Letter from Mess^{rs}. Watts and Collet read and enter'd on the Minutes of yesterdays Consultation being again read, The Admirals are made acquainted with the great Importance of the Settlement of Calcutta lately lost, and that the Board are of Opinion should it not be recover'd it will be of the utmost ill consequence to the Companys Affairs if not their entire ruin. That the Board Judge the Appearance of the Squadron in the River of Bengal will be a great Inducement to the Nabob to come to terms and restore the Settlement. On the other hand should he refuse the offers that might be made him on to his Occasion that the fifty Gun Ship proceeding up the River might in a very few hours (from the description of the Factory) oblige the Moors to quit that and the Town. M^{r}. Watson, hereupon assured the Board that he is ready and willing at all time to do every thing in his Power for the Service of the Company but considering the State of Affairs in Europe it appear'd quite necessary his Squadron should not be divided, and yet from the Accounts he had had of Bengall River he saw great danger in attempting to carry the two if not the three largest Ships up to Town that he saw not what Service they could be of unless they proceeded so high, but that if the Board were to give it him as their Opinion that it would be necessary to employ the whole Squadron on this Occasion he would run all Risques to serve the Company. That the Board would further Consider of it, and that he would immediately give Orders for getting all the Ships in readiness whether the whole Squadron might be thought necessary to be employed or not; And then, with M^{r}. Pocock withdrew.

The Board taking into Consideration what had been urged as above by M^{r}. Watson, are of Opinion that when the fifty Gun Ship might be sufficient to drive the Moors out of Calcutta but as the possession of that place only, without being in a condition to carry on a Trade as usual would be of no use to the Company, and that the Appearance of the whole Squadron might induce the Nabob to enter into terms of Accommodation. It is the unanimous Opinion of the Board to apply to Admiral Watson for the whole Squadron to which it is resolved to add all the Land Forces that can be spared. The President on this occasion offering his Services to accompany the Squadron should they proceed, the Board express the highest Sentiments of His willingness to exert himself in this distinguished manner and hope it will appear in the same light to the Company. The Board are of Opinion that the presence of the President or that of Colonel Clive will be necessary as well to Advise with M^{r}. Watson as to Negociate with the Nabob for resettling the Factory in a regular manner, and will in a future deliberation take into Consideration whom of M^{r}. Pigot or M^{r}. Clive, they shall request to undertake this Expedition, in the meantime. Order'd that M^{r}. Clive do repair to Fort S^{t}. George, and that the Admiral be address'd to send the whole Squadron in Conformity to the above Resolution. A Draught of a Letter is accordingly now settled and is as follows.

State of affairs at Bengal laid open.

Letter from the Board to Rear Admiral Watson dated Yesterday.

And the whole Circumstances of the Companys Affairs at Bengall and all the Measures that have hitherto been taken being fully laid open to him. The President then laid before the Board the following Letter from Admiral Watson.

GENTLEMEN

Letter from Admiral Watson.

I have receiv'd your Letter of the 18th. Instant and am much concern'd to find the Companys Affairs in so bad a situation at Bengal, I shall very readily give them all the assistance in my power and will proceed with the whole Squadron as far as Ballisore Road, where I shall be able to consult the Pilots on the Practability of carrying the Ships up to Calcutta, and if there is a possibility of my getting there, I shall with the utmost chearfullness put every thing in execution that can be proposed for their Service.

The time of my Sailing wholly depends on you, as the Ships can't proceed to Sea till their Provisions and Water is compleated, which will take up a considerable time, if some better method is not pursued in the management of the Boats, than is now followed.

As I propose sending a Frigate before me, in order to have the Pilots ready at Ballisore Road at my Arrival If you have any Troops or Stores, you would send by her I will give the Captain Orders accordingly.

Military to be sent to Bengal Considered.

The Board taking into Consideration the Number of Military necessary to be sent on this Expedition are of Opinion that two hundred Military and Forty of the Train may be spared upon so extraordinary and Interesting an Occasion as the present, these being added to the Number of Two hundred and Sixty four Rank & file of His Majesty's Troops (which Colonel Adlercron informs the Council are now on Board the Squadron) will, the Board are of Opinion, form a Body sufficient for the intended Service especially should they be so fortunate as to Join the Party of Two hundred Men and upwards sent on the Delawar which however is not depended on. It is therefore RESOLVED that two hundred Rank and File of the Companys Troops with Forty Men of the Train be draughted accordingly for this Expedition.

The following is an abstract from my Journal from the time I took my Departure from Cape Le. Gullas, till the Time I got on board the Caernarvon.

July 6th. 1756 took a fresh Departure from Cape Le. Gullas, and sail'd to the Eastward from 36.00 So. Latitude to 35.00 till I made 12.45 difference of Longitude and on the 16th. Instant was in the Latitude of 35·00 So. by a good Observation at which time the Captain order'd the Course to be alter'd from Et. to E.N.E. and a quarter before 1 O'Clock A.M. the 17th. the Ship struck and in less than 20 Minutes was entirely wreck'd 23 men only escaping with Life to the Shore, who are the following Persons Vizt.

As soon as day light appear'd discover'd ourselves to be on a barren Rock 2 Leagues from the Main, and as I found afterwards lies in the Latitude of
o. m.
34·00 S°. by a good observation with Hadly's Quadrant, and to the E^{t}.ward of Bay De. Algona 8 or 9 Leagues.

The first day after our deliverance on this Rock I thought of nothing else but making a Raft to carry us to the main as soon as those that were cut by the Rocks would be able to Travel; which I judged would be a Month at least; Therefore went in search of Provisions to subsist on for that time.

In looking about the Wreck found a Chest of Treasure with the Hoñble Companys mark on it N°. 5 ± A which came on shore on part of the Ships Transome. The same day found the King & Hoñble Companys Packets which got up and open'd the Papers to dry immediately tho' at that time must own had no reason for doing so; however upon Consulting M^{r}. Collet what must be done with them it occurred to me that it would not be impossible to build a Boat out of the Wreck if Providence should direct us to find some Tools.

The next day found an Adez, also a Chisel & 3 Sword Blades, which the Carpenter made saws off with those we began our Boat, tho' not without hopes of making orders; one of the People promising great things in the Smiths way, and perform'd so well that he made every tool the Carpenter wanted.

On the 4th. day found a Box of wrought Plate which was no sooner got into safety than the People wanted to share it together with the Treasure. All seem'd to be resolved on it Excepting M^{r}. Collet, Webb, Yeats, & M^{r}. Dowell, which All refused and from that time were used excessively Ill, and at one time their Resentment carried 'em so far that they proposed murdering us, and would certainly have done it, had John King gave his consent, but his refusing, put a stop to their Villainous designs in that respect, tho' not in others; for about the same time the Chest of Treasure was broke open and 600 Pounds taken out by Richard Topping, Samuel Powell, Nathaniel Chisholm, John King, Robert Beazly & John Leaster.

I entreated them to return it again, but to no purpose & I saw nothing of it till 3 days before the Boat was Launched when it was produced and shared with the Plate.

February 18th. 1756 took leave of our Rock, and Sail'd to the Northward with an intention to touch at River S^{t}. Lucia, but meeting with a very strong Current setting to the S°. ward was much longer getting there than I expected we should, and before we got that length we put into a Barr Harbour to the S°. ward of River S^{t}. Lucia, where we were used excessively civil by the Natives, who supply'd us with every thing we wanted, for brass Buttons. As we were afterwards in River S^{t}. Lucia, in coming out 9 of the People left us not willing to venture over the Bar, which I must own look'd very terrible; notwithstanding we that remain'd on board were obliged to go over the Bar or suffer the Boat to be lost; for those who went on shore let go the Grapnol close to the Breakers at high Water; so that by the Time it would have fallen a foot she would have grounded; therefore as soon as the small boat return'd from putting them on shore we weigh'd the Grapnol again and put for the Bar; we were in the Breakers half an hour; at length got safe over, and in two days got to Dellago, where We found riding the Rose Galley from Bombay Commanded by Edward

Chandler. I thought this a good opportunity to get the Treasure and Plate again; therefore apply'd to Captain Chandler to assist me, who comply'd with my request by sending his Boat & Mate with me on board the Sloop; We soon got what we went for and return'd on board the Rose Galley, where I continued till I arrived at Morandava two days after our arrival there Captain Hutchinson in the Caernarvon Join'd us, who favour'd me with a Passage to this Place.

AT A CONSULTATION

Present

FRIDAY THE 20TH. GEORGE PIGOT ESQR. GOVERNR. PRESIDENT.

STRINGR. LAWRENCE. HENRY POWNEY.
ROBERT ORME. WILLIAM PERCEVAL.
JOHN SMITH. CHARLES BOURCHIER.

The President lays before the Board a Letter from Admiral Watson addressed to him dated this day which is read and is as follows.

SIR

Letter from Admi. Watson.

In my Letter to you and the Council of Yesterday's date, I acquainted you, I would so far comply with the request you had made me, as to go with the whole Squadron as far as Ballasore Road. and there consult with the Pilots of the

possibility of my getting to Calcutta. You must be assured my consent could not arise from any other motive than the desire I have of doing very thing in my Power for the Interest of the Company, and it's from that consideration, I beg leave to offer it as my opinion, You should call the Gentlemen of the Council together again and reconsider this matter.

In their debate, it is necessary they should observe, and pay some regard to the great probability of the news of a French War, by the arrival of the next Ship from Europe, and the intelligence of a French Squadron being expected here, which but a little time past was generally believ'd and I have heard nothing since to make it less probable now, than it was then. If it should be true, will not this Coast be left intirely defenceless all this season by the Squadron's attempting to go to Calcutta? and what more is to be feared from this step, and with great Reason to be expected, is that the Ships will be so late before they can proceed to Bombay (if at all) that they cannot be on this Coast again next Year till the middle or perhaps, later end of May, for it must be considered they have now been in India a considerable time, and want much repair particularly the Kent.

I would recommend this future Service which may be wanted from the Squadron, to your serious consideration, and then judge whether or no, a Parade only of the Squadron at Calcutta, can recompense for any misfortune that may happen to this Coast hereafter for want of the Ships being here in the proper Season. I mention a Parade only, because it is allow'd by every body, if hostilities are to be committed on the Nabob the Fifty and Twenty Gun Ship is as much force as is necessary to reduce and destroy every thing in the Nabob's Dominions they can come within reach of where then is the necessity of sending the whole Squadron? and thereby infallably depriving this Coast of all the assistance from them in the early months of next year, should there be ever so much occasion.

You may be assured SIR, I should be happy to have the Squadron employ'd where they could be of the most Service, and I have no other objection to going to Calcutta than this certain consequence attending it, which is, I shall not be able to bring the Squadron here at the time you may want them to assist you in opposing an Enemy, against whom it may be more necessary to guard, than to pursue the measures now proposed, as a less Force than requested, will certainly answer every purpose that can be expected from hostilities.

After all, if it should still be the opinion of the Council, that it is necessary for the whole Squadron to proceed to Calcutta. I'll use my utmost endeavours to carry them there but let it be remember'd, it is in my opinion an unnecessary step, and may be attended with the worst of Consequences.

I am with great Esteem

SIR

Your most Obedient humble Servant

CHARLES WATSON.

FORT ST GEORGE,
20 AUGUST 1756.

The Board at all times pay a Regard to Admiral Watson's Advice and Opinion, and tho' the Subject he recommends to their Attention had been thoroughly weigh'd before they made their last Request, yet it is now reconsidered and after being long debated the Board are of Opinion as follows. Consideration thereof.

The Principal Points taken Notice of by Admiral Watson are, the probability of a War with France. The Intelligence receiv'd and not since Contradicted of a French Squadron coming out, the Danger in such Case of the

——*FORT ST. GEORGE, AUGUST 1756*——

Squadron's leaving the Coast, and by their proceeding to the Bay render their return hither improbable before the month of May. The Board admit that on the Intelligence of a French Armament intended for these parts and the probability of a French War, they thought it adviseable to draw together all the Forces they could and to take every Measure that prudence sugested for the Security of the Settlements, even more perhaps than might be absolutely necessary and tho the Intelligence of a French Armament has not been Contradicted they consider that the Season is now so far advanced that it is scarcely probable the Seige of this Place or S^{t}. David would be attempted before the Monsoon. But should it happen otherwise the Board are of Opinion that Fort S^{t}. David has a sufficient Garrison and that the Forces they can draw together exclusive of those intended for the Bengal Expedition will be sufficient to defend this Settlement even should the Enemies Force be as formidable as is represented. The Squadrons not being able to return here till the Month of May in case of its proceeding on this Expedition the Board do also acknowledge to be of great Weight, but on the other hand they consider that if the whole Squadron should proceed to Ballasore Road and the large Ships not be able to get over the Braces they will be in as good time to proceed to Bombay from thence as they could be from hence, and it is not improbable but that should they be able to proceed up the River Affairs might be so far advanced by the end of October that the Capital Ships might proceed then to Bombay in which case the difference between the time of their Arrival there and what it would probably have been had they left this Coast at the usual time will not exceed three Weeks or a Month. But even should they not be able to return here till May the Board Judge that by the time an Enemy could take the Field in the Spring the Works now throwing up on the New Plan will be so far advanced as to be very tenable against an European Force. The Board do not mean by this to Place such Confidence in their Strength as to think lightly in any degree of the Protection of His Majesty's Squadron, but when they reflect on the immense Loss the Company has sustained in Bengal, the Danger of their total Ruin should their Commerce in that Province not be restored, The daring Insult offer'd to the English Nation in the Nabob's late violent Measures, and the despicable light they must even after be view'd in by the Natives should the National Honour not be retriev'd. Upon all these Considerations the Board are of Opinion that the most Exemplary Satisfaction should be taken which they judge will more than any thing contribute to restore the Company to their former Rights, and even put their Trade on a better footing perhaps than it has ever yet been, and tho' this might in some Measure be effected by one or two of the Ships yet the presence of the whole even tho' the Capital Ship should be inactive will its judged with the appearance of His Majesty's Flag strike a much deeper and more lasting Terror. It is therefore AGREED again to Address the Admiral to proceed with the whole Squadron provided he will suffer the Military now on Board the Ships to proceed up the River notwithstanding the Capital Ships should not be able to get up. A Draught of a Letter to Admiral Watson is accordingly now settled and is as follows.

TO CHARLES WATSON ESQ^{R}. REAR ADMIRAL OF THE RED AND COMMANDER IN CHIEF OF HIS MAJESTY'S SQUADRON IN INDIA.

SIR

Letter to Admi. Watson.

Our President has laid before Us Your Letter to him of this date.

Persuaded as We are from experience that Your Good Will is ever with Us in the support of the English India Company's Affairs We accept the Remonstrances made in that Letter as a farther proof of this your Disposition

——*FORT ST. GEORGE, AUGUST 1756* ——

What we should have done before your Departure We now anticipated in laying before You our full sense of the late Calamity at Bengal the fatal Consequences it may, we fear will, produce, and the Resolutions to be taken by Us will be nothing more than the result of these Reflections.

It is necessary to mount a little higher than the present Times, that you may be entirely a Master of this Subject.

An Embassy deputed by the East India Company to Delhi about Forty Years ago obtain'd from the Great Mogul at more than the Expence of One hundred thouand Pound (£ 100,000) the Rights and Priviledges which their Settlements have hitherto enjoy'd in Indostan they obtained for the Presidency of Bengall infinitely more than the Violence of the Subah of that Province permitted them to possess themselves of Regardless of the Kings Mandate, he prevented them from possessing Nine Tenths of the Lands which had been granted.

What remain'd was sufficient for that Establishment of a flourishing Colony. Calcutta by it's Investment has been hitherto, notwithstanding all the Interruptions of the Nabobs the most Beneficial part of the Company's Estate.

The Space of three years together has seldom pass'd without demands of Money made by the Nabob upon the English under groundless Pretences. The State of the Companys Investment laying in the reach of the Government and out of the Reach of the Presidency, has generally induced the English to submit to pay some Consideration in Money, in order to prevent greater detriment to the Companys Affairs. The late Nabob, Grand Father to the present, several times obliged the English to these Concessions.

Some such pretences groundless We believe the present Nabob, made use of in order to sanctify the Violence of his late Proceeding. He tells Our President Mr. Pigot in a Letter, that it was not his Intention to extirpate the English from his Subah. Intentions are best seen by Facts. The Wealth of Calcutta was his Aim and to the vast Misfortune of our Nation he has possess'd himself of it. We are advised just now by Private Letters that he has plunder'd all the Effects of the Colony to whomsoever belonging.

To this immense Loss and Detriment has been added Circumstances which will weigh equally in the Opinion of the Nation. Cruelties & Barbarities inflicted on the Subjects of great Britain, which have ended in the Death of many Gentlemen of Consideration there, the Survivors drove to their Vessells and interdicted by his Ban from receiving any kind of succour from his Subjects.

We refer to You Sir how much the Honour of the English Nation is concern'd in these most violent Breaches of Faith and of Humanity. We submit to You Sir to determine whether Exemplary Reparation is not necessary.

On these Sentiments we made our first Application to you, the taking Satisfaction in the most Exemplary manner will in our Opinion be the quickest means of re-establishing the English in the Province of Bengal and even on better terms than they have hitherto obtain'd.

The appearance of a Flag will add weight to the Terms that may at last be made and the greater our Force in Bengal, the more immediately will the Reparation of our Injuries be in our own hands.

On the contrary should nothing of this kind succeed We tremble for the Consequences which will befall the Company.

We are obliged for your representations of our Situation here. We have seriously reflected on the Subject. We shall leave ourselves with a Garrison sufficient for our Ground and with the Rise of our Fortifications cannot say, that We fear even an Enemy Powerfull as has been represented to us from Europe.

——*FORT ST. GEORGE, AUGUST 1756*——

We cannot from the above find any Reasons for altering the Request which we did ourselves the Honour to present to You, for sending the whole Squadron to Bengall. We must add that as we shall send only Two hundred Rank and File of our Troops We depend on your suffering those on Board the Squadron to proceed up the River notwithstanding you should find it impracticable to carry up the largest of the Ships.

Message from Colonel Adlercron.

The President lays before the Board a Message he receiv'd in Writing yesterday from Colonel Adlercron which is read and is as follows.

" COLONEL ADLERCRON from the constant behaviour of the Gentlemen in " the Administration of the Company's Affairs on the Coast, has had no reason " to expect any extraordinary degree of complaisance would be shewn to him: " and therefore, if it regarded him only personally, would have been very " indifferent about it but in Consideration of the Character which he bears in " this part of the world from His Majesty, the Colonel thinks himself indis- " pensably obliged to represent to Mr. Pigot, that he looks upon the present " Conduct with respect to him as the highest indignity to the Commission he " has the honor of holding here, and that he is convinced it must appear very " extraordinary to every unprejudiced person, that a matter of so great moment " to the Company as the taking of Calcutta, and which in its own consequences " may probably affect the Kings Troops, should not yet be communicated to him " by any other Channel than that of common report. He is the more obliged to " take notice of it, as every Officer of His Majesty's Forces under his Command " expresses the greatest resentment that so notorious a slight should be shewn " to him, in so much that the Colonel is under the necessity of making known " to His Majesty by the first opportunity this fresh insult in addition to the " many others he has heretofore receiv'd.

JNO. ADLERCRON.

FORT ST. GEORGE,
AUGT. 19. 1756.

SIR

As the above written message which I sent you this morning by my Secretary must be inserted in the Journal I am directed by His Majesty to keep I think in justice to you, I ought to desire the favour of your Answer thereto.

I am

SIR

JNO. ADLERCRON.

——*FORT ST. GEORGE, AUGUST 1756* ——

To GEORGE PIGOT ESQR. &CA.

The President acquaints the Board that he did not communicate to Colonel Adlercron in form the Advices of the loss of Calcutta immediately on the Receit of them because no Measures could be taken with respect to the Land Forces untill the Operations of the Squadron were adjusted but that as soon as he receiv'd Admiral Watson's Answer of the 19th. Instant he waited on Colonel Adlercron himself acquainted him with every thing that had passed and desired his presence at the Consultation which was held Yesterday. Considered.

Tho the foregoing Message is addressed to the President only it is AGREED to Answer it from the Board in the following manner.

To JOHN ADLERCRON ESQR. COMMANDER IN CHIEF OF THE LAND FORCES IN INDIA. Letter to Adlercron in Answer.

SIR

The President has Communicated to the Board a Message he receiv'd from you in writing yesterday complaining of Indignitys and Insults Offer'd to your Commission and of a great want of Complaisance in Us who are concern'd in the Administration of the Company' Affairs. This is an Accusation of such an extraordinary Nature that the General terms you have been pleas'd to represent it in, oblige Us to call upon you to explain yourself in every particular both under your own hand and such of your Officer's as think themselves aggriev'd by our Conduct.

The particular Instance you mention of an Indignity offer'd to your Commission the President has convinced Us is ill founded. No steps had been or could be taken with Respect to the Land Forces untill some points had been settled with Admiral Watson relating to the Squadron, And the hour the President receiv'd Mr. Watson's Letter acquainting him that the Squadron might proceed to Bengal on the Companys Service he himself waited on you with that Letter and acquainted you with all the Intelligence he had receiv'd even before he had communicated Mr. Watson's Resolution to any one of his Council, any application previous to this would have been premature.

It is surprising to Us that at a time, when, more than any, the utmost unanimity and good Will in every Subject of Great Britain is necessary to support the Interests of the East India Company, which we will venture to Call the Interests of the Nation We say We are surprised at such a time to see such Altercations set on foot.

&c^{a}. Council of Fort S^{t}. George.

Gentlemen

As I am well convinced it will not be agreeable to His Majesty, that the Regiment under my Command, should be so much divided, as it is likely to be by the Expedition now in agitation for Bengal, I think it my duty to lay the same before you; and therefore to desire that as many as possible of His Majesty's Troops may be employ'd upon this Service, but in case instead of doing us that honour, you should prefer making use of the Company's Troops upon this occasion, I must then beg the favor, Gentlemen that you would join me in an application to the Admiral, that the Detachment of my Regiment now on board the Squadron, may be reliev'd by an equal number of your own forces.

I am
Gentlemen
Your most obedient humble Servant

COUNCIL OF FORT ST. GEORGE.

HONBLE SIR & SIRS

Since our last We have receiv'd a Letter from the Gentlemen on Board of the Ships at Fulta Copy of which We enclose as also Copy of a Letter they desire to be translated into Persian and sent to the several Great Men about the Nabob for Permission to re-establish the Settlement.

We must beg leave to Observe to your Honour &ca. that We wrote to the Governour & Council of Calcutta when We were at Houghly (which was the first opportunity We had) that if they would send a proper Person or Empower Us We flatter'd ourselves that We should be able even to Accommodate Matters for a sum of Money. We are not certain but are informed that that Letter was receiv'd and an Answer wrote Importing that after the affront the Nabob had given of Sealing up the Company's Effects and confining their Servants at Cossimbuzar they could not think of coming to any Terms of Accommodation. We are inform'd likewise by Cossenaut One of the Companys Banyans that Omichund and some of the Principal Merchants offer'd to contribute considerably towards making Up Affairs. Coja Wazeed the greatest Merchant in Bengal who

resides at Houghly and has great influence with the Nabob His Duan told Us that He went Four times to Calcutta in Order to pursuade the Gentlemen to make up matters with the Nabob but was Threatened to be Ill used if he came again on the same errand.

We shall do all in Power to get permission to re-establish the Settlement but are without any hopes of obtaining it during the Life of the present Nabob. We therefore know of no other method but that of a Military Force which We hope Your Honour &c^{a}. will be able to send sufficient to Attack the Nabob even in his Metropolis As We Hear a Peace is confirm'd with France.

There are 79 of our Sergeants Soldiers and others in the Hospital here who escaped from Calcutta and are provided with Provisions & Cloaths by the French Governour & Council Who have been extreamly Humane to Us All and now maintain by Charity near 3000 Poor Portugueze Men Women & Children who were Inhabitants of Calcutta.

Relying on your Favour & Friendship for the English Nation, We take the liberty of addressing this Letter to you and intreat the Honour of Your Aid & Assistance in Our present Situation. We hope by your means to be inform'd in what manner We may address the Nabob for his Permission to re-establish Our Settlement at Calcutta.

To whom can We apply in Our present Circumstance but to those from whom We have receiv'd many marks of Favour and Protection & on whom We still depend.

Having no Munsee with Us, We are obliged to Address you in English, & hope Sir you'll for that reason excuse any defect in Our Stile or Omission of the due forms of respect. What can We say more? but that We hope much from your Aid and Favourable Representation of the English to the Nabob.

Dated on Board Ship Doddaly of Fulta,

Letter from Admiral Watson dated the 21st. Instant read as follows.

Letter from Adml. Watson.

Gentlemen

I receiv'd your Letter of yesterday's date, late last Evening, and from the facts therein mention'd I concur with you in opinion, that the Nabob has been guilty of the most violent Breaches of Faith and Humanity on the Subjects of Great Britain; I therefore agree with you, that Ample satisfaction ought to be demanded for the insults and Barbarities lately committed on the Gentlemen at Calcutta and am very ready as I acquainted you before, to go with the whole Squadron to that place, if there is a possibility of carrying them there, and doing every thing in my Power to re-establish the Settlement, and accommodate matters to the honour of our Nation, and the Interest of the East India Company. But before I proceeded, I thought it was my duty to represent to you, the situation you must be in on this Coast, in consequence of the Squadron's going to Bengal, however as you are of opinion the being left entirely destitute, in case of a French War, and without expectation of any assistance from the Squadron for a considerable time, is a circumstance now, not to be regarded, but that it should be entirely given up for the sake of the Squadron's attempting to go to Bengall, I shall immediately proceed to Ballasore Road as soon as the Ships are

compleated with Provisions and Water, and as the dispatch of this entirely depends on you, I hope you will give directions for a sufficient number of Boats to be employ'd on this Service.

I shall give the necessary Orders to receive the number of Troops you propose sending, but I must beg leave to observe the request you have made, in case the large Ships cannot proceed up the River, is of such a nature, that I cannot by any means comply with it, for you must consider how very short of the proper number of Men the Squadron is already, by those left sick at S^{t}. Davids and must also be left here. This deficiency I am afraid will so far put it out of my power to part with any of the Troops now on board, that I shall be under a necessity of applying for a reinforcement of Men for the Service of the Squadron for you must imagine if the largest of the Ships can get no farther than Ballisore Road for their safety, the honour of His Majesty's Flag, and for the sake of my own reputation, I can never think of suffering the Men to be sent from them. Is it not very probable if the French Squadron should arrive here, which you have reason to expect that they having intelligence where I am gone to, will, under the presumption of the largest Ships not being able to get higher than Ballisore Road, come there in search of me? how then should I be able to defend His Majesty's Ships without Men? would they not become an easy capture to the French, and thereby contribute to heap Ruin on your Affairs instead of being of any Service?

I believe when you had this Article under your consideration, you was not acquainted that two hundred Men will be left at the two Hospitals, add to this one hundred and fifty Lascars sent ashore for the Service of the Garrison at Fort St. David, when I left that place, and the certainty of soon having a number of Men sick for want of Refreshments while in Ballasore Road. All these Considerable Reductions render the Squadron already unable to do the duty they ought, and what would be expected from them.

In this situation I leave you to judge whether the complying with your request, in sending the Troops from the largest of the Ships while in Ballisore Road, would not expose them too much, to have any dependance on them hereafter in case an Enemy should appear.

As I have already assur'd you my whole attention is employed to promote the interest of the Company, I need not repeat its' from that consideration. I think this would be a very imprudent step and risquing the Principal Ships of the Squadron, when there is the greatest probability of your wanting their real assistance on another Service, as I have mention'd before.

I am

Your most Obedient humble Serv^{t}.

To George Pigot Esq^r^. President and Governour
&c^a^. Council of Fort S^t^. George.

Gentlemen

Both myself and every Officer under my Command have more than once thought themselves greatly aggriev'd by your Conduct towards them; however, to prevent altercations, (which at this unhappy conjuncture are indeed very unreasonable) we think it more adviseable to lay our grievances before His Majesty and submit to his determination, whether or no complaints are well founded. We have the more reason for taking such a step, as I have made frequent representations to the Committee of the nature of these grievances without ever having the good fortune to meet with any redress.

I cannot help observing, Gentlemen that you have greatly mistaken the occasion of the message in writing I sent to the Governor the 19^th^. Instant had you well consider'd it, you could never have been convinced, that the particular Instance I mention'd of an Indignity offer'd to my Commission was ill founded. It is matter of fact, that the taking of Calcutta tho a matter of great moment to the Company and such as was likely in its consequences to affect the King's Troops, was not communicated to me till the third day after the advice thereof was receiv'd: now whether such treatment were injurious, and an Indignity offer'd to His Majesty through me, I leave to the World to Judge.

I shall only further add Gentlemen that myself, and all His Majesty's Troops, will with the utmost chearfullness exert ourselves in support of the Interests of the East India Company however ill we may have been treated by their Servants and will forget all our grievances, whenever any occasion offers wherein we can be of Service to You.

Sir

We have receiv'd your Letter of the 21st. Instant and observe the several reasons you give why you Judge it would be improper to send the large Ships to Bengal, And as you are pleas'd to acquaint Us that should you proceed no further than Ballasore you could not possibly land the part of the Regiment on board them. In such case We think it would be better they should not proceed as it would weaken our Garrison here too much to continue them on board and send a Sufficient Force to Bengal. We however think the retaking this so valuable a Settlement of the Companys should not be put to the Hazard this Expedition would be Subject to if Undertaken by one Ship only, And are therefore to request that you will permit the Tyger and Salisbury to proceed.

The President lays before the Board a Letter from Admiral Watson and acquaints them that in Consequence of the last Paragraph he had desired both Mr. Watson & Mr. Pocock to be present this day at Consultation at 11'o Clock. The letter from Admiral Watson is now read and is as follows Vizt.

Letter from Admiral Watson.

GENTLEMEN

I receiv'd yours of yesterdays date requesting me to permit the Tyger and Salisbury to proceed to Calcutta.

I have already acquainted you, if you were still of opinion, the whole Squadron should proceed on this Service. I was ready to go with them to Ballasore, and there enquire of the possibility of carrying them farther. But I offer'd it as my opinion (which was founded on the information I had learnt of the strength of the Place) that the fifty and Twenty Gun Ship would be as much force as there would be occasion for. If more is thought necessary I will send the Sloop with them, but I can never think of separating two Ships of the Line, from only four till some certain Advices arrive from Europe, And having further consider'd this expedition I am apt to think, if it is delay'd till the last week in next month there will be a much greater probability of Success attending it, than if the Ships were to proceed immediately as they will then escape the rainy Season which is allow'd by every body to be the most unhealthy part of the year, and in all appearance if the Ships were to go now, one third of their Men would fall Sick before there would be an opportunity to do any Service, however I take the liberty to mention, I think advices should be immediately dispatch'd to Mr. Drake to acquaint him he will soon receive all the Succour from hence that can be spared.

If from this consideration of the rainy Season, or any other that can be thought of, you think it necessary to assemble, and further debate on this Expedition I am ready to wait on you whenever you please.

GENTLEMEN

Considered.

As Admiral Watson does not think it adviseable to part with the Tyger & Salisbury, The Board employed the time untill the Admirals coming, in deliberating on the Measures to be now taken but without forming any Resolution.

Deliberation on Measures.

The Board reasumed the Consideration of the Measures to be taken in the present Crisis and having long debated thereon without being able to come to any determination Admiral Watson again assured the Board that if they desire him he will proceed with the whole Squadron as far as Ballasore Road and even up the River if the Pilots will take Charge of the large Ships; and then leaving the Board to determine what Request to make him on this occasion withdrew with Admiral Pocock.

Admiral Withdraws.

Resolved to ask for the 50 & 20 Gun Ship.

After a long debate It is unanimously RESOLVED that Admiral Watson be desired to send the Fifty and Twenty Gun Ships down to Bengal with about two hundred and forty Military with the Intent to retake Calcutta only without attempting any thing more untill Join'd by further Succours, And that all necessary preparations be made as expeditiously as possible to send all the Forces that can be spared from hence with the remainder of the Squadron, if in the interim the expected Advices from Europe should not make it necessary to alter these Measures. Draught of a Letter to Admiral Watson is accordingly now settled and is as follows.

TO CHARLES WATSON ESQR. REAR ADMIRAL OF THE RED AND COMMANDER IN CHIEF OF HIS MAJESTY'S SQUADRON IN INDIA.

SIR

We have receiv'd your Letter of the 26th. and having also had the Honour of your Company at Council yesterday, We have resolv'd to request of you at this time the Assistance only of the Fifty and Twenty Gun Ships, We are therefore to beg you will permit Us to embark on them about Two hundred and Forty Military and that you will be pleas'd to order them to proceed with all Expedition to Bengall, as We judge the retaking of Calcutta immediately will be of the utmost Consequence to the Company And as You have repeatedly as well in your Letters as Yesterday at the Board offer'd to go down with the whole Squadron to Ballasore Road and even up the River if the Pilots will take Charge of the large Ships, We purpose making you our further Request to do so as soon as they can be got ready if no Advices from Europe in the Interim should make such a Measure improper.

The Board being met according to Adjournment to read the Letters receiv'd from Bengal and to consider of Measures, the following Letters are accordingly now read Vizt.

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CA. COUNCIL.

HONBLE SIR & SIRS

Our utmost Efforts have been employ'd to dispatch to You sooner the intelligence of the Capture of Calcutta by the Moors acting under orders of Souragge Dowlat the New Nabob which Account we doubt not will have reach'd You before this can possibly Arrive by means of Pattamars from the Shroffs or Foreign Nations. A Narrative of this unhappy Event, will be in Our Opinion faithfully Related to You by Mr. Charles Manningham which We have not Time to Commit at present to Writing. The above Gentlemen We depute to your Honour &ca. on the United East India Companys behalf, & require from his Representation that You will support Us with the whole Force you can Obtain on Your Coast Military & Marine together with a sufficient Quantity of Ammunition Cannon and all other Warlike Stores Military and Marine which may enable us to Re-Establish Ourselves in these Provinces, which we Esteem of the most Essential consequence to the East India Company and trade of India in General. It is highly proper to Represent to Your Honour &ca. that the English here were Established by Patent from the Grand Mogull under whose orders all Subahs should be dependant. But as Your Honour &ca. are well Acquainted that this Province was overcome by Allywerde Cawn, who maintain'd his Conquest by force of Arms, so it was possess'd by his Grandson who Assumed the Title of Souragge Dowlat, wherefore further to favour our cause and just Complaints for Restitution & Right to the Previledges granted us by the Royal Phirmaund, We are to Request you will without delay set forth to the Grand Mogul the Enormities committed by the present Nabob on a Nation that has always paid due Obedience to the Tenor of the Phirmaund nor Infringed on its Priviledges Requiring & entreating by his Authority to Re-establish us in all our Rights and that the loss sustain'd by the Company and Inhabitants of the Settlement may be made good. We are at present endeavouring to open a Correspondence with the Principal Men whom We are inform'd the Nabob Attends to in hopes to bring on a treaty untill we can obtain succour & that we may in some Measure be Reliev'd from our present Distress, being in the utmost want of all Necessaries of Life, & strict orders issued by the Government not to supply Us with any Provisions. The Dutch & French are also prohibited giving us any Assistance. Their Situation appears very precarious and we are told the French have wrote for a large Reinforcement from Pondicherry, Our determination is to keep the River untill we are inform'd of Your Honour &ca. Resolutions, and in case we are not able to procure any favour from the Government or should be persecuted by the Enemy so as to be obliged to stand out to Sea, we shall proceed to Vizagapatam this we think proper to mention as it may be necessary that the Ships in their way to the Bay call there for intelligence which we shall lodge there if we are able

to procure any Conveyance, for the Ingratitude of our immediate Servants has been such that we are drove to the necessity of doing every individual Office ourselves, nor have we been able to procure a Pattamar or a Persian writer, And it is with the utmost difficulty We have hitherto kept together a sufficient Number of Lascars to work our Ships and are daily apprehensive they will quit us on the first occasion. We have desired the Gentlemen at Vizagapatam to provide & hold in readiness what Provisions of every kind they are able to procure to be out on board the Vessels coming down hither, We request Your Honour &c^{a}. to represent a full state of all the Occurrences to Rear Admiral Watson the Commander in Chief of His Majesty's Squadron and entreat his aid and Assistance with the Fleet which we hope may be able to proceed hither.

Monsieur Le Bon (who had Command of one of our Advance Battaries & defended the same very Gallantly) Accompanys M^{r}. Manningham and will in case of Accident happening to M^{r}. Manningham deliver You these Advices, we Esteeming M^{r}. Le Bon Qualified to give you a Circumstantial Detail of our Military proceedings as also inform You of the various Stores we are in want of.

As we imagine the news of this Capture will produce very bad Consequences in England to the Honble Company's Affairs if they receive it, without being inform'd at the same time of there being a prospect of Our Resettling in Bengall we are to Request Your Honour &c^{a}. will alter Your Resolution for sending the Delawar to Europe till you know the Success of the Forces you may be able to Assist us with.

The first point Debated is whether the Survivours of the late President and Council for the Companys Affairs in Bengall notwithstanding the Loss of all

the Company's Settlements which were under their Management, do still remain invested with the same Powers or Rights they had before to direct in all matters relating to the Company which may be transacted within the former Limits of that Presidency.

After a long Debate The Question being put is carried in the Affirmative by a Majority.

The President on the first News of the Capture of Calcutta and Colonel Clive on his Arrival here from S^{t}. David having offer'd their Services to proceed at the Head of the Intended Expedition to Bengall in case it should be thought that either the one or the other undertaking such an Expedition would be most for the Companys Advantage. It is now debated whether it be eligible to request either and which of the President or Colonel Clive to undertake the Expedition.

When it was first thought that such a Measure might be proper it was not known whether those of the President & Council of Calcutta who had escaped with Life were in any Situation to take upon them and discharge the Powers of a President & Council, and in case they were not, it would have been necessary that whoever went at the head of the Expedition on behalf of the Company should have been invested with full and General Powers not only to retake their lost Settlements to but to Negociate and Conclud Treaties with the Country Powers for re-establishing the Company's Affairs and it was thought that none could be so properly entrusted with such unlimitted Powers as one of those Gentlemen whom the Commpany have placed the one in the 1st. the other in the 2^{d}. Station on this Coast. But it being above Resolved that the Survivors of the President & Council of Bengal do still retain their Powers as such, and consequently that whatever Expedition do proceed thither must fall under their Directions the Board are now of Opinion (in Consequence of that Resolution) that it is neither necessary nor proper for either the President or Colonel Clive to proceed.

Resolv'd That the thanks of the Board be return'd to the President & Colonel Clive for their intended Services on this Occasion.

The next Point Consider'd is, Whether upon a re-examination of all Circumstances and Advices to this time, The Resolution already taken to send down Two hundred & forty " Men on the Fifty & Twenty Gun Ships to retake " Calcutta only without proceeding any further untill other Forces be sent down " And that as large a Force as can be spared from the Coast be sent down with " the remainder of the Squadron as soon as the necessary Preparations can be " made in the interim the expected Advices from Europe should not make it " necessary to alter those Measures." Do still subsist Or whether any and what other Measures are proper to be now taken.

Resolved That Admiral Watson be desired to suspend any Orders he may have given for the departure of the Fifty & Twenty Gun Ships and that the Embarkation of the Men intended to be sent on them be also Countermanded. That in case the expected Ships from England should not bring the News of a War with France Admiral Watson be then desired to proceed down to Bengal with the whole Squadron at once. That Colonel Adlercron be desired to proceed on the Squadron with his whole Regiment and Train of Artillery And That all preparations of Stores and Necessaries be made with all possible Expedition in the same manner they would be were it peremptorily Resolved such an Expedition should proceed at all Events.

The Reasons for the foregoing Resolutions are Viz^{t}.

——*FORT ST. GEORGE, AUGUST 1756* ——

FOR SUSPENDING THE ACTUAL DEPARTURE OF THE EXPEDITION UNTILL THE ARRIVAL OF ADVICES FROM EUROPE.

1. The Gentlemen of the Council of Bengal in their foregoing Letter desire the whole Force that can be obtain'd both Military & Marine with Stores Cannon &c^{a}. may be sent them such a Force as they seem to expect and think necessary (which is more fully explain'd in some private Letters) would if sent away now leave this Coast exposed to great hazard should a War be declared with France.

2. There is all the reason in the World to imagine that before every preparation can be made for the whole Expedition to proceed at once Advices may be receiv'd from Europe to clear up the Doubts in regard to Peace or War.

3. The delaying for a Month or two the retaking of Calcutta can be of no other Consequence than that it will be impossible to advise the Company by the September Ship from hence of the Success of the Expedition and tho it is to be wish'd this could be done yet as the attempting it at this time might expose their Estate to greater detriment, it is postpon'd.

FOR SENDING THE KINGS TROOPS.

1. Almost every thing in this Expedition depends on a large and well served Field Train of Artillery.

2. There are not a sufficient Number of good and proper Field Pieces in the Company's Stores.

3. Colonel Adlercron in his Letter to the Board of the 20th. Instant intimates that His Majesty is unwilling his Forces should be separated.

4. The Board are therefore under the necessity of taking the Resolution they have or of wanting the main Assistance. A Good Field Train.

A Letter to Admiral Watson and one to Colonel Adlercron are accordingly now wrote & Sign'd and are enter'd hereafter.

SIR

Since we did ourselves the Honour to address you the 27th. Instant We have receiv'd Advices from the President & Council of Bengal requesting as large a Force as We can possibly spare, and as it would be imprudent to part with such a Number of Men as they think necessary to obtain such redress as the injuries receiv'd require while We remain uncertain whether War has been decalred or Peace concluded with the French in Europe, We think it would be better to defer sending the Fifty and Twenty Gunships, agreeable to our last request, but that if the expected Coast & Bay Ships should not bring Us the News of War every end would be better answered by the whole Squadrons proceeding at once, which in that case We shall then request of you, We purpose also to desire Colonel Adlercron will go on the Expedition with his whole Regiment and Train and for that purpose We are making all necessary preparations. We are therefore now to request you will suspend the Orders you may have given relating to the departure of the Fifty and Twenty Gun Ships untill We receive

SIR

We deferr'd answering your Letter of the [21st.] Instant untill We receiv'd such Advices from Bengal as might lead Us to some determinate resolution in regard to the Number of Men necessary for the intended Expedition. We have accordingly receiv'd a Letter from the President and Council, by which and all other Circumstances that have as yet come to our knowledge We judge that it would not be prudent to spare from hence such a Body of Military as would be necessary to do Justice to the Nation and Company for the Injuries receiv'd, while We remain in a State of uncertainty whether War or Peace with France have taken place in Europe but in case our expected Ships should bring Us News of the latter We think it would be then be adviseable to make a vigorous Effort to recover the Companys Settlements and oblige the Nabob to make ample Retribution for the Losses and Injuries sustain'd and in that case We purpose to Request you will undertake this Expedition with your whole Regiment and Train, which join'd to the Detachment sent down on the Delawar under the Command of Major Killpatrick will we judge form a Body sufficient to Answer the intended purposes. If these measures meet with your approbation We beg you will immediately give Orders for preparing every thing necessary for such an Expedition that if on the arrival of Advices from England it should be proper every thing may proceed accordingly.

GENTLEMEN

Last Night I receiv'd your Letter of the 27th. Inst. requesting me to assist you now, only with the fifty and twenty Gun Ships and that I would permit two hundred and Forty Troops to be embarked on board them, and give Orders for their proceeding to Bengall with the utmost Expedition. The Ships are ready and their Captains have my Orders to sail the moment the Troops are embarked which are disposed of as in the Margin.

By the latter part of your Letter, I imagine as soon as you are acquainted the rest of the Squadron are ready for the Sea, you then purpose to make me a further request of proceeding to Calcutta with them. If that is your only reason for delaying your application, I have the pleasure to tell you all the Ships are now ready to proceed to Sea at a moments warning, and I shall take care to keep them so.

I am

GENTLEMEN

Your most Obedient humble Servant

CHARLES WATSON.

FORT ST. GEORGE,
30 AUGT. 1756.

GENTLEMEN

I have receiv'd your Letter of Yesterdays date, and agreeable to your desire shall countermand the Orders I have given to the Captains of the Fifty and Twenty Gun Ships.

The Military Stores you request to be taken on board the Squadron must not be embarked in the large Ships, they drawing so much water already as to make their Passage up the River Bengal extremely Hazardous, and perhaps

impossible but I have no objection to the Twenty Gun Ship receiving as much as she can with conveniency, and have given her Captain orders accordingly, at the same time, it must not be forgot that the Marlborough (one of your own Ships) is here, and will be able to take in a considerable quantity of all kinds of Stores.

I am

GENTLEMEN

Your most Obedient humble Servant

CHAS. WATSON.

FORT ST. GEORGE,
31ST. AUGT. 1756.

AGREED that as many of the Military Stores intended for the Expedition as the Marlbro' can take in be put on board that Ship.

Colonel Adlercron desires a Plan of Operations.

The President acquaints the Board that Colonel Adlercron has inform'd him he does not think the Letter wrote him the 30th. Ultimo sufficiently explains the intended Expedition to Bengal, but that if the Kings Regiment should proceed a Plan of Operations should be given him to be laid before a Council of War whereupon it is AGREED to write to him the following Letter.

Letters wrote to him.

To JOHN ADLERCRON ESQR. COMMANDER IN CHIEF OF THE LAND FORCES IN INDIA.

SIR

The President having acquainted us that You think our last Address requesting the Regiment to go to Bengal was not sufficiently explicit & that You desired a Plan of Operations to be laid before you. We now give You our Sentiments on every thing relating to that Subject.

It is necessary to premise that whatever may be laid before you by us as a Plan of Operations is subject to the Approbation of the Companys Representatives in Bengal to whose Recommendations on all Occasions we request the same Attention from You, as You would have had to any Representations made by us to You while on the Coast.

We have already acquainted you that We purpose to request you will (in case the expected Advices from Europe should not induce Us to alter these Measures) proceed to Bengal with the whole Regiment & all the Train of Artillery, to which will be added as great a Number of Seapoys as can be embarked on Board His Majesty's Squadron.

The above Forces are intended to retake Calcutta and dispossess the Moors of Hughly, those two Places lying on the Banks of the River will be render'd an easy Capture with the Assistance of the Squadron after which it is to be hoped that the Nabob may come to such terms of Accommodation as the Gentlemen in the Management of the Company's Affairs may think proper to Accept.

But on the contrary should the Nabob not come to terms, it is more than probable he will move down from Muxadavad with his Army, which will make it necessary that as soon as possible the Nature of the Ground about Hughly & Calcutta be well reconoitred & the Spot chosen where it shall be judged best to engage the Nabob who flush'd with his late Success may venture a Battle.

Should this Battle (as We hope it will) be attended with a defeat of the Nabobs Troops & he notwithstanding remain unwilling to make terms If from

—— *FORT ST. GEORGE, SEPTEMBER 1756* ——

the Experience which will then be obtained of his force & from the Information which may be gain'd of the Country it is thought possible to proceed further We are of Opinion that this Expedition should not finish untill he either comes to terms, or that his Capital of Muxadabad be destroyed.

At the same time We must desire you will assure Us that on any future Representation from Us You will be ready to return to Us on the Coast should the Situation of Our Affairs make such a request necessary.

Our Sense of the immense loss which the Companys Estate has Sustained at Calcutta obliges Us to Stipulate that as soon as that place is retaken the whole property of it be delivered untouched to the Companys Representatives for the Companys benefit.

And as the Company will be at a vast Expence by this Expedition It is necessary that one half of all the other Captures which may be made be appropriated to the Companys Benefit. We say the Companys benefit alone for £ altho' the loss of private Persons by this Calamity may be reckon'd at 400,000 yet nothing of this one half is intended for their benefit & they must remain in their present Situation till they can find Relief from their Superiors.

As the utmost dispatch is necessary considering the lateness of the Season, We request the Stores may be immediately embarked, & as a Litterary Correspondence on the details of this Expedition will protract the dispatch We shall be glad to confer with you whenever you have any thing necessary to Communicate.

We are

Mr. Le Beaume arrives from Bengal. Letter from Mr. Manningham.

This morning arriv'd here Monsieur Le Beaume a French Gentlemen [*sic*] deputed with Mr. Manningham by Mr. Drake &ca. Council of Bengal at Fulta to represent to Us the Situation of Affairs and advise the necessary Steps to be taken and brought with him a General Letter from Mr. Charles Manningham which is as follows.

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CA. COUNCIL
OF FORT ST. GEORGE.

HONBLE SIR & SIRS

I had the honour to forward from Vizagapatam & Bandamalanka two Copies of the dispatches from Bengal advising your Honour &ca. of the Governour & Council having deputed me with Monsr. Le Beaume to entreat the aid & Succours of your Presidency in order to effect the Re-establishment of our Settlement in Calcutta. I had flatter'd myself with hopes of a speedy Journey but the violent Rains in this part of the Country, together with a failure in our Pallankeen Bearers (from the difficulty and fatigue in travelling thro' a Country over flowed) impedes our Passage to such a degree we greatly fear our arrival at Madras will be very late; considering therefore the pressing occasion of our being deputed to Your Honour &ca. the necessity of the Bengal Affairs which require our greatest diligence being exerted, we have been induced (in earnest hopes of obtaining the desired end) to pursue the remainder of the journey separately. Your Honour &ca. will therefore receive this by Mr. Le Beaume, a Gentleman fully capable of acquainting you with the nature of the Supplies needfull and operations necessary to be perform'd.

I have furnish'd Mr. Le Beaume with Bearers, & some Seapoys well acquainted with the Road and have great hopes by the favour of Mr. Moracin to obtain the assistance of Horses at the different Settlements under his command in this Province which may enable Mr. Le Beaume to proceed with greater expedition & prove a Resource in case the Palankeen Boys are incapable of pursuing the Journey.

I have the honour to subscribe myself with great Respect

HONBLE SIR & SIRS
Your most Obedient & most humble Servant
CHARLES MANNINGHAM.

MASULIPATAM

The President acquaints the Board that by the Conversation he has had with Mr. Le Beaume he does not find he has any thing to offer that can give any New lights into the Bengal Affairs.

Agreed to wait Mr. Manningham's Arrival.

Monsieur Le Beaume being a Frenchman the Board do not think it adviseable to give him any insight into their Affairs or Intentions and as he has nothing more to offer than has already been communicated it is Agreed to proceed no further untill Mr. Manningham's Arrival.

100 Pags to be given Mr. Le Beaume.

Monsieur Le Beaume having been sent up by the Gentlemen at Bengal on the Companys Account and being in want of all manner of necessarys having lost everything at Calcutta AGREED that One hundred Pagodas be given him to provide Apparell &c^{a}.

And that when the Boats are employed for the Company three instead of two fanams be reserved as above out of the seven.

All which the Board approve.

To the Honble George Pigot Esqr. President
&ca. Council.

Honble Sir & Sirs

We do ourselves the Honour to lay before you and to request your Approbation of the Regulations which We think necessary to be made in the Management of the Boats of this Place which were last Consultation put under our Direction as a Committee for the Service of the present Embarkation to Bengal.

These Regulations are the Result of the Informations given to our Enquirys on this Subject, which we shall first lay before You and then submit to your Judgment the Propriety of the Orders to be made in Consequence.

It is well known, that the Men who Ply the Boats are of a Cast the most Ignorant and consequently the most forward of any on the Coast Extreamly addicted to Drunkeness and ever unwilling to work whilst they have any Thing to spend.

Every Boat is rowed with ten Men, who hire themselves to the Service of that particular Boat, and as it would be difficult amongst the whole set of Rowers to find one of sufficient Discretion & Æconomy to maintain a Boat for three days together a Person who does not work himself builds a Boat engages the Crew and plys it for his own Profit. These Owners of the Boats live in the same Quarter as the Rowers & find Employment sufficient to keep the Crew together. In so much that We do not find any one of these Owners has ever kept more than two Boats under his own Eye, so great is the Trouble of keeping the Boat Fellows in Order.

The Owner pays the Crew 30 Cash to each able Man for each Trip & 20 Cash to such as are not quite so perfect so that supposing half the Crew are paid at 30 & half at 20–10 Men at 25 Cash are paid for each Trip 250 Cash equal to 3·10 for each Trip.

The price now paid for a Trip is Six Fanams & if the Boat makes three Trips a day, the Owner gains 8 fanams 50 Cash a day

Out of this Profit he is to be at the Expence of paying for the first Cost of the Boat for keeping it in constant Repair & scarce a day's Work passes without requiring some. And to rebuild the Boat if lost or when worn out. Add to these Expences at particular Times incurr'd by the Frowardness [*sic*] of the Boatmen who leave the Bounds and will not return without a Gratification and the People sent to look after them are a Charge Likewise.

The Owners of the Respective Boats had three or four Chiefs from whom they receiv'd Orders for the Disposition of the Service of the Boats and these Chiefs received their Orders from the Fort.

In this manner were the Boats conducted before the Time that the Chiefs ran away to Pulliacat and for a Time kept the Boatmen away.

Since when the Boats have been seized by the Company and put under the care of a single Person who formerly was an Owner of a Boat.

But experience has convinced us, that it is impossible for any single Person to keep together to their Duty all the Boat Fellows of this Place Scarcely can one Man suffice for the Crew of a single Boat.

We find 31 Persons who formerly were Owners of 33 Boats.

It is purposed to give up the Boats to these Owners who are to oblige themselves to work them constantly.

But as the Company have been at a large Expence in making & refitting these Boats, it is necessary that this Charge be reimbursed if possible.

——— *FORT ST. GEORGE, SEPTEMBER 1756* ———

On Sundays never more than five or six Boats are alloted for Service. During the Monsoon scarce any Boats work at all. At other Seasons the Surf is often so high that no Boats can put off Reckoning all these to be Deductions of 140 Working days and Reckoning 30 Boats to ply at Work each Day and to make 3 Trips ℔ day We shall have in 225 the Working days 19850 Trips made by the Boats of the Settlement.

If a Fanam in every Trip is appropriated to reimburse the Company, 19850 Fanams or Pagodas 472.26 fanams will be yearly receiv'd to reimburse 2000 Pagodas which is nearly the Sum that has been expended on the Boats which Reimbursement cannot be deem'd sufficient.

At the same time We are convinced that much more than a Fanam cannot be taken without the danger of having the Service of the Boats deserted.

It is therefore proposed that in future Every Trip made by the Boats be paid for by every Person at the rate of Seven fanams a Trip and that two Fanams of each Trip be reserv'd for the Company which on the above Calculations will make a Reimbursement in the Year of 945. 10 Fanams And

That moreover all the Boats employed for the Company be liable to a Deduction in each Trip of three Fanams that is that instead of 7 only 4 Fanams be paid for each Trip.

If this Measure is approved the Regulations in Consequence are easily made.

A Check will be appointed & a Report daily given of the Number of Trips made in the day.

At the end of the Month the Money reserv'd for the Company will be collected according to that Report.

A List of the Owners will be always ready to be applied to if any Disorders or Negligence arise in the Service of any particular Boats. And these Owners will be made responsible & as it will depend on them to furnish the Boats, or to be punished They will take Care to satisfy the Boat Fellows & prevent their Desertion by ill Usage.

These are Regulations the best that occur to our Judgment & therefore deem'd by us necessary to be immediately put in Execution.

We submit them to your Consideration & are with great Respect.

HONBLE SIR & SIRS

We have receiv'd your Favour of the 6th. Instant from on Board the Daddalay of Fulta and are obliged to you for your Congratulations for Our safety. As we were Prisoners all the Time of Our stay in the Camp it was little We could

learn of the Nabobs intentions concerning the English Only. We heard from all Quarters that he was Greatly irritated against your Honour &c^{a}. particularly the Governour against whom since the taking of the Place his expressions have been very harsh and He has threatened both French & Dutch with exterpation if they assist you with any Provisions therefore. We are without any hopes that an application to the Great Men will have any Effect at present, though had your Honour &c^{a}. thought proper to Treat before the Nabob reached Calcutta We are pretty certain a Sum of Money would have made all easy prevented the Loss of the Settlement & the Ruin of many Thousands & We wrote to your Honour &c^{a}. to that purpose when We were of Houghley the only Opportunity We had while in the Camp & are inform'd the Letter came to hand and a proof that the Nabobs intent was to accomodate matters, was that He touch'd none of the Companys Effects at Cossimbuzar except the Warlike Stores. Should the Nabob think fit to permit the English to return & resettle We are afraid it would not be only with the loss of all their Privileges but on such Shamefull Terms that Englishmen We hope will never consent to. And We likewise think that after your Honour & the Majority of you had quitted Fort William which still held our your Power as a Governour & Council from that Moment ceas'd & We are of Opinion that you have no Authority to indemnify Us for acting by your Orders in case Your future measures should not be approv'd of by Our Honble Masters for the above reasons We have declined delivering the Letters you sent us.

We hope you will on serious Consideration excuse Us for being so cautious in an Affair of such consequence. We are with Respect.

Honble Sir & Sirs

We have receiv'd your Letter or Protest dated the 13th. of July 1756 and are surprized you should Protest against Us for all Damages & wrongs which may ensue by the deprivation of Our Privileges as contain'd in the Royal Phirmaund when We think We can with more propriety say that the Majority of you Gentlemen deprived Our Honble Masters of their Privileges as contained in the Royal Phirmaund when you incensed the Nabob to come against Calcutta and then deserted the Place and fled on Board your Ships which in all probability & by all Accounts was the Occasion of the Loss of the Place which might have been defended if you had staid and by which Step We are of Opinion you abdicated your several Stations and are now no longer to be deem'd Servants of the Company but setting the above aside if We thought it had been for Our Honble Masters Interest We should not have hesitated a Moment getting the Letters Translated & deliver'd but if you at this Time look on yourselves as a Governour & Council you must of Course allow Us Our Stations, in consequence of which We are persuaded We have a right to dissent and make Our representations against any of your Measures which We think contrary to the Interest of Our Employers As an Application at Present We are of Opinion is and that it would be adviseable to wait to see what Steps the Governour & Council of Madras may be able to take to re-establish the Companys Affairs and Credit in Bengal. We having advised them of the taking of Calcutta the 3d. Instant by express * Cossids therefore We think an application will be more Efficacious and made with a better Grace when any Force Arrives from thence than it can at present whereas should the Nabob now Permit you to return into a Ruined and defenceless Town it may be with an Intent to Re-Plunder the Place and Secure your Persons for We are of Opinios the Nabob is not to be Trusted after things have gone the Length they have and as a further reason to imagine that Your return may be attended with a risque, is, the harsh & inveterate manner in which the Nabob has express'd himself against Mr. Drake.

We are Credibly informed that when you wrote Us you made Application to those Who had more Interest and Power to Give Weight to your proposals than We who by great Intercession had but just obtained our Liberty. On Our coming to the knowledge of this Our intermedling We thought might have been rather hurtfull than any ways of Service however if after the reasons We have given you are still of Opinion that the Letters you sent Us ought to be Translated and delivered We shall agreeable to your desire get them done and send them to the respective Persons directed except Golam Hossein Cawn who is turned out of the Province. We have no Power or Interest of Our Own to make Applications if We had We should certainly have before made Us [*sic*] of it for the Service of Our Honble Employers. We are with Respect.

——— *FORT ST. GEORGE, SEPTEMBER 1756*———

To the Honble George Pigot Esqr.
President & Governour &ct. Council
of Fort St. George.

Honble Sir & Sirs

This is designed to inform you of a most melancholly & surprising Revolution in the Honble Companys Settlements here in Bengall having been all taken by the Nabob Seerajah Dowlat. As we have not received the least Advice from any of the Gentlemen of Calcutta of a later Date than the 9th. of June we are obliged to depend on the French for a particular Account of the taking of Fort William, we now enclose your Honour &ct. the Account receiv'd by Monsieur Courtin the French Chief here from their Secretary at Chardanagore. We see no Reason to doubt the Authenticity of it more especially as every material Circumstance is confirm'd by the Moors who have from the beginning assured Us that the Cause of the Nabobs Anger against the English proceeded from the Governour & Council having given Protection to one Kissendoss who had been the Naib of this City, he retired to Calcutta in March last with great Riches part of which are said to belong to the Widow of Nowagies Mawmud Khan who died in November last & whose Riches Seer Rajah Dowlatt claim'd on his coming to the Subaship of Bengal when the Nabob sent a Perwannah to demand him Mr. Drake tore the Perwannah & threw it in the Face of his Messenger this Insult provoked Seer Rajah Dowlatt to such a Degree that they say he took an Oath to drive the English out of Bengal which he very soon put in Execution, as you'll observe Cossimbuzar was delivered without firing a Gun & Fort William only resisted him 3 Days. We take the Liberty to enclose your Honour &ct. Copies of our Consultations of the 27th. & 28th. Ultimo when we were obliged to surrender our Factory & ourselves Prisoners to Seerajah Dowlatt from whom we are in hopes soon to obtain our Liberty as he has already releas'd Messrs. Watts & Collet &ct. If we are so happy as to get our Liberty our present Design is to proceed to Madras when we shall depend on your Honour &ct. Councils Protection & kind assistance having lost every Thing we had in the World except a few Cloaths. We would have sent you Copies of our Consultations & Letters from the beginning of the Dispute but as this goes by a Pattamar it would make too large a Packet. We design by a French Ship bound to Europe which is to leave Chardanagore next Month to address ourselves to the Honble Court of Directors & give them the best Account we are able of the miserable State of their Affairs in Bengal. As we flatter ourselves your Honor &ct. Council will not think us any way to blame in delivering up our Factory after the surrender of Fort William, we are to request your kind representation of our Case should you have an Opportunity of writing the Court of Directors before We have the Pleasure to see you. As by all Accounts the Riches Mr. Drake &ct. have carried off with them are immense We hope our Honble Employers will be in some Measure indemnified for the great loss they must have suffer'd by the taking their Settlements in Bengal.

We are with great Respect

I am directed by His Majesty to undertake no Service with the Troops, but with the advice and approbation of my Council of War, the which I cannot now assemble by reason of the indisposition of my Lieutenant Colonel and the absence of my Major; and therefore cannot immediately give you a positive Answer. As soon as Major Forde returns whom by the last Letters from him, I have reason to expect in a few days, I shall forthwith call a Council; and in the mean time as I make no doubt of their ready concurrence in an undertaking so essential towards retrieving the Affair of the Company at Bengal the necessary preparations may be made for our embarkation. I do not apprehend so short a delay can be of any great moment, as you seem resolv'd by the Letters with which you favoured me, both of the 30th. COUNCIL OF FORT ST. GEORGE.

JOHN ADLERCRON

——— *FORT ST. GEORGE, SEPTEMBER 1756* ———

AT A COUNCIL OF WAR HELD AT ST. THOMAS MOUNT NEAR FORT ST. GEORGE THE 20TH. DAY OF SEPTEMBER 1756.

Present

Colonel John Adlercron, Commander in Chief.
Lieutenant Colonel Samuel Bagshaw.
Lieutenant Colonel Stringer Lawrence.
Lieutenant Colonel Robert Clive.
Major Francis Forde.

Captain William Hislop, Commandant of the Detachment of the Royal Artillery.

Two Letters, the one dated the 30th. August, the other the 3d. September 1756, from the President & Gentlemen of the General Council to Colonel Adlercron, were read; as were also the Instructions which the Colonel receiv'd from His Majesty.

The Colonel then referr'd to the Council, whether consistent with those Instructions he can undertake to transport His Majesty's Troops under his Command from the Coast of Choromandel to any other part of India; and whether in the present distress'd situation of affairs at Bengal he ought to go thither.

The Council are of opinion that the Colonel may, and that in consequence of the application made to him by this Presidency, he ought so to do.

The Colonel then submitted to the consideration of the Council the three following requests made to him by the General Council in their Letter of the 3d. September.

1. That he will assure them that on any future representation from them, he will be ready to Return on the Coast should the situation of their Affairs make such a request necessary.

2d. That as soon as Calcutta is retaken the whole property of it be delivered untouch'd to the Company's Representative for the Company's Benefit.

3. That one half of all the other Captures, which may be made, be appropriated to the Companys benefit.

In regard to the first Request the Council are of Opinion, that (as the Presidency at Bengal are acknowledged by the Gentlemen here to be independent of them and as this Presidency have particularly recommended to the Colonel, to have the same attention to the recommendations of the Companys Representatives at Bengal as he would have to any representations made to him here) the Colonel cannot take upon him to give any such assurance: and that the two Presidencies must determine that point between themselves.

With respect to the two other requests The Council are of Opinion, that no answer can be given but in concurrence with the Fleet, as they will probably be concern'd in some if not all, of the intended operations.

——— *FORT ST. GEORGE, SEPTEMBER 1756* ———

The Board having had under Consideration the intended Expedition to Bengal and the Advices lately receiv'd from Europe and thereupon the Question being put. Debate of the Bengal Affairs.

Whether upon the News received from Europe it is proper to undertake the Expedition to Bengal.

It is unanimously the Opinion of the Board that the Expedition be undertaken as the approach of the ensuing Monsoon will oblige the Squadron to leave the Coast whether they go to Bengal or no, and the Rains of the same Monsoon will prevent any Operations in the Field untill the Month of January by which time it is hoped that the desired Success will be obtain'd at Bengal. Expedition to be undertaken.

It was then taken into Consideration What Resolution would be necessary in case during the Expedition to Bengal News of a War with France should arrive and the Coast become again the Seat of War. If at that time the Successes that We may have had at Bengal should not have proved sufficient to reduce the Nabob to a Compliance with such terms as will be necessary for the Secure and proper Re-establishment of the Companys Settlements in his Province. Further Consideration thereon.

In such case the Board are of Opinion that it would be imprudent to risque the certain Possession of the Companys Establishments on this Coast for the Chance of Advantages which if not obtained by that time will be attended with great doubt of success in Bengal where the Companys Loss cannot be greater than it is at present, And it is therefore determined that if the Situation of Affairs in future should require the recalling of the Troops We may now send, That the Troops shall be so recalled and if the Fort of Calcutta when retaken shall be deem'd with a proper Garrison tenable, that Garrison and a Guard Ship be left there after the recalling the Troops.

It was then taken into Consideration by the Board how far it is consistent with the Respect due from one Presidency to another to keep a Body of Troops sent to Bengal under our own Directions instead of putting them under that of the Presidency of Bengal as the Companys Establishment of the respective Presidencies makes them indepependant of each other.

The Board are of Opinion that too great a Respect cannot be paid to every Establishment made by Our Honble Masters but in the present Circumstances, if ever it appears to them that the great Law of necessity must over rule all others, and as the necessity of keeping what the Company have is evidently and infinitely the Superior Consideration the Board are unanimously of Opinion that the Troops now to be sent to Bengal be kept under their own Power. And as this is thought by the Board a Justification sufficient for their Conduct in the present Measures, they decline corroborating it with the Companys declaration at the loss of Madras, when they declared that none of the Gentlemen of this Presidency remain'd in their Service after the loss of the Place. This Consideration as equals only to the Gentlemen of Bengal the Board do not pretend to determine on.

The above reasons make it appear Conclusive to the Board that the present Expedition be put under the Command of an Officer in the Service of the Company and this is thought to be made more materially necessary as thereby the Steps which in case of the expected Success may be thought proper to be taken for the benefit of the Companys Interest will be indisputably placed in the Power of their Servants who will be Subject to our Orders.

Another Consideration that evinces the necessity of putting the Expedition under the Command of one of the Companys Officers is that in case the Nabob should not by Treaty make ample Reparation for the immense Damages the Company have Sustain'd by his Violences, it is the Intention of the Board to

reimburse the Company as far as possible by Reprisals. But as the Board are uncertain whether the Laws direct any and what distribution of things acquired by Arms, The Duty they owe the Company demands that a Matter of such Importance be not left in doubt and liable to Contest when they may have it in their Power to secure the property of such Acquisitions to the Company by employing their own Officers and Troops.

It is therefore thought from the foregoing Reasons absolutely necessary to employ the Companys Officers & Troops.

The Number of Troops necessary to be sent being now taken under Consideration.

AGREED that Six hundred Rank & File be sent and One hundred of the Train.

And as Colonel Clive has before offer'd his Services he is now desired on many Considerations to accept the Command which he very readily does.

AGREED that Mr. Smith (one of the Members of this Board) and Mr. John Walsh be join'd with Colonel Clive as Deputy from this Board for Conducting the Expedition, And that Mr. Maunsell accompany them to assist under their Directions.

Mr. Smith being present accepts the Charge with Alacrity.

The Board then having taken under Consideration the Instructions and Powers necessary to be given to Messrs. Clive, Smith & Walsh, After much Debate, in which the retaining the Troops of the Expedition under our Command was the Basis of the Arguments. It is AGREED that the Powers and Instructions so to be given be as follows.

FIRST That the Gentlemen at Calcutta be desired by Us to form a Plan of a Treaty which the Deputys be directed to abide by the tenour of, and make the Basis of their Correspondence and transactions with the Nabob.

SECONDLY That Colonel Clive be directed to proceed to all such Hostilitys as he thinks will most likely bring the Nabob to those terms untill he has had the Success to do so. Or untill he finds it utterly impracticable. Or untill he is recalled by Us.

THIRDLY That the Deputys be desired to receive and attend to the Advice of the Gentlemen at Bengal, to weigh the same maturely and if they think proper to deviate from it in any respect that they have the Power so to do but on Assigning reasons to Us to be transmitted to the Company.

FOURTHLY That the Deputys be directed to re-establish the Gentlemen of Bengal in Calcutta as soon as his Successes shall render it proper, and that they do when the Place is in a sufficient State of Security put those Gentlemen in Possession of all such part of the Company Effects as shall remain with them, and be of no further use to them. And that in case the Nabob should Agree to a reasonable Treaty with the English that they do put all the Possessions acquir'd by that Treaty under their management.

THIS being Agreed upon as the Basis of the Instructions and Powers to be given to the Deputys.

AGREED to write to Colonel Adlercron That we return him thanks for his readiness to move with his Regiment to Bengal but as the Power of recalling him at an Emergency seems to be attended with an uncertainty of which our own Situation will not admit of the least. And as we should run the risque of incurring the severest displeasure of our Masters should We put the property of the Acquisition that may be made in Bengal into any manner of doubt or Contest when we can keep it in our own Power to reimburse the Losses they have Sustain'd with such Acquisitions, by employing their own Officers &

——— *FORT ST. GEORGE, SEPTEMBER 1756* ———

Troops. We do therefore purpose sending a Body of the Companys own Troops to Bengal. But at the same time that it will give Us a particular Satisfaction if he will let any part of His Majesty's Regiment be join'd to them provided they are Commanded by an Officer who by his Rank can serve under the Command of Lieutenant Colonel Clive And that We request he will let His Majestys Artillery with the Officers and Train thereunto belonging to proceed down on the Service of the Expedition as by the Nature of the Nabob of Bengals Forces We think that the Success of the Expedition will greatly depend on the Service of the Field Pieces, acquainting him at the same time that We have Eight Six Pounders now in Garrison and expect several more by the first Ship from Bombay to replace His Majestys Train.

To write to St. David for some Seapoys Military & Train.

Sent the following Letter to Colonel Adlercron. 22

To JOHN ADLERCRON ESQ^{R}. COMMANDER IN CHIEF OF THE LAND FORCES IN INDIA.

SIR

We have receiv'd the favour of your Letter dated the 20th. Instant enclosing Copy of the Deliberations of the Council of War of the same day, to which you have been pleas'd to refer us.

We have a very sincere Sense of Your readiness to assist the Companys Affairs express'd by your Consent to let the Regiment proceed to Bengal.

But as the Intention of warring with the Nabob of Bengal is by no means the only Object of our Considerations in sending our Troops there, So these other Considerations have determined us to think that there is now an absolute necessity of putting all the Troops which we may send under an Officer in the Service of the Company who we know will implicitly obey the Orders he may receive from Us.

The first Consideration that has lead us to this Determination, is, that the Situation of our Affairs and the future Circumstances with which they are threatened, make it absolutely necessary that Whatever Troops may now be sent to remain under our own Command, So as that we may be certain of their returning to us at the very first Warning without attention to any Representations by whomsoever made. The Companys Letters by the Ships just arriv'd convince Us of the necessity of this Resolution. Now Sir to You we can only make Requests, our own Officer we know we can certainly command. In Times of such critical Importance We beg you will permit Us, with all defence to determine to be at an absolute Certainty on the Power of recalling the Troops we may send.

The Second Consideration that evinces to Us the necessity of putting this Expedition under the Command of one of our own Officers is that our Intentions are in Case the Nabob will not by Treaty make ample Reparation for the immense Damages the Company have sustained by his Violences. We say it is our intention then to reimburse the Company as well as we can by whatever Reprisals we shall be able to make. We can in this Consideration likewise only make requests to You, but as we do not pretend to be competent Judges of the Laws in such Cases We may venture to say, that we believe there are no regular ones We shall run the risque of incurring the severest Displeasure of Our Masters, should we, when we can keep it in our own Power to reimburse the Losses they have sustained with the Acquisitions made by the Troops whom their Money is to maintain, Should we, We say put the Property of those Acquisitions into any manner of Doubt or Contests.

Permit Us Sir at the same time to acquaint You that it will give us a particular Satisfaction if You shall think proper to let any part of his Majesty's Regiment be joined to Our Troops on this Expedition provided they are Commanded by an Officer who by his Rank can serve under the Command of Lieutenant Colonel Clive, whom we have appointed to the Command of this Expedition.

We are necessitated in behalf of the Welfare of this Expedition & of the East India Companys Affairs to request of you to permit His Majesty's Train of Artillery with Captain Hislops Command, to proceed with Colonel Clive, as the Success of this Expedition will in the greatest measure depend on the Service of the Artillery of which our own Store is not sufficient by the Disappointment of those intended for Us by the Dodington & the whole of a large Train of Artillery sent to Bombay and detained hitherto by Mr. Bourchier.

We have the Honour to acquaint you that We have in the Garrison Eight 6 Pounders & expect several more from Mr. Bourchier by the first Conveyance which will be ready to replace those We now request of you and which are already embarked on the Marlbro'.

Permit Us to request as the lateness of the Season now makes every hour of Consequence to be favoured with an immediate Answer to this Address.

The President acquaints the Board that the Select Committee have receiv'd a Letter from the Honble Court of Directors by the Chesterfield and Walpole dated the 13th. February last of which the following is the 3d. Paragraph Viz.

" In the present dangerous Situation of Affairs we have thought it highly " necessary to appoint a Select Committee at Fort William with Similar " Powers to those you and the Select Committee at Bombay are invested with " to transact Affairs and take such Measures as shall best conduce to the Pro- " tection and Preservation of the Company's Estate, Rights, & Priviledges. " The said Committee is composed of Roger Drake Esqr. &ct. with whom there- " fore as well as with the Select Committee at Bombay you are to correspond & " act in concert for the General & particular Protection of the Companys " Trade, Possessions and Rights wherever & whenever they may be in danger.

25 Arriv'd Ship Bombay Frigate Henry Prettie from Bengal & Vizagapatam.

28 Receiv'd from Admiral Watson the following Letter.

GENTLEMEN

By a report made me this morning of the defects of the Kent, I find she is in so bad a condition, that she cannot proceed to Sea, without dismounting several of her Guns from her extreme parts and clearing her of all her Stores; and I believe part of her Provisions and even then she will be a very improper Ship to encounter a Gale of Wind; however as you are desirous the whole Squadron should proceed on the Expedition to Bengal, and as its' a service of the utmost consequence to the Companys Affairs, I am willing to risque the Kent, But I must first desire you will not think of sending home the Chesterfield at this time, but order her Captain to receive such Stores and Provisions, as is necessary to be taken out of the Kent, and indeed most of the Ships must part with before they proceed up the River Bengal.

I make no doubt Gentlemen, as the safety of a number of His Majesty's Subjects depends on the detention of this Ship you will readily comply with my request and I beg leave to say I was sorry to hear you had any thoughts of sending home the Chesterfield before the Expedition was over, as the Number of Troops I hear, you intend to send could not have been carried without her Assistance.

I am

GENTLEMEN

Your most obedient humble Servant

CHAS. WATSON.

FORT ST. GEORGE,

TO THE PRESIDENT AND COUNCIL OF FORT ST. GEORGE.

28 Sent the following Answer to Admiral Watson.

TO CHARLES WATSON ESQR. REAR ADMIRAL OF THE RED AND COMMANDER IN CHIEF OF HIS MAJESTY'S SQUADRON IN INDIA.

SIR

We have been favour'd with your Letter of this date and are under very great concern to hear the Kent is in so bad a Condition as to oblige you to ease her by dismounting part of her Guns and Clearing her of some of her Stores. The Marlbro' who is intended to proceed with the Squadron to Bengal will We believe take in near all the Stores We have to send so that the Walpole which is the largest of our Ships can doubtless take every thing aboard that you may see proper to Transport from the Kent. The Guns and Weighty Stores will be of Service to her as we should otherwise be obliged to send a large Quantity of Ballast aboard. We please ourselves with the thoughts that these two Ships will answer all the purposes you mention should they not there is a private Ship now in the Road which might be hired for a Storeship on His Majesty's Account

which We take the Liberty to acquaint you with as We think it would be very detrimental to the Companys Affairs to deprive them of the Benefit of a Cargo from hence at this time.

COLONEL CLIVE *Absent.*

The Book of Standing Orders lying on the Table.

The Minutes of Consultations dated the 8th. 14th. 21st. & 22r. Instant read & Signed.

General Letters read Vizt.

General Letters read From Fort St. David.

No. 133 No. 134 No. 136 & No. 138 From Alexander Wynch Esqr. & the other Gentlemen of Council at Fort St. David. The first dated the 7th. Instant Acknowledging the Receit of our Letter of the 31st. August & acquainting Us that they have given Directions to the Committee of Works to examine & take for the Companys Account such of the Ballances that are due to Mr. Norris as appear reasonable. That they dispatched the Dragon Sloop to us the preceeding Day with Sundry Stores & now enclose an Invoice of them as also a Compleat List of the Invalids & Pensioners on their Establishment in the form We desired. That they likewise send us Copy of a Report of unserviceable Stores in that Garrison concerning which they request our Directions, That their Cash is brought very low by an Advance made to their Merchants Upon a promise of bringing in better Cloth in future and by the Disbursements of the Settlement, which obliges them to Request a further supply. Enclosing their Consultations for July & the Monthly Accounts with the Committee Report on them. The second is dated the 9th. Instant & advises of having Granted Alexander Wynch Esqr. a sett of Bills of Exchange on Us for three thousand Pagodas which they

hope We will approve of as their Cash is very low. The third dated the 20th. Instant acknowledging the Receit of our Letter of the 14th. with the supply of Twenty thousand Pagodas and Requesting a further supply of Stationary as what we Have already sent is by no means sufficient to answer the Expence at the Settlement even without supplying DeveCotah or Trichinopoly. The fourth dated the 28th. Acknowledging the Receit of our Letters of the 21st. & 23d. Instant & acquainting Us of the arrival there of His Majesty's Ship Bridgwater the preceeding day & that the Military were immediately landed & the Rupees also which turn out right, and that agreeable to our Commander That Ship now returns with One hundred Men drafted from the Military & Train of their Garrison with Captains Campbell & Callender, Lieutenant Brooke & Ensign Knox, as also with sundry Military Stores & Thirty three Bales as ℔ Invoices enclosed and that Kerjah Sing march'd with five Companys of Seapoys the 24th. & the Rolls are now sent.

From DeveCotah.

No. 135 From Mr. James Bourchier Chief at DeveCotah dated the 9th. Instant requesting Permission to entertain a Monthly Writer as Mr. Brickendens ill state of Health which he has long laboured under renders him at present incapable of attending to the Companys Business & Representing that it is necessary We should appoint some Person there the Companys Head Conicoply. That Application has been made to him by Mr. John Drake whom We lately promoted to the Rank of Ensign for the Difference of Pay due to him from the Date of his Commission, but he defers complying with it till he receives our directions. That the Transporting the Supplies of Stores which he is under a Necessity of indenting for for the use of the Garrison being attended with an Expence of Cooley hire as well as a Risk of Miscarriage in case of any Disturbances in the Country, he is induced to make a Proposal for Providing them there as they can be furnished at the same Rates as stipulated at Madras which will be a saving to the Company. That the Repairs of the Fortifications We directed are far advanced but that we may the more clearly know what is finished & what further to be done, he has desired Mr. Hume to draw a Plan of it which shall be sent us when finished. That on Examining the Ground where the intended Ditch was to be made & the Counter Guards erected Mr. Hume has discovered two Walls that formerly composed the faces of a Ditch of 57 feet wide surrounding the Fort, which he imagines will in some measure decrease the Estimate of Mr. Humes Plan as well as Occasion some Alteration in it. That a Seapoy having been destroy'd by an Alligator in coming to his Duty to the Fort, he requests our Direction Whether he shall adhere to the usual Practice on like Occasions of granting a Pension to the deceased's Family.

From Vizagapatam.

No. 137 From Mr. John Lewin Smith Provisional Chief &ct. Council at Vizagapatam dated the 3d. Instant acquainting us that they return'd the Syren Sloop to Bengal on the 25 Ultimo with some Rice & other Necessaries as ℔ Invoice which they enclose, but were unable to assist the Gentlemen there with Stores further than by supplying the Sloop with what she was most in want of being themselves bare of all kinds, the Particulars of which they send us sign'd by Captain Smith. That their Cash Account which is now transmitted with the other Monthly Papers, will shew Us the necessity they were drove to for Money for carrying on the Investment & even defraying the Current Expences of the Garrison till Mr. Smith advanced for the Companys Account Twenty thousand Arcot Rupees (20,000) and Ten thousand Madras (10,000) Pagodas. A step which they hope We will approve as it has already been the Means of the Merchants bringing in a considerable Part of the Amount in Cloth, That their Cash however is now reduced to its former low state which obliges them to entreat to have a large supply both of Rupees & Pagodas & That one of their Train named Peter Hare having served his contracted time & requested his Discharge, they have granted it & he returns to Us on this Ship.

——— *FORT ST. GEORGE, SEPTEMBER 1756* ———

As there were several Articles still wanting the Military Storekeeper acquaints the Board he used all probable means to find them and had the success to discover several Carcasses buried in the Sand upon the Beach for the ships Boats being employed to bring the Stores to the Surf they were there delivered to Mussoolahs from which for dispatch they were thrown promiscuously upon the Beach and continued there some days before any of the people belonging to the Storehouse had any notice of it and thereby many were entirely cover'd by the sand which induced him to search the Strand all before the Town but to little effect. There being yet a deficiency of Twenty three Royal Shells and Sixty Eight hand Grando Shells concerning which he desires the Boards directions ORDER'D that they be wrote off to Profit & Loss since the deficiency does not appear to have happen'd from any Neglect in the Storehouse Assistants but the Irregular manner of landing the Stores from the Men of War and there is no arriving at any certain knowledge whether the whole were delivered from the Ships or not and no possibility of making them answerable for the deficiency.

Hon̄ble Sir & Sirs

The Madeira Wine Imported the Marlbrough has been Surveyed and by Gauging the Pipes find no more leakage than what is usual excepting in one Pipe which wanted 101 Gallons for which the Captain has paid.

Upon Gauging 248 Pipes landed here there appears only 142½ Gallons short of the Quantity they should contain. I must therefore remark that they turn out much better than those imported last Year.

To the Honble George Pigot Esqr.
President & Governour &ct. Council
of Fort St. George.

Honble Sir & Sirs

Since our last report in regard to Mr. Eyres's Accounts Mr. Perceval has laid some more of that Gentleman's Papers before the Committee amongst which We find the Paymaster's Accounts for July and August 1746 the former sign'd by Mr. Eyre tho' they do not appear to have been pass'd in Consultation. There is likewise a Memorandum in his own hand writing in regard to this months Account observing an Error he had discover'd on reperusal of them, in the Article Town Fortifications of Pags. 11–4 occasioned by a mistake in casting up the sums of that head. In the following Month (August) Accounts, which are not sign'd the same Memorandum observes that the Amount of the Credit side is short cast up 7 Cash. This Memorandum seems to Us a very strong Testimony of the Justness of the Accounts now laid before you. We have also receiv'd an Abstract of the Paymaster's Accounts for July, August, September and October 1746 the Ballance of which exactly corresponds with the Ballance of the Accounts mention'd in our former Address & is in his Favour.

Pagodas	3562	15	78
To which if the Error of the sum short cast up be added	—	—	7
	3562	16	5
From which being substracted the Mistake of	11	4	—
remain Pags. ...	3551	12	5

Which appears to us to be the true Ballance due from the Company to Mr. Eyres's Estate.

——— *FORT ST. GEORGE, NOVEMBER 1756* ———

In regard to the Sea Customs Accounts we have only to add to what was observ'd in our former Report that altho' the Account be drawn out in September that employ was deliver'd over by Mr. Eyres to Mr. Stratton the 1st. of May.

We beg leave to present the Papers mentioned above and are With the utmost Respect.

——— *FORT ST. GEORGE, NOVEMBER 1756* ———

To the Honble George Pigot Esqr.
President & Governour &ct. Council of
Fort St. George.

Honble Sir & Sirs

In our Report dated 20 February in regard to the State of Captain Schaub's Detachment whilst Prisoners at Pondicherry & of the Draughts he made for their Pay as well as that of the English Prisoners there we laid before you the Result of our Enquirys to that time which for want of materials and Captain Schaubs presence here amounted to nothing more than Surmise. Since then a State of his Detachment whilst Prisoners which he deliver'd to the Paymaster when he was before at the Presidency having been found upon comparing it with the Fort St. David Paymaster's Accounts we observe the differences mentioned in the accompanying Account.

Captain Schaub being call'd before the Committee & examined in regard to the above mention'd state of his Detachment could neither admit or deny them having no Copies of his Rolls or Abstracts but desired that the original Rolls & Abstracts which he sent to Fort St. David in 1753 as well as the List of Deaths and Desertions he sent to the Secretary of Fort St. David about the same time or that which he delivered to Mr. Saunders in December 1753 might be produced to him all which Original Papers as is set forth in our abovemention'd Report were deliver'd to the late President Mr. Saunders & are not to be found so that supposing the Abovemention'd Account to be a just one (and we have no Proof to the Contrary) the Question that arises according to Captain Schaub is whether the Paymasters Accounts be also just, if they are, it seems very plain that Captain Schaub on his own Detachment has overcharged £. 107–4–8.

No. 73 Your Honour &ct. having wrote the Gentlemen at St. David to examine Captain Schaubs Officers by their Answer dated 30th. May it appears that Captain Schaub kept them entirely in the dark as well in Regard to his own Detachment as the English Prisoners and employed one Sergeant Heim to write all his Rolls and Abstracts, this Man therefore to be the only Person who could have given any further Lights into the Affair the Gentlemen at Fort St. David made immediate Enquiry after him but found he had been missing two days before Captain Schaub set out for Madras and upon examining Captain Schaub's Dubash he declared that this Serjeant Heim had been sent by Captain Schaub to Pondicherry under the Charge of two Seapoys that he saw his Master pay him there Pagodas 30 & that the Serjeant told him he had his Master's leave to go to Bengal, having therefore no Proofs against Captain Schaub with Respect to the English Prisoners we could do no more than desire he would give us some satisfactory account how it happen'd that the Number of Prisoners in May 1753 being 127 does not appear to be diminished in six months except by two Officers only who return'd on Parole but in the 7th. Month, being November about which time he was requir'd to send Pay Rolls they are suddenly reduced by 18 Men & the next month by 20. His reply was as before that he had no Copies of those Rolls or any Accounts relating to the Prisoners desiring that his original Rolls &ct. sent to St. David might be produced declaring at the same time that when he was called up by Mr. Saunders to the Presidency to justify himself in this Affair he shew'd in presence of Captain Brohier all the Papers he had relating to it but which are since lost, and that Mr. Saunders was well satisfied with his Conduct.

All which we submit to your Honour &ct. & are

TO THE HONBLE GEORGE PIGOT ESQR.
PRESIDENT & GOVERNOUR &CT. COUNCIL.

HONBLE SIR & SIRS

Notwithstanding all the care that has been taken of the Woollen Goods under my care as Import Warehousekeeper by being often aired and inspected into, still upon the delivery of some Bales of broad Perpetuanoes ordinary green it's with concern I remark'd that out of four Bales open'd they could only make up one but what were eaten throughout by a small Worm that I find breeds in all kinds of Woollen Goods when kept long. The above Perpetuanoes

have been in the Warehouse ever since the Year 1753 and I am apprehensive there are many others in the same Condition, but should they be opened it may in all probability hurt the Sales.

You'll be pleased to favour me with your directions on this Head and am with due Respect.

HONBLE SIR & SIRS

The 23d. of October 1755 I paid into the Honble Companys Cash agreeable to your Orders the Sum of Pagodas 2592–78 due from my deceas'd Father as it stood upon their Books relying entirely upon your Honour &ct. for the justness of the demand not having then receiv'd his Books and Accounts from England by which I was ignorant on the other hand what Sums were due to him from the Company. My Attorney has since sent them out to me and by an open Account taken from thence now enclos'd there will be a Ballance due to him, when struck of Pagodas 798. 29. 42. From this I have drawn out another Account to this time, by which there is a Ballance due to his Representatives from the Honble Company of Pagodas 3403. 19. 20 which I must request your Honour &ct. will take into Consideration and order the same to be discharged. In this last Account I have given Credit for Salary due to him as Senior Merchant and third of Council and as I find the same has never been paid him, I hope you'll think it reasonable.

I am with great Respect
HONBLE SIR & SIRS
Your most Obedt. humble. Sert.

FORT ST. GEORGE.

HONBLE SIR & SIRS

The Honble President having done me the Honour to tell me that the Affair of my Accounts at Pondicherry should be sent to Europe I beg the favour of You, Gentlemen, to give me an Acquittance that I may not be prosecuted on this Affair untill Orders are receiv'd from the Company; I apprehend that since You yourselves Gentlemen have referred the matter to the Honble Court of Directors I may venture to make this Request. It is not that I fear answering any Questions that might be put to me on your part as well as my Memory will

allow me, provided it was on the Spot where I may happen to be but if I were obliged to repair hither as often as ill minded People may carry you Reports to my disadvantage it would be impossible for me to support the Expences so frequent Removals should draw me into, I hope therefore Gentlemen that so far from disapproving my reasons you will favourably grant my Request.

The Letter from the Council or the Committee at Fort S^{t}. David which If I'm not mistaken is dated the 25th. of May last, having by what I can observe made a great Impression on you Gentlemen by reason of what appears there against me. I beg of you to allow me a Copy of that Letter that I may justify myself in Europe upon the Subject of its Contents & take such Measures as may appear otherwise necessary to induce you to alter the unfavourable Opinion which you have conceiv'd with regard to me upon this Affair.

I have the Honour to be with Respect

Mr. Perceval *absent Indisposed.*

The Book of Standing Orders lying on the Table.

The Minutes of last Consultation dated the 7th. Instant read & Signed.

General Letters read Vizt.

No. 173 No. 174 & No. 175 From Alexander Wynch Esqr. and the other Gentlemen of Council at Fort St. David. The first dated the 7th. Instant Acquainting us that as they are uncertain whether it may be prudent to venture General Letters read From Fort. St. David.

their Consultations & Monthly Accounts overland, they have deferr'd sending those for October till they receive our Orders. That they have Two hundred and eighty three Bales (283) of Cloth on hand That their Merchants having requested an Advance as their Ballances are greatly reduced, they desire our Directions whether their Request should be complied with as likewise what shall be done with the One hundred and fifty five Bales of turned out Cloth lying in their Warehouse. The second dated the 11th. Instant Acknowledging the Receit of our Letter of the 8th. and Complaining of the Extraordinary Behaviour of Captain D'Illins regarding which they desire our directions referring Us for the Particulars of Extracts of the Minutes of their Consultations and Copies of Letters from that Gentleman which they enclose as well as a Petition from several of the Inhabitants relating to the Beetle and Tobacco farm and as the Peons at Porto Novo have represented that the Materials belonging to the Companys house there, are much endangered by the ruinous Condition of the Godown they are kept in, desiring our Permission for removing them upon the Change of the Monsoon to Fort St. David. The Third dated the 17th. Instant enclosing a Petition delivered them by many of their Inhabitants relating to the Beetle and Tobacco farm which they recommend to our Consideration as they have Reason to believe that most of their Artificers will leave the Bounds upon the raising the Prices of the Beetle and Tobacco the Hardship being the greater upon them as there is none of that Sort of Beetle there called Cravo which is generally used by the Inhabitants at Madras, but some [*sic*] the same as the St. Thome Beetle, which is three times dearer.

The Petitions from Fort St. David relating to the Encrease in the Price of the Beetle and Tobacco consider'd.

After maturely considering the Subject of the above Petitions The Board are of Opinion that it is unnecessary to take any Notice of the Proposals made by Sadashavarow &ct. as agreeable to the Companys Directions the Cowle has already been publickly let by Outcry to Irshippa Chittee, And with respect to the Complaints of the Inhabitants relating to the Encrease in the retailing Prices of Beetle and Tobacco, as Representations of this Nature are nothing more than have been always usual & may be expected on such Occasions & as at the same time the Hardship appears not to be great & it is the only method the Board can think of to raise the Companys Revenue, it is agreed that no regard be paid to them and a Letter to Fort St. David on this subject is now signed as enter'd in Letters Sent No. 135.

The Gent. at Fort St. David to send up Captn. D'Illins Complaints.

AGREED to write to the Gentlemen at St. David to transmit to Us the Complaints which Captain D'Illens says he has to lay before them, and that they give back the One hundred and fifty five Bales of Turned out Cloth to their Merchants & make them such further Advances as they may think proper.

Bills from the Renters of Terpetty in full of the Septr. Kist.

The President reports from the Secret Committee that he has received Bills on Gocul Terwady from the Renters and Taseldar of Terpetty in full of the September or first Kist of the Present year of Phaseley 1166 Vizt.

CHARLES BOURCHIER.

The Book of Standing Orders lying on the Table.

The Minutes of last Consultation dated the 20th. Instant read & Signed.

General Letters read from

General Letters read Vizt.

Fort St. David.

No. 176 No. 178 & No. 179 from Alexander Wynch Esqr. and the other Gentlemen of Council at Fort St. David. The first dated the 20th. Instant, acquainting us that the Merchants' having brought in more than their Ballances & represented that without an Advance they should be under the necessity of writing to their Agents in the Country to stop their hands, upon that Consideration they had advanced them three thousand Pagodas each untill they should receive Our Orders. The second dated the 21st. Instant, advising having drawn a Sett of Bills of Exchange on Us for Pagodas One thousand three hundred (1300) in favour of Mr. Henry Powney, for so much paid into the Cash there by Alexander Wynch Esqr. The third dated the 23d. Instant Enclosing such part of Captain D'Illens Complaints as he has deliver'd in, and acquainting Us that that Gentlemen has told them that it would be two Months before he could finish them but that Copy of such part as he had sent to Us himself. That they hope we will Communicate to them whatever they contain more than that he has deliver'd to them. That Captain D'Illins having insinuated that they had no inclination to receive any more of his Complaints they had wrote him that whatever he should deliver in should be faithfully recorded.

General Letters read

From Ingeram.

No. 177 From Foss Westcott Esqr. Resident at Ingeram dated the 3d. Instant Enclosing his Monthly Papers for November and acquainting Us that upon receiving our Orders for Accommodating any of the Inhabitants of Calcutta that should come his way he had repair'd the Factory House at Suncrapollam the charge of which amounts to Pagodas Sixty four, seventeen fanams and seventy six Cash (64–17–76). That the Repairs he has made are no more than was immediately necessary to make it habitable, but that the Buildings in General and the Walls surrounding that Factory are daily mouldering away and much in want of Repairs, that the Expence of them will amount to Pagodas Three hundred (300) & he should be glad to have our Orders for their being set about as well as for repairing the house where he at present resides himself which having receiv'd considerable Damage by the late violent Rains he is apprehensive one of its sides will fall out which may be prevented by repairing it in time the Expence of which will amount to Fifty Pagodas.

From Captn. Lewis D'Illins at Fort St. David.

No. 180 From Captain Lewis D'Illens at Fort St. David dated the 21st. Instant, Acquainting us that the Good of the Service has prompted him to begin some Proceedings against some Gentlemen there whose behaviour he thought prejudicial to the Companys Interest. That he now encloses Copies of what he charges them with and That as soon as his health will permit he shall lay before Us some more irregularities.

From Deve Cotah.

No. 181 From Mr. James Bourchier Chief of DeveCotah dated the 21st. Instant acquainting Us that by the confused Method the Accounts of that Settlement have been hitherto kept, it is impossible for him to come at any certain Knowledge of the value of the Stores that have been received there,

——— *FORT ST. GEORGE, DECEMBER 1756* ———

That he therefore enclosed the Account of Quick Stock to the 30th. April last in Order to have the prices of the different Articles ascertain'd that he may compose a regular Set of Books. That being in want of Stationary he desires We will comply with an Indent he encloses. General Letters read.

The Board having taken into Consideration the Complaints made by Captain D'Illens come to the following Resolutions Vizt. Resolution on Capt. D'Illens Charges agt. Mr. Fairfield &ct.

That the Gentlemen at Fort St. David be directed to enquire in the Strictest Manner into the Conduct of Mr. Richard Fairfield their Military Storehouse-keeper and transmit to Us the Result of such Enquiry and that they be directed to make Enquiry into what Captain D'Illens alledges against Istris Copudy Conicoply to the Civil and Military Paymaster, as also against Trevengodum Conicopoly of the Artificers & Cooleys.

But the Board are of Opinion that the Charges against Mr. Call the Engineer, and Captain Gardner are so ill grounded and improper that Captain D'Illens deserves a Reprimand from them for presuming to call in Question the Capacity & Abilities of two Officers the Board have thought proper to entrust in their several Employs. Agreed therefore to acquaint the Gentlemen at Fort St. David with these our Sentiments and to direct them at the same time to acquaint Captain D'Illens that notwithstanding We are obliged to him for the Information he has lodged, he has gone too far in offering to appoint who shall be Judges of the Misdemeanors he has mentioned, this Board reserving to themselves only the Liberty of bringing Persons to their Trials, makes it necessary that Information only should be laid before them.

Order'd that the Bill from Fort St. David in favour of Mr. Henry Powney be paid And Bill from Fort St. David to be paid.

That the Account of Quick Stock sent from Deve Cotah be referr'd to the Accomptant to ascertain the value of the different Articles in it conformable to the Books of the Presidency. The value of the Deve Cotah Quick Stock to be ascertain'd by the Accomptant.

Agreed to write to Mr. Westcott at Ingeram that this is not a proper time to set about the Repairs at Suncrapollam Factory which he proposes But that he has our Permission to pull down & rebuild the Wall of the house at Nellipillee which he is apprehensive is in danger of falling in, should he find it impracticable to support it by Buttresses. Ingeram to be wrote.

The President informs the Board that Mr. Andrew Munro had been to acquaint him that his Age and great Infirmities had render'd him quite unable to go thro' the Fatigue of the Surgeons employ. That being desirous of giving all the Assistance in his Power, He often went abroad when he was more indisposed than many of his Patients, and that he found himself so little able to do the duty necessary at the Hospital that he was obliged for the good of the People to make known his Infirmities. The President adds, that upon Mr. Munro's leaving him he had thoughts of writing for Mr. Wilson who is the next Surgeon and now at Trichinopoly to come hither to supply his Place, to give Mr. Munro Liberty to retire from all Business and to continue to him his Salary. But considering afterwards the great Merit of this Gentleman, the many Obligations the Inhabitants owe to him, and the great Opinion most of the Gentlemen in the Settlement have of his Abilities, He thought something more should be done for him as a Reward for his past Services, and that the Town should not be deprived of the Advice of so able a Man. He proposes & requests of the Board that they will call up one of the other Surgeons to assist Mr. Turing in the Hospital and that Mr. Munro may be appointed the Companys Physician Mr. Andrew Munro appointed Physician at this Settlement & Mr. Wilson to be called up to the Presidency to assist Mr. Turing as Surgeon.

—— FORT ST. GEORGE, DECEMBER 1756 ——

at this Settlement, and that Orders be given to all the other Surgeons to regard him as such to attend whomsoever he may direct & to administer whatever he may prescribe And that the Company may be address'd On this subject Requesting their Confirmation hereof and a suitable Addition to his Salary. All which the Board unanimously agree to being sensible of Mr. Munro's Merit and that his past Services justly entitle him to the Company's Favour. And the President is desired to write to Mr. James Wilson at Trichinopoly who is the next Surgeon by the Companys Regulations immediately to come up to the Presidency to assist Mr. Turing, and in his Room to send any other of the Gentlemen entertain'd in the Service in that Capacity whom he shall think proper.
